In Search of the Third Man Nov 15 2022 (Limelight). Half a century after its opening, *The Third Man* remains an unquestioned masterpiece of film artistry and, for many, the greatest British movie ever made. Whether it is Harry Lime's magical first appearance or the celebrated cuckoo clock speech or the climactic chase through the sewers beneath Vienna or the haunting theme music of Anton Karas, the film contains some of the most memorable moments in screen history. Drawing on both contemporary documents and accounts of the people involved, *In Search of The Third Man* explores the many myths that over the years have grown around this extraordinary film, and seeks to unravel the facts from the fiction. "...you'll want to read *The Third Man*...The story of the film's creation is as intriguing as the film itself" Leonard Maltin, Playboy

In Search of Sundance, Nessie ... and Paradise! May 17 2020 Have you ever wondered what it might be like to travel as one big, happy family over one thousand miles in a motor home? Simon Bennett did more than think about it: He decided to do it. It all began when he and his wife, Emma, adopted a dolphin and a polar bear as gifts to give to their twin children on their eighth birthday: Jessica and Jacob. But the determined Jessica simply had to see her adopted dolphin, which the family learned was named Sundance and lived in the Moray Firth in the highlands of Scotland, which is hundreds of miles away. (Fortunately, Jacob wasn't as determined to see his adopted polar bear in the Arctic - yet!). Simon had but little choice to start researching, and he found a great campsite book that became his reference source to plan an expedition in a motor home to see some of Scotland's lochs, coastline, and historic places. Laugh, learn, and celebrate with a family that embarks on an inspiring journey filled with discoveries and adventures they won't ever forget with *In Search of Sundance, Nessie ... and Paradise!*

In Search of Meaning Jul 11 2022 Many authors shy away from religious definitions of human purpose. But Nossrat Peseschkian, who shares with me the Baha'i perspective of purpose, clearly shows how the quest to unite a soul with its God serves and is served by scientific and cultural perspectives of meaning. Spiritual verities become beacons to guide us to find ways to work together and create new dimensions for consultation in the making of decisions. Depression is rife today. We often do not feel that we are in charge of our own lives, and feel impotent to influence the destiny of society. Peseschkian brings us a positive approach. He provides a key for us to discover the relationship between our various capacities and their development. For so many of us, our capacities lie unused, often even unrecognized. This book seeks to answer the question «How can I use my capacities?» and to demonstrate practically and specifically how science, politics, religion, and the web of human relationships can assist in their development and use. Balance is the key: the balance between various aspects of our life, the balance of our modes of learning and thinking and feeling, the balance in our concept of man and his purpose, the balance found in the lessons of the past and the vision of the future, and the balance which defines our responsibility for our personal and our societal destinies.

If we desire to possess these qualities, we must make a commitment to a deeper understanding and implementation of these values in our daily lives. In Search of Memory: The Emergence of a New Science of Mind Sep 13 2022 "A stunning book."—Oliver Sacks Memory binds our mental life together. We are who we are in large part because of what we learn and remember. But how does the brain create memories? Nobel Prize winner Eric R. Kandel intertwines the intellectual history of the powerful new science of the mind—a combination of cognitive psychology, neuroscience, and molecular biology—with his own personal quest to understand memory. A deft mixture of memoir and history, modern biology and behavior, *In Search of Memory* brings readers from Kandel's childhood in Nazi-occupied Vienna to the forefront of one of the great scientific endeavors of the twentieth century: the search for the biological basis of memory.

In Search of Mary Shelley: The Girl Who Wrote Frankenstein Aug 12 2022 Coinciding with the 200th anniversary of the publication of *Frankenstein* in 1818, a prize-winning poet delivers a major new biography of Mary Shelley—as she has never been seen before. We know the facts of Mary Shelley's life in some detail—the death of her mother, Mary Wollstonecraft, within days of her birth; the upbringing in the house of her father, William Godwin, in a house full of radical thinkers, poets, philosophers, and writers; her elopement, at the age of seventeen, with Percy Shelley; the years of peripatetic travel across Europe that followed. But there has been no literary biography written this century, and previous books have ignored the real person—what she actually thought and felt and why she did what she did—despite the fact that Mary and her group of second-generation Romantics were extremely interested in the psychological aspect of life. In this probing narrative, Fiona Sampson pursues Mary Shelley through her turbulent life, much as Victor Frankenstein tracked his monster across the arctic wastes. Sampson has written a book that finally answers the question of how it was that a nineteen-year-old came to write a novel so dark, mysterious, anguished, and psychologically astute that it continues to resonate two centuries later. No previous biographer has ever truly considered this question, let alone answered it.

In Search of Soulmate Jul 31 2021 IN SEARCH SOULMATE is woven around two female protagonists. Akshara, a teacher by choice and profession, is married to a caring husband, has two lovely children and has had a relatively comfortable pre-nuptial life. Inayah, a doctor by profession and writer by choice, comes from a Muslim background, loved by most and corrupted by some in the family. She is betrothed to her childhood friend with a future well defined. Representing different social and religious backgrounds, Inayah and Akshara deconstruct their lives to transcend the boundaries which had prevented them from discovering their 'Self'. They cast aside the veils of social prejudices to find fulfilment in each other. They stand out as a lighthouse for all those who are floundering in the sea of existentialism, trying to find an anchor. Shocking perhaps, but a religiously honest presentation by the author who has boldly tackled such a fundamental, fiery and contemporary subject; gearing up the mind to THINK...

In Search of a Kingdom Feb 06 2022 "FASCINATING . . . Dramatic and timely." —New York Times Book Review, Editors' Choice In this grand and thrilling narrative, the acclaimed biographer of Magellan and Columbus reveals the singular adventures of Sir Francis Drake, whose mastery of the seas during the reign of Queen Elizabeth I changed the course of history. "Entrancing . . . Very good indeed." —Wall Street Journal Before he was secretly dispatched by Queen Elizabeth to circumnavigate the globe, or was called upon to save England from the Spanish Armada, Francis Drake was perhaps the most wanted—and successful—pirate ever to sail. Nicknamed "El Draque" by the Spaniards who placed a bounty on his head, the notorious red-haired, hot-tempered Drake pillaged galleons laden with New World gold and silver, stealing a vast fortune for his queen—and himself. For Elizabeth, Drake made the impossible real, serving as a crucial and brilliantly adaptable instrument of her ambitions to transform England from a third-rate island kingdom into a global imperial power. In 1580, sailing on Elizabeth's covert orders, Drake became the first captain to circumnavigate the earth successfully. (Ferdinand Magellan had died in his attempt.) Part exploring expedition, part raiding mission, Drake's audacious around-the-world journey in the Golden Hind reached Patagonia, the Pacific Coast of present-day California and Oregon, the Spice Islands, Java, and Africa. Almost a decade later, Elizabeth called upon Drake again. As the devil-may-care vice admiral of the English fleet, Drake dramatically defeated the once-invincible Spanish Armada, spurring the British Empire's ascent and permanently wounding its greatest rival. The relationship between Drake and Elizabeth is the missing link in our understanding of the rise of the British Empire, and its importance has not been fully described or appreciated. Framed around Drake's key voyages as a window into this crucial moment in British history, *In Search of a Kingdom* is a rousing adventure narrative entwining epic historical themes with intimate passions.

How to Live. What to Do Apr 08 2022 A brilliant psychoanalyst and professor of literature invites us to contemplate profound questions about the human experience by focusing on some of the best-known characters in literature—from how Virginia Woolf's Mrs. Dalloway copes with the inexorability of midlife disappointment to Ruth's embodiment of adolescent rebellion in Kazuo Ishiguro's *Never Let Me Go*. "So beautiful ... a fantastic book." —Zadie Smith, best-selling author of *White Teeth* In supple and elegant prose, and with all the expertise and insight of his dual professions, Josh Cohen explores a new way for us to understand ourselves. He helps us see what Lewis Carroll's Alice and Harper Lee's Scout Finch can teach us about childhood. He delineates the mysteries of education as depicted in *Jane Eyre* and as seen through the eyes of Sandy Stranger in *The Prime of Miss Jean Brodie*. He discusses the need for adolescent rebellion as embodied in John Grimes in James Baldwin's *Go Tell It on the Mountain* and in Ruth in Kazuo Ishiguro's *Never Let Me Go*. He makes clear what Goethe's Young Werther and Sally Rooney's Frances have—and don't have—in common as they experience first love; how Middlemarch's Dorothea Brooke deals with the vicissitudes of marriage. Vis-a-vis old age and death, Cohen considers what wisdom we may glean from John Ames in Marilynne Robinson's *Gilead* and from Don Fabrizio in Giuseppe Tomasi di Lampedusa's *The Leopard*. Featuring: • Alice—Lewis Carroll, *Alice's Adventures in Wonderland* / *Through the Looking Glass* • Scout Finch—Harper Lee, *To Kill a Mockingbird* • Jane Eyre—Charlotte Brontë, *Jane Eyre* • John Grimes—James Baldwin, *Go Tell It on the Mountain* • Ruth—Kazuo Ishiguro, *Never Let Me Go* • Vladimir Petrovitch—Ivan Turgenev, *First Love* • Frances—Sally Rooney, *Conversations with Friends* • Jay Gatsby—F. Scott Fitzgerald, *The Great Gatsby* • Esther Greenwood—Sylvia Plath, *The Bell Jar* • Clarissa Dalloway—Virginia Woolf, *Mrs. Dalloway* • And more!

Scientists in Search of Their Conscience Jul 19 2020 "Scientists in Search of Their Conscience" is the edited proceedings of the European Symposium on the effects of science on society held in Brussels in 1971. Organised by The European Committee of The Weizmann Institute, Israel, the Conference gave scientists from varied disciplines and many countries the platform from which to explore in depth the dilemma facing them. The dilemma is the responsibility of scientists for society's use of scientific findings. Though no hard and fast conclusions were reached-in fact quite the contrary-the discussions left no doubt that scientists were becoming aware that they can no longer claim that the pursuit of knowledge is divorced from its use. Yet should they begin to face the responsibility for the application of their work, it is clear that their freedom will be impaired. The loss of freedom is of course part of the dilemma of science. In Search of the Old Ones Jun 22 2023 An exuberant, hands-on fly-on-the-wall account that combines the thrill of canyoneering and rock climbing with the intellectual sleuthing of archaeology to explore the Anasazi. David Roberts describes the culture of the Anasazi—the name means “enemy ancestors” in Navajo—who once inhabited the Colorado Plateau and whose modern descendants are the Hopi Indians of Arizona. Archaeologists, Roberts writes, have been puzzling over the Anasazi for more than a century, trying to determine the environmental and cultural stresses that caused their society to collapse 700 years ago. He guides us through controversies in the historical record, among them the haunting question of whether the Anasazi committed acts of cannibalism. Roberts's book is full of up-to-date thinking on the culture of the ancient people who lived in the harsh desert country of the Southwest.

In Search of The Color Purple May 21 2023 Mixing cultural criticism, literary history, biography, and memoir, an exploration of Alice Walker's critically acclaimed and controversial novel, *The Color Purple* Alice Walker made history in 1983 when she became the first black woman to win the Pulitzer Prize and the National Book Award for *The Color Purple*. Published in the Reagan era amid a severe backlash to civil rights, the *Jazz Age* novel tells the story of racial and gender inequality through the life of a 14-year-old girl from Georgia who is haunted by domestic and sexual violence. Prominent academic and activist Salamishah Tillet combines cultural criticism, history, and memoir to explore Walker's epistolary novel and shows how it has influenced and been informed by the zeitgeist. The *Color Purple* received both praise and criticism upon publication, and the conversation it sparked around race and gender still continues today. It has been adapted for an Oscar-nominated film and a hit Broadway musical. Through archival research and interviews with Walker, Oprah Winfrey, and Quincy Jones (among others), Tillet studies Walker's life and how themes of violence emerged in her earlier work. Reading *The Color Purple* at age 15 was a groundbreaking experience for Tillet. It continues to resonate with her—as a sexual violence survivor, as a teacher of the novel, and as an accomplished academic. Provocative and personal, *In Search of The Color Purple* is a bold work from an important public intellectual, and captures Alice Walker's seminal role in rethinking sexuality, intersectional feminism, and racial and gender politics.

One Poem in Search of a Translator Jun 17 2020 Translation is a journey - a journey undertaken by the text, hopping around the world and mischievously border-crossing from one language to another, from one culture to another. For a translator, this journey can become a truly creative engagement with the otherness of the source text, an experience of self-discovery leading to understanding and enrichment, and ultimately towards a new text. This singular literary 'experiment' intends to magnify the idiosyncrasy of this translational journey. In the process translation reveals itself as an increasingly creative activity rather than simply a linguistic transfer. This volume consists of twelve translations of one poem: 'Les Fenêtres' by the French poet Apollinaire. The translators embarking on this project, all from different backgrounds and working contexts (poets, professional translators, academics, visual artists), were asked to engage with the inherent multimodality of this poem - inspired by Robert Delaunay's Les Fenêtres series of paintings. The result is a kaleidoscopic diversity of approaches and final products. Each translation is accompanied by self-reflective commentary which provides insight into the complex process and experience of translation, enticing the reader to join this journey too.

In Search of Power Jan 05 2022 "In the critical period from 1956 to 1974, the emergence of newly independent states worldwide and the struggles of the civil rights movement in the United States exposed the limits of racial integration and political freedom. Dissidents, leaders and elites alike were linked in a struggle for power in a world where the rules of the game had changed. Brenda Gayle Plummer traces the connections between African Americans' involvement in international affairs and their influence on American foreign policy, integrating African American history, the history of the African diaspora and the history of United States foreign relations"--Provided by publisher.

In Search of the Unknown Nov 22 2020 Because it all seems so improbable—so horribly impossible to me now, sitting here safe and sane in my own library—I hesitate to record an episode which already appears to me less horrible than grotesque. Yet, unless this story is written now, I know I shall never have the courage to tell the truth about the matter—not from fear of ridicule, but because I myself shall soon cease to credit what I now know to be true. Yet scarcely a month has elapsed since I heard the stealthy purring of what I believed to be the shoaling undertow—scarcely a month ago, with my own eyes, I saw that which, even now, I am beginning to believe never existed. As for the harbor-master—and the blow I am now striking at the old order of things—But of that I shall not speak now, or later; I shall try to tell the story simply and truthfully, and let my friends testify as to my probity and the publishers of this book corroborate them. On the 29th of February I resigned my position under the government and left Washington to accept an offer from Professor Farrago—whose name he kindly permits me to use—and on the first day of April I entered upon my new and congenial duties as general superintendent of the water-fowl department connected with the Zoological Gardens then in course of erection at Bronx Park, New York. For a week I followed the routine, examining the new foundations, studying the architect's plans, following the surveyors through the Bronx thickets, suggesting arrangements for water-courses and pools destined to be included in the enclosures for swans, geese, pelicans, herons, and such of the waders and swimmers as we might expect to acclimate in Bronx Park. It was at that time the policy of the trustees and officers of the Zoological Gardens neither to employ collectors nor to send out expeditions in search of specimens. The society decided to depend upon voluntary contributions, and I was always busy, part of the day, in dictating answers to correspondents who wrote offering their services as hunters of big game, collectors of all sorts of fauna, trappers, snarers, and also to those who offered specimens for sale, usually at exorbitant rates. To the proprietors of five-legged kittens, mangy lynxes, moth-eaten coyotes, and dancing bears I returned courteous but uncompromising refusals—of course, first submitting all such letters, together with my replies, to Professor Farrago. One day towards the end of May, however, just as I was leaving Bronx Park to return to town, Professor Lesard, of the reptilian department, called out to me that Professor Farrago wanted to see me a moment; so I put my pipe into my pocket again and retraced my steps to the temporary, wooden building occupied by Professor Farrago, general superintendent of the Zoological Gardens. The professor, who was sitting at his desk before a pile of letters and replies submitted for approval by me, pushed his glasses down and looked over them at me with a whimsical smile that suggested amusement, impatience, annoyance, and perhaps a faint trace of apology.

In Search of Soul Oct 02 2021 In Search of Soul explores the meaning of “soul” in sacred and profane incarnations, from its biblical origins to its central place in the rich traditions of black and Latin history. Surveying the work of writers, artists, poets, musicians, philosophers and theologians, Alejandro Nava shows how their understandings of the “soul” revolve around narratives of justice, liberation, and spiritual redemption. He contends that biblical traditions and hip-hop emerged out of experiences of dispossession and oppression. Whether born in the ghettos of America or of the Roman Empire, hip-hop and Christianity have endured by giving voice to the persecuted. This book offers a view of soul in living color, as a breathing, suffering, dreaming thing.

In Search of the Sacred Book Apr 20 2023 In Search of the Sacred Book studies the artistic incorporation of religious concepts such as prophecy, eternity, and the afterlife in the contemporary Latin American novel. It departs from sociopolitical readings by noting the continued relevance of religion in Latin American life and culture, despite modernity's powerful secularizing influence. Analyzing Jorge Luis Borges's secularized “narrative theology” in his essays and short stories, the book follows the development of the Latin American novel from the early twentieth century until today by examining the attempts of major novelists, from María Luisa Bombal, Alejo Carpentier, and Juan Rulfo, to Julio Cortázar, Gabriel García Márquez, and José Lezama Lima, to “sacralize” the novel by incorporating traits present in the sacred texts of many religions. It concludes with a view of the “desacralization” of the novel by more recent authors, from Elena Poniatowska and Fernando Vallejo to Roberto Bolaño.

In Search of the Primitive May 29 2021 Anthropology is a kind of debate between human possibilities—a dialectical movement between the anthropologist as a modern man and the primitive peoples he studies. In Search of the Primitive is a tough-minded book containing chapters ranging from encounters in the field to essays on the nature of law, schizophrenia and civilization, and the evolution of the work of Claude Lévi-Strauss. Above all it is reflective and self-critical, critical of the discipline of anthropology and of the civilization that produced that discipline. Diamond views the anthropologist who refuses to become a searching critic of his own civilizations as not merely irresponsible, but a tool of Western civilization. He rejects the associations which have been made in the ideology of our civilization, consciously or unconsciously, between Western dominance and progress, imperialism and evolution, and progress.

In Search of Lost Books Oct 14 2022 The gripping and elegiac stories of eight lost books, and the mysterious circumstances behind their disappearances. They exist as a rumour or a fading memory. They vanished from history leaving scarcely a trace, lost to fire, censorship, theft, war or deliberate destruction, yet those who seek them are convinced they will find them. This is the story of one man's quest for eight mysterious lost books. Taking us from Florence to Regency London, the Russian Steppe to British Columbia, Giorgio van Straten unearths stories of infamy and tragedy, glimmers of hope and bitter twists of fate. There are, among others, the rediscovered masterpiece that he read but failed to save from destruction; the Hemingway novel that vanished in a suitcase at the Gare du Lyon; the memoirs of Lord Byron, burnt to avoid a scandal; the Magnum Opus of Bruno Schulz, disappeared along with its author in wartime Poland; the mythical Sylvia Plath novel that may one day become reality. As gripping as a detective novel, as moving as an elegy, this is the tale of a love affair with the impossible, of the things that slip away from us but which, sometimes, live again in the stories we tell.

In Search of Work-Life Balance Aug 20 2020 If only I could spend more time at home and (much) less time at work. If only I knew what to do to make that change. If only I could achieve that elusive goal of work-life balance. In the spare moments of calm and quiet before your head hits the pillow, do thoughts like these cross your mind? Do you long to be at home when you're working overtime for the eighth week in a row? Does your work pull you away from quality time with your spouse or kids, even when you're home? When you're home, are you really there? Forty percent of Americans work more than fifty hours per week. And many fall into the trap of working longer so that we might be able to provide more for our families. But is sacrificing our one finite resource-time-worth the cost? In Search of Work-Life Balance presents a biblically based, practical, and achievable way forward for anyone who's wrestling to find a functional balance between the necessity of work and the desire to spend time with those who matter the most.

In Search of Ancient Kings Dec 24 2020 The Egúngún society is one of the least-studied and written-about aspects of African diasporic spiritual traditions. It is the society of the ancestors, the society of the dead. Its primary function is to facilitate all aspects of ancestor veneration. Though it is fundamental to Yorùbá culture and the Ifá/Òrìṣà tradition of the Yorùbá, it did not survive intact in Cuba or the US during the forced migration of the Yorùbá in the Middle Passage. Taking hold only in Brazil, the Egúngún cult has thrived since the early 1800s on the small island of Itaparica, across the Bay of All Saints from Salvador, Bahia. Existing almost exclusively on this tiny island until the 1970s (migrating to Rio de Janeiro and, eventually, Recife), this ancient cult was preserved by a handful of families and flourished in a strict, orthodox manner. Brian Willson spent ten years in close contact with this lineage at the Candomble temple Xango Cá Te Espero in Rio de Janeiro and was eventually initiated as a priest of Egúngún. Representing the culmination of his personal involvement, interviews, research, and numerous visits to Brazil, this book relates the story of Egúngún from an insider's view. Very little has been written about the cult of Egúngún, and almost exclusively what is written in English is based on research conducted in Africa and falls into the category of descriptive and historical observations. Part personal journal, part metaphysical mystery, part scholarly work, and part field research, In Search of Ancient Kings illuminates the nature of Egúngún as it is practiced in Brazil.

In Search of Schrodinger's Cat Feb 23 2021 Quantum theory is so shocking that Einstein could not bring himself to accept it. It is so important that it provides the fundamental underpinning of all modern sciences. Without it, we'd have no nuclear power or nuclear weapons, no TV, no computers, no science of molecular biology, no understanding of DNA, no genetic engineering. In Search of Schrodinger's Cat tells the complete story of quantum mechanics, a truth stranger than any fiction. John Gribbin takes us step by step into an ever more bizarre and fascinating place, requiring only that we approach it with an open mind. He introduces the scientists who developed quantum theory. He investigates the atom, radiation, time travel, the birth of the universe, superconductors and life itself. And in a world full of its own delights, mysteries and surprises, he searches for Schrodinger's Cat - a search for quantum reality - as he brings every reader to a clear understanding of the most important area of scientific study today - quantum physics. In Search of Schrodinger's Cat is a fascinating and delightful introduction to the strange world of the quantum - an essential element in understanding today's world.

Coelebs in Search of a Wife Sep 20 2020 In this, Hannah More's only novel and an early nineteenth-century best-seller, More gives voice to a wealthy twenty-three-year-old bachelor, who styles himself “Coelebs” (unmarried), but seeks a wife. After the death of his father, Coelebs journeys from the north of England to London, where he encounters a fashionable array of eager mothers and daughters before he visits the Hampshire home of his father's friend, Mr. Stanley. Lucilla Stanley, Mr. Stanley's daughter, is both an intellectual and a domestic woman, and Coelebs' ideal partner. In this intelligent novel about the meeting of two minds, More shows the ways in which a couple becomes truly “matched” as opposed to merely “joined.” Along with a critical introduction, this Broadview edition includes a wide selection of historical documents, from reviews, imitations, and sequels of Coelebs in Search of a Wife to related contemporary writings on conduct, courtship, and women's education.

In Search of the Dark Ages Apr 15 2020 Updated with the latest archaeological research new chapters on the most influential yet widely unrecognised people of the British isles, In Search of the Dark Ages illuminates the fascinating and mysterious centuries between the Romans and the Norman Conquest of 1066. In this new edition, Michael Wood vividly conjures some of the most important people in British history such as Hadrian, a Libyan refugee from the Arab conquests and arguably the most important person of African origin in British history, to Queen Boadicea, the leader of a terrible war of resistance against the Romans. Here too, warts and all, are the Saxon, Viking and Norman kings who laid the political foundations of England: Offa of Mercia, Alfred the Great, Athelstan, and William the Conqueror, whose victory at Hastings in 1066 marked the end of Anglo-Saxon England. Reflecting the latest historical, textual and archaeological research, this revised and updated edition of Michael Wood's classic book overturns preconceptions of the Dark Ages as a shadowy and brutal era, showing them to be a richly exciting and formative period in the history of Britain.

In Search of Snow Nov 03 2021 In the hot Arizona desert of the late 1950s, Mike McGurk comes of age in one big, riotous gush. Trapped pumping gas at a desolate roadstop, he yearns for things he has never known: love, hope, and the soft, white calmness of snow. Mike's world is filled with a menagerie of quirky characters, who cope with the weight of their unfulfilled dreams with bravado, humor, and violence. Mike trades snappy insults with his macho father, Texaco Turk McGurk, a moustachioed amateur boxer and self-proclaimed war hero who is unable to talk about love. Mike lusts after Lily, his seductive, poem-writing cousin. He cowers before and then confronts the vicious Ramseys, grandson of Mr. Sneezzy, the wisecracking Apache. And he is rescued by his best friend, Bobo, who delivers him into the care of the loving and generous Mama and Papa Garcia. In Search of Snow is an explosive coming-of-age adventure, full of hilarious episodes and still, poignant moments. Like a blue-collar Don Quixote, Mike must blow up his windmills before he can set off to find the things he lacks, especially the snow that will temper the passion he has just set aflame.

Travels with George Feb 18 2023 NEW YORK TIMES BESTSELLER “Travels with George . . . is quintessential Philbrick—a lively, courageous, and masterful achievement.” —The Boston Globe Does George Washington still matter? Bestselling author Nathaniel Philbrick argues for Washington's unique contribution to the forging of America by retracing his journey as a new president through all thirteen former colonies, which were now an unsure nation. Travels with George marks a new first-person voice for Philbrick, weaving history and personal reflection into a single narrative. When George Washington became president in 1789, the United States of America was still a loose and quarrelsome confederation and a tentative political experiment. Washington undertook a tour of the ex-colonies to talk to ordinary citizens about his new government, and to imbue in them the idea of being one thing—Americans. In the fall of 2018, Nathaniel Philbrick embarked on his own journey into what Washington called “the infant woody country” to see for himself what America had become in the 229 years since. Writing in a thoughtful first person about his own adventures with his wife, Melissa, and their dog, Dora, Philbrick follows Washington's presidential excursions: from Mount Vernon to the new capital in New York; a monthlong tour of Connecticut, Massachusetts, New Hampshire, and Rhode Island; a venture onto Long Island and eventually across Georgia, South Carolina, and North Carolina. The narrative moves smoothly between the eighteenth and twenty-first centuries as we see the country through both Washington's and Philbrick's eyes. Written at a moment when America's founding figures are under increasing scrutiny, Travels with George grapples bluntly and honestly with Washington's legacy as a man of the people, a reluctant president, and a plantation owner who held people in slavery. At historic houses and landmarks, Philbrick reports on the reinterpretations at work as he meets reenactors, tour guides, and other keepers of history's flame. He paints a picture of eighteenth-century America as divided and fraught as it is today, and he comes to understand how Washington compelled, enticed, stood up to, and listened to the many different people he met along the way—and how his all-consuming belief in the union helped to forge a nation.

In Search of Buddy Bolden Jan 25 2021 The beginnings of jazz and the story of Charles “Buddy” Bolden (1877–1931) are inextricably intertwined. Just after the turn of the century, New Orleanians could often hear Bolden's powerful horn from the city's parks and through dance hall windows. Despite his lack of formal training, his unique style—both musical and personal—made him the first “king” of New Orleans jazz and the inspiration for such later jazz greats as King Oliver, Kid Ory, and Louis Armstrong. For years the legend of Buddy Bolden was overshadowed by myths about his music, his reckless lifestyle, and his mental instability. In Search of Buddy Bolden overlays the myths with the substance of reality. Interviews with those who knew Bolden and an extensive array of primary sources enliven and inform Donald M. Marquis's absorbing portrait of the brief but brilliant career of the first man of jazz. This paperback edition includes a new preface and appendix relating events and discoveries that have occurred since the book's original publication in 1978.
