"This publication accompanies the Women in Dior: Portraits of Elegance exhibition organized by the Association Prâesence de

Christian Dior association at the Mus ee Christian Dior in Granville from May 5 to September 25, 2016, and presented with the Normandy Impressionist Festival." Harris's List of Covent Garden Ladies, published from 1757 to 1795, was an annual directory of prostitutes then working in Georgian London. A small, attractive pocketbook, it was printed and published in Covent Garden, and sold for two shillings and sixpence. A contemporary report of 1791 estimates its circulation at about 8,000 copies annually. Each edition contains entries describing the physical appearance and sexual specialities of about 120-190 prostitutes who worked in and around Covent Garden. Through their erotic prose, the lists' entries review some of these women in lurid detail. While most compliment their subjects, some are critical of bad habits, and a few women are even treated as pariahs, perhaps having fallen out of favour with the lists' authors, who are never revealed. Samuel Derrick is the man normally credited for the design of Harris's List, possibly having been inspired by the activities of a Covent Garden pimp, Jack Harris. A Grub Street hack, Derrick may have written the lists from 1757 until his death in 1769; thereafter, the annual's authors are unknown. Throughout its print run it was published pseudonymously by H. Ranger, although from the late 1780s it was printed by three men: John and James Roach, and John Aitkin. As the public's opinion began to turn against London's sex trade, and with reformers petitioning the authorities to take action, those involved in the release of Harris's List were in 1795 fined and imprisoned. That year's edition was the last to be published; by then its content was cruder, lacking the originality of earlier editions. Modern writers tend to view Harris's List as erotica; in the words of one author, it was designed for "solitary sexual enjoyment" Catherine "Cat" Royal, an orphan who lives at the Drury Lane Theater in 1790s London, tries to find the "diamond" supposedly hidden in the theater, which unmasks a treasonous political cartoonist and involves her in the street gangs of Covent Garden and the world of nobility. The 18th century was a wealth of knowledge, exploration and rapidly growing technology and expanding record-keeping made possible by advances in the printing press. In its determination to preserve

the century of revolution, Gale initiated a revolution of its own: digitization of epic proportions to preserve these invaluable works in the largest archive of its kind. Now for the first time these high-quality digital copies of original 18th century manuscripts are available in print, making them highly accessible to libraries, undergraduate students, and independent scholars. This collection reveals the history of English common law and Empire law in a vastly changing world of British expansion. Dominating the legal field is the Commentaries of the Law of England by Sir William Blackstone, which first appeared in 1765. Reference works such as almanacs and catalogues continue to educate us by revealing the day-to-day workings of society. ++++ The below data was compiled from various identification fields in the bibliographic record of this title. If Paris is the city of love, then London is the city of lust. From the bath houses of Roman Londinium to the sexual underground of the twentieth century and beyond, *The Sexual History of London* is an entertaining, vibrant chronicle of London and sex through the ages. For more than a thousand years, England's capital has been associated with desire, avarice, and the sins of the flesh. Richard of Devises, a monk writing in 1180, warned that "every quarter abounds in great obscenities." As early as the second century AD, London was notorious for its raucous festivities and disorderly houses, and throughout the centuries the bawdy side of life has taken easy root and flourished. In *The Sexual History of London*, award-winning popular historian Catharine Arnold turns her gaze to London's relationship with vice through the ages. London has always traded in the currency of sex. Whether pornographic publishers on Fleet Street, or courtesans parading in Haymarket, its streets have long been witness to colorful sexual behavior. In an accessible, entertaining style, Arnold takes us on a journey through the fleshpots of London from earliest times to present day. Here are buxom strumpets, louche aristocrats, popinjay politicians, and Victorian flagellants—all vying for their place in London's league of licentiousness. From sexual exuberance to moral panic, the city has seen the pendulum swing from Puritanism to hedonism and back again. With latter chapters looking at Victorian London and the sexual underground of the twentieth century and beyond, this is a fascinating and vibrant chronicle of London at its most raw and ribald. One of our leading historians describes how Georgian London was shaped by the sex industry. At a time when there were almost no career openings for women a group of intrepid and gifted females scaled the heights of what was literally a man's world - they became bawds. Mother Clap - women bawds were often known as Mother - ran male brothels, or Molly Houses. Elizabeth Holland had an immense moated mansion built on Bankside and for thirty years entertained the aristocracy, including royalty. When troops attempted to stop

her trade and eject her from the house, she and her girls drove them off. The Georgian bawd Charlotte Hayes held a 'Cyprian Fete' at which gentlemen 'of the highest breeding' first watched athletic young men copulating with nubile whores and then joined in themselves. Fergus Linnane reveals the other side of London's years of pomp and splendour, painting a vivid picture of the bawds, their girls and their clients. Madams is fresh and original, offering humour, insight and a very candid view of the sexual behaviour of Londoners through the ages. From the No. 1 Sunday Times bestselling and prizewinning author of THE FIVE 'A fascinating expose of the seamy side of eighteenth century life' MAIL ON SUNDAY 'Rubenhold's pages practically reek with smelly, pox-ridden Georgian Soho' GUARDIAN ----- In 1757, a down-and-out Irish poet, the head waiter at the Shakespear's Head Tavern in Covent Garden, and a celebrated London courtesan became bound together by the publication of a little book: Harris's List of Covent Garden Ladies. This salacious work - detailing the names and 'specialities' of the capital's sex-workers- became one of the eighteenth century's most scandalous bestsellers. Yet beyond its titillating passages lies a glimpse into the lives of those who lived and died by its profits - a tragicomic opera of the Georgian era, motivated by poverty, passionate love, aspiration and shame. In this modern and visceral narrative, historian Hallie Rubenhold reveals the story behind Harris's List of Covent Garden Ladies, and the legion of ordinary women whose lives in the sex trade history has chosen to ignore. \_\_\_\_\_ 'Scrupulously researched' DAILY TELEGRAPH 'Crackles with drama and tension' GUARDIAN 'Compelling and ingenious' INDEPENDENT WHAT READERS ARE SAYING: \*\*\*\*\*'Brilliant. Could Look It Up chronicles the captivating stories behind these great works and their contents, and the way they have influenced each other. From The Code of Hammurabi, the earliest known compendium of laws in ancient Babylon almost two millennia before Christ to Pliny's Natural History; from the 11th-century Domesday Book recording land holdings in England to Abraham Ortelius's first atlas of the world; from Samuel Johnson's A Dictionary of the English Language to The Whole Earth Catalog to Google, Jack Lynch illuminates the human stories and accomplishment behind each, as well as its enduring impact on civilization. In the process, he offers new insight into the value of knowledge. 'Harris's List' was a best-seller of the 18th century shifting 250,000 copies. It was the world's first creative 'Bohemia'. The nation's most significant artists, actors, poets, novelists, and dramatists lived here. From Soho and Leicester Square across Covent Garden's Piazza to Drury Lane, and down from Long Acre to the Strand, they rubbed shoulders with rakes, prostitutes, market people, craftsmen, and shopkeepers. It was an often brutal world full of criminality, poverty and feuds, but also of high spirits, and was as culturally creative as any other in history. Virtually everything that we associate with Georgian culture was produced here. Vic Gatrell's spectacular new book recreates this time and place by drawing on a vast range of sources, showing the deepening fascination with 'real life' that resulted in the work of artists like Hogarth, Blake, and Rowlandson, or in great literary works like *The Beggar's Opera* and *Moll Flanders*. *The First Bohemians* is illustrated by over two hundred extraordinary pictures, many rarely seen, for Gatrell celebrates above all one of the most fertile eras in Britain's artistic history. He writes about Joshua Reynolds and J. M. W. Turner as well as the forgotten figures who contributed to what was a true golden age: the men and women who briefly dazzled their contemporaries before being destroyed - or made - by this magical but also ferocious world. About the author: Vic Gatrell's last book, *City of Laughter*, won both the Wolfson Prize for History and the PEN Hessel-Tiltman Prize; his *The Hanging Tree* won the Whitfield Prize of the Royal

Historical Society. He is a Life Fellow of Caius College, Cambridge. Oliver Goldsmith arrived in England a penniless Irishman and toiled for years in the anonymity of Grub Street. Norma Clarke tells how this destitute scribbler became one of literary London's most celebrated authors, transmuting dark truths about the empire into fable and nostalgia whose undertow of Irish indignation remains just barely perceptible. October 1789: I shall never forget that day. I shall never forget the decision I made. I was seventeen and so ill prepared for life that I hardly knew how to dress myself, let alone how to board a mail coach or even how to purchase a loaf of bread. When I fled my home at Melmouth Park, I left those who both loved and hated me behind. I threw myself upon the world, dear reader, and see what trouble has come of that. Do read my tale closely, for the warnings of your mamma and your governess were correct; there is much to be learned from a woman of my sort. I fell for every snare and trick of fate, so that you might not. My tale is not for the faint of heart, the prude, the high minded and moral are likely to take offence. You have heard the lies and slander from others. Prepare now to hear the truth. Miscast in the media for nearly 130 years, the victims of Jack the Ripper finally get their full stories told in this eye-opening and chilling reminder that life for middle-class women in Victorian London could be full of social pitfalls and peril. She was a spirited young heiress. He was a handsome baronet with a promising career in government. The marriage of Lady Seymour Dorothy Fleming and Sir Richard Worsley had the makings of a fairy tale—but ended as one of the most scandalous and highly publicized divorces in history. In February 1782, England opened its newspapers to read the details of a criminal conversation trial in which the handsome baronet Sir Richard Worsley attempted to sue his wife's lover for an astronomical sum in damages. In the course of the proceedings, the Worsleys' scandalous sexual arrangements, voyeuristic tendencies, and bed-hopping antics were laid bare. The trial and its verdict stunned society, but not as much as the unrepentant behavior of Lady Worsley. Sir Joshua Reynolds captured the brazen character of his subject when he created his celebrated portrait of Lady Worsley in a fashionable

red riding habit, but it was her shocking affairs that made her divorce so infamous that even George Washington followed it in the press. Impeccably researched and written with great flair, Hallie Rubenhold's *The Lady in Red* is a lively and moving true history that presents a rarely seen picture of aristocratic life in the Georgian era. Published annually from 1757 to 1795, Harris's List of Covent Garden Ladies was a notorious directory of prostitutes working in London at a time when it is claimed one in five women made a living from selling sex. The descriptions for each lady generally include the address she can be found and a description of her attributes along with her expected remuneration. Although usually complimentary some of the descriptions are critical of bad habits or occasionally derisory. The directories were published anonymously, but it is thought that the original lists were written by Samuel Derrick a Dublin born "hack" writer, although they continued after his death in 1769. Only nine editions are known to have survived 1761, 1764, 1773, 1774, 1779, 1788, 1789, 1790 and 1793. The 2017 drama *Harlots* opens with one of the lead characters returning to a brothel with a copy of the list from which many of the characters were drawn. The magic of the old Covent Garden Market is evoked through Peter Ackroyd's introduction and Clive Boursnell's marvellous photographs, taken over the course of numerous and extended visits to Covent Garden in the 1960s and 1970s. The book includes a preface by Clive Boursnell and the words of some of the market people whom the photographer interviewed at the time. From serving Britain's growing global empire in the Royal Navy, to the suffering of child workers in the Industrial Revolution, the Foundling Hospital was no simple act of charity. A true story of crime and punishment in eighteenth-century England, and the first trial in recorded history to employ forensic evidence. In 1706, nineteen-year-old Mary Channing was convicted of poisoning her husband and became the last woman to be burned at the stake in Dorset. Despite the likely culpability of her lover, and her impressive attempts to defend herself, the jury took only half an hour to find her guilty, having accepted the groundbreaking toxicological evidence by prosecutors. When the day finally arrived, Mary's execution was made into something of a county fair, with ten thousand spectators gathering to see the young mother consigned to the flames upon the floor of Dorchester's ancient Roman amphitheater, Maumbury Rings. More than three hundred years after her barbaric demise, Mary's fate still holds a macabre fascination, as it did then for author Thomas Hardy, for whom it became an obsession. Hardy recorded the details of Mary's execution in his notebooks, expressed doubt of her guilt, and used her as the inspiration for his poem, "The Mock Wife". Yet while

Mary Channing has been granted a kind of grim celebrity, as well as an established place in the annals of female murderers, a measure of compelling sympathy for her case is another lasting aspect of her legacy is this "dramatic and fascinating" chronicle of a woman accused (Ripperologist Magazine). This book will look at the phenomenon of celebrity hookers in the eighteenth century - all of them the subject of extraordinary press scrutiny and comment. They were the fashion icons of the age, and what they wore was copied and put on sale in the high street within days. Many of them were passed around within the same small circle of aristocratic lovers. They were the object of constant gossip and whether they were flaunting their fame by taking a box at the opera for the entire season, or by parading through Hyde Park in a phaeton pulled by matching cream ponies, or returning from Paris wearing the very latest fashions, they enjoyed a celebrity status nowadays bestowed on TV reality stars and footballers' wives. Seminar paper from the year 2005 in the subject English Language and Literature Studies - Culture and Applied Geography, grade: 2,0, Ernst Moritz Arndt University of Greifswald, 9 entries in the bibliography, language: English, abstract: On the threshold of industrialisation many significant changes took place in England throughout the eighteenth century. Trade and economy grew more and more and consequently trade centres like London became metropolises to which many people moved to from rural areas due to the bigger chance to find a job there. The society in such cities was dominated by men and there was no equality of the sexes as women were considered to be inferior and dependent on men. They had to obey their fathers or husbands, who made all decisions for them and they had no own property as everything

they had belonged to their husbands<sup>1</sup>. But there were women who tried to escape the subordinate role they possessed. Expected to be virtuous housewives, mothers and wives, who obey their husbands unconditionally, some women led totally different lives. Instead of marrying, bringing up children and doing the household they worked to earn their living. But whereas many women chose to work as servants or seamstresses, the business of some other young ladies was of a totally different nature - of a disorderly nature. They earned their money by offering sexual services in exchange for money. In other words they worked as prostitutes. Especially London was a city where this sexual trade was very widespread due to the constantly arriving tradesmen and sailors who were willing to pay women to satisfy their needs. But who were these women of pleasure? Why did they work as prostitutes and how did they live? To answer these questions it is necessary to look at the lives of these women in detail. Their social backgrounds and their education can be considered as the origin of their later work as harlots. As people cannot only be characterised by what they do themselves but by "If you ever wondered what Jane Austen's Mr Darcy and his 'fellows' got up to on their numerous trips to London, here is the book they would certainly have carried around ... HARRIS'S LIST OF COVENT GARDEN LADIES was a bestseller of the Eighteenth Century, shifting 250,000 copies in an age before mass consumerism. An annual 'guide book', and published at Christmas time, it detailed the names, attributes and 'specialities' of the capital's prostitutes. During its heyday (1759 -95) HARRIS'S LIST was the essential accessory for any serious gentleman of pleasure. Hallie Rubenhold has collected the funniest, rudest and most bizarre entries penned by Jack Harris, Pimp-General-of-all-England' into this mischievous little book."
