*We Have Raised All of You* May 24 2023 White, black, and Native American women in the early South often viewed motherhood as a composite of roles, ranging from teacher and nurse to farmer and politician. Within a multicultural landscape, mothers drew advice and consolation from female networks, broader intellectual currents, and an understanding of their own multifaceted identities to devise their own standards for child rearing. In this way, by constructing, interpreting, and defending their roles as parents, women in the South maintained a certain degree of control over their own and their children's lives. Focusing on Virginia and the Carolinas from 1750 to 1835, Katy Simpson Smith's study examines these maternal practices to reveal the ways in which diverse groups of women struggled to create empowered identities in the early South. *We Have Raised All of You* contributes to a wide variety of historical conversations by affirming the necessity of multicultural -- not simply biracial -- studies of the American South. Its equally weighted analysis of white, black, and Native American women sets it distinctly apart from other work. Smith shows that while women from different backgrounds shared similar experiences within the trajectory of motherhood, no universal model holds up under scrutiny. Most importantly, this book suggests that

parenthood provided women with some power within their often-circumscribed lives. Alternately restricted, oppressed, belittled, and enslaved, women sought to embrace an identity that would give them some sense of self-respect and self-worth. The rich and varied roles that mothers inherited, Smith shows, afforded women this empowering identity.

**Raised? Sep 04 2021** Did Jesus really beat death? That’s what Christians for hundreds of years have believed, that Jesus Christ returned to life after death and burial in a stone tomb. To the modern mind, “resurrection” is utterly implausible, but it was also doubtful to many first-century Greeks, Jews, and even some Christians. With such an incredible assertion at the heart of the Christian faith, it’s no wonder that some people struggle to believe. Unlike any other book on the resurrection, **Raised?**

**encourages you to doubt in order to believe. Too often Christians look down on doubt, but in Christ, we see a person who welcomes doubt and encourages faith. Jonathan Dodson and Brad Watson don't shy away from the hard questions or settle for easy answers. They help you to see how the resurrection offers hope for the future and answers for the life and death questions we all face. "I encourage Christians and non-Christians alike to read this book. . . . provocative, illuminating, and succinct." —Eileen Flynn, former religion reporter for Austin American-Statesman and Journalism and religion lecturer at the University of Texas "Wonderfully demonstrates the plausibility of the resurrection of Jesus and the possibilities for a life of hope." —Sean McDonough, professor of New Testament at Gordon-Conwell Theological Seminary and author of Christ as Creator: Origins of a New Testament Doctrine**

**Collaboration, and Kindness: TRICK. Esther Wojcicki--"Woj" to her many friends and admirers--is famous for three things: teaching a high school class that has changed the lives of thousands of kids, inspiring Silicon Valley legends like Steve Jobs, and raising three daughters who have each become famously successful. What do these three accomplishments have in common? They're the result of TRICK, Woj's secret to raising successful people: Trust, Respect, Independence, Collaboration, and Kindness. Simple lessons, but the results are radical. Wojcicki's methods are the opposite of helicopter parenting. As we face an epidemic of parental anxiety, Woj is here to say: relax. Talk to infants as if they are adults. Allow teenagers to pick projects that relate to the real world and their own passions, and let them figure out how to complete them. Above all, let your child lead. How to Raise Successful People offers essential lessons for raising, educating, and managing people to their highest potential. Change your parenting, change the world.**

**»If Christ has not been raised ...« Aug 03 2021 The present volume contains the proceedings of the fourth symposium of the *Novum Testamentum Patristicum* project (NTP), an international re-search project on the reception history of the New Testament in the early Church. The symposium was held in October 2012 at the University of Leuven. It was organised by Joseph Verheyden, Tobias Nicklas, and Andreas Merkt, the coordinators of NTP. The topic of the meeting was the reception of the resurrection and empty tomb stories and the development of the belief in resurrection in the early Church. The belief in the resurrection constitutes the core issue of Christianity and of Christian tradition. The earliest references to the resurrection and witnesses to such a belief are found in the canonical gospels and in the letters of Paul, but the topic obviously remained of the utmost importance all through the early Church. Contributions to this volume offer studies on reception of the resurrection and empty tomb stories and the development of the belief in resurrection in the early Church by examining the most important early references on this topic.**

**And If He Has Not Been Raised... Oct 05 2021 At Passiontide 2004, Judith von Halle received the stigmata, the duplication on her body of the wounds of Christ. Following a period of careful consideration, she eventually decided to share this intimate occurrence with a small group in Berlin in Michaelmas of that year. Usually, the phenomenon of the stigmata is either seen as a sheer miracle or simply denied. By contrast, in her first lectures contained in this volume, she tries--based on Rudolf Steiner's spiritual scientific knowledge--to understand it and its significance for personal destiny. As a result of receiving the stigmata, von Halle began to experience the events of the life of Christ in full sensory detail. Moreover, she has explored these events through spiritual scientific research, sometimes called "continuity of consciousness." In the following five lectures, she offers commentary to the Mystery of Golgotha, the "turning point in world history." Her intention is to stimulate the reader to reflect patiently and repeatedly upon this great mystery and to enter an continually closer relationship with Christ. *"But God Raised Him from the Dead"* Apr 18 2020 'But God Raised Him from the Dead' is the first comprehensive study of Jesus' resurrection in Luke-Acts. Through wide-sweeping research and detailed exegesis, Dr. Anderson supports the claim that the resurrection of Jesus is the focus of the message of salvation in Luke-Acts. The study situates Luke's resurrection theology within Jewish and Hellenistic conceptions of the afterlife, and addresses critical questions in Lukan studies, such as the relationship between resurrection, ascension, and exaltation and the vital linkage between Jesus' resurrection, the hope of Israel, and the final resurrection of the dead. 'But God Raised Him from the Dead' demonstrates how the resurrection of Messiah-Jesus is indispensable to the major theological dimensions of Luke's narrative of God's saving action. Jesus' resurrection is a key component in the divine plan to raise up the Savior for Israel, to extend God's saving benefits to the ends of the earth, and to guarantee the complete fulfillment of the hope of Israel and salvation of the people of God at the final resurrection of the dead.

**The Years They Raised Chicago Aug 15 2022 Chicago, Illinois sits at the southernmost end of Lake Michigan. In the early days of the United States, it was a great place to build a city. The lake supplied the fresh water they needed to live. Trees were**

everywhere, providing wood for buildings. The lake supplied the settlers with numerous kinds of fish, including trout, sturgeon, carp, and catfish. There was good farm land nearby for growing crops. The lake even provided a means to ship the grain they raised to the east. Everything seemed perfect. Unfortunately it was too perfect. People flocked to Chicago by the boatload, and many more came overland. In 1840 the population was 4,470. Twenty years later it had grown to 112,172! But the homes did not have plumbing. People would use a chamber pot to go to the bathroom in. The pot would then be dumped out into the street. There it would mix with the horse manure from the thousands of horses that walked the streets every day. Something had to be done! Find out how they solved the problem by raising an entire city in this fun 15-minute book. Ages 8 and up. **As Nature Made Him Aug 27 2023 NEW YORK TIMES BESTSELLER** “We should aspire to Colapinto's stellar journalist example: listening carefully to the circumstances of those who are different rather than demanding that they conform to our own.” —Washington Post The true story about the "twins case" and a riveting exploration of medical arrogance, misguided science, societal confusion, gender differences, and one man's ultimate triumph In 1967, after a twin baby boy suffered a botched circumcision, his family agreed to a radical treatment that would alter his gender. The case would become

one of the most famous in modern medicine—and a total failure. The boy's uninjured brother, raised as a boy, provided to the experiment the perfect matched control. *As Nature Made Him* tells the extraordinary story of David Reimer, who, when finally informed of his medical history, made the decision to live as a male. Writing with uncommon intelligence, insight, and compassion, John Colapinto sets the historical and medical context for the case, exposing the thirty-year-long scientific feud between Dr. John Money and his fellow sex researcher, Dr. Milton Diamond—a rivalry over the nature/nurture debate whose very bitterness finally brought the truth to light. A macabre tale of medical arrogance, it is first and foremost a human drama of one man's—and one family's—amazing survival in the face of terrible odds.

*Raised by Wolves* Jul 22 2020 Adopted by the alpha of a werewolf pack after a rogue wolf brutally killed her parents right before her eyes, fifteen-year-old Bryn knows only pack life, and the rigid social hierarchy that controls it. That doesn't mean that she's averse to breaking a rule or two. But when her curiosity gets the better of her and she discovers Chase, a new teen locked in a cage in her guardian's basement, and witnesses him turn into a wolf before her eyes, the horrific memories of her parents' murders return. Bryn becomes obsessed with getting her questions answered, and Chase is the only one who can provide the information she needs. But in her drive to find the truth, will Bryn push too far beyond the constraints of the pack, forcing her to leave behind her friends, her family, and the identity that she's shaped? An exciting new paranormal adventure, with a heroine that rivals Buffy, *Raised by Wolves* will leave you howling for more.

**About the Author Apr 30 2021** From the author of the New York Times bestseller *As Nature Made Him* comes a “clever and entertaining first novel.”—Elle Despite a severe case of writer's block, Cal Cunningham dreams of writing a novel that will permit him to escape from his life as a penniless stockboy in dirty and dangerous upper Manhattan bookstore. However, when his roommate is suddenly killed in a bicycle accident, Cal is suddenly the author of a page-turning autobiography. Propelled to the top of the bestseller lists with million-dollar movie deals, Cal finds that he has realized his most outlandish fantasies of literary success. That is, until he discovers that someone knows his secret. A searingly funny psychological thriller, *About the Author* delves into the excesses of the publishing world and shows that sometimes the difference between reality and imagination can be fatal.

**A Guidebook for Single Mothers Raising Daughters Oct 25 2020** If you are a mother raising a daughter alone this book is for you. There is a need for all children to have a loving interaction from both biological parents. With that said...you must first understand that a state of being fatherless has a direct impact on a child's ability to receive and give love. It also shapes the establishment of true identity, which is imparted by the father. This subsequently could affect your daughter's ability to care and love her own child in a healthy manner as a mom. Merely giving birth to a child will not automatically make a woman maternal. As mothers, we have to be deliberate in the way we nurture, love, and guide our children. An emotional disconnection between a child and her caregivers will affect the child's overall development.

**Raised with Christ Jul 14 2022** Jesus truly is alive today. But

**compared to his atoning death, Jesus' resurrection sparks relatively little discussion in the church. Inadvertently, we can become so focused on the good news that Christ died for our sins, that we almost forget he was "raised for our justification" (Romans 4:25). In *Raised with Christ*, author Adrian Warnock exhorts Christians not to neglect the resurrection in their teaching and experience. Warnock takes his cue from Acts, where every recorded sermon focuses on Jesus' resurrection. He stresses that Christians who faithfully proclaim both the death and the bodily resurrection of Jesus, and live out the implications of that message in vibrant, grace-filled churches, will be enabled to reach a world that lives in death's dark shadow. The power of the risen Christ is active in every true Christian, transforming our lives. *Raised with Christ* will help you discover afresh the massive implications of the empty tomb. Jesus' resurrection really has changed everything.**

**Help at Any Cost May 20 2020** The troubled-teen industry, with its scaremongering and claims of miraculous changes in behavior through harsh discipline, has existed in one form or another for decades, despite a dearth of evidence supporting its methods. And the growing number of programs that make up this industry are today finding more customers than ever. Maia Szalavitz's **Help at Any Cost** is the first in-depth investigation of this industry and its practices, starting with its roots in the cultlike sixties rehabilitation program Synanon and Large Group Awareness Training organizations likeest in the seventies; continuing with Straight, Inc., which received Nancy Reagan's seal of approval in the eighties; and culminating with a look at the World Wide Association of Specialty Programs-the leading force in the industry today-which has begun setting up shop in foreign countries to avoid regulation. Szalavitz uncovers disturbing findings about these programs' methods, including allegation of physical and verbal abuse, and presents us with moving, often horrifying, first-person accounts of kids who made it through-as well as stories of those who didn't survive. The book also contains a thoughtfully compiled guide for parents, which details effective treatment alternatives. Weaving careful reporting with astute analysis, Maia Szalavitz has written an important and timely survey that will change the way we look at rebellious teens-and the people to whom we entrust them. **Help at Any Cost** is a vital resource with an urgent message that will draw attention to a compelling issue long overlooked.

**Born for Love Jun 25 2023 The groundbreaking exploration of the power of empathy by renowned child-psychiatrist Bruce D. Perry, co-author, with Oprah Winfrey, of What Happened to You? Born for Love reveals how and why the brain learns to bond with others—and is a stirring call to protect our children from new threats to their capacity to love. “Empathy, and the ties that bind people into relationships, are key elements of happiness. Born for Love is truly fascinating.” — Gretchen Rubin, author of The Happiness Project From birth, when babies' fingers instinctively cling to those of adults, their bodies and brains seek an intimate connection, a bond made possible by empathy—the ability to love and to share the feelings of others. In this provocative book, psychiatrist Bruce D. Perry and award-winning science journalist Maia Szalavitz interweave research and stories from Perry's practice with cutting-edge scientific studies and historical examples to explain how empathy develops, why it is essential for our development into healthy adults, and how to raise kids with empathy while navigating threats from technological change and other forces in the modern world. Perry and Szalavitz show that compassion underlies the qualities that**

**make society work—trust, altruism, collaboration, love, charity—and how difficulties related to empathy are key factors in social problems such as war, crime, racism, and mental illness. Even physical health, from infectious diseases to heart attacks, is deeply affected by our human connections to one another. As *Born for Love* reveals, recent changes in technology, child-rearing practices, education, and lifestyles are starting to rob children of necessary human contact and deep relationships—the essential foundation for empathy and a caring, healthy society. Sounding an important warning bell, *Born for Love* offers practical ideas for combating the negative influences of modern life and fostering positive social change to benefit us all.**
