Tom R. Harper gathers and expounds on 66 business principles-one from each book of the Bible—that have inspired best-practice leadership for thousands of years. The author recounts incidents which occurred during his forty years as a missionary in India. What would have happened if Constantin Repin had seduced Guntram first? Could a naïve young man be happy with a Russian gangster? Could Konrad von Lintorff, the Head of a mysterious secret organization allow his greatest enemy to live in bliss? A parallel universe to the novel "The Substitute". Reprint.NC 18 He was in my Cub Scout troop, years ago. Now he was a man! Adult content. Bible storybook that helps young children discover how Daniel points to Jesus. THE DEN was inspired by actual events and their resulting, recurring nightmares. Is it possible to run away from yourself? No. Skyla Jane Judge should know. Fresh on the heels of a breakup and college graduation, Skyla Jane Judge feels an inexplicable urge to accompany an attractive stranger on a road trip from New York to New Orleans. Maybe it has something to do with what a psychic has told her about a past life. Maybe some old friends stuck between lives are waiting for her there. Whatever the case, she gives in to the lure of Louisiana's voodoo country and doesn't look back. Longing for change, she uncovers a "den" beneath the haunted cobblestone streets of the French Quarter and, in the company of vampires, begins to discover her true self. Skyla embarks on a journey to self-awareness that ultimately uncovers a secret ceremonial path to love and eternal enlightenment. Though change is what she wanted, is she ready for the irrevocable change her "new" friends offer her? THE DEN (47,000 words) is Book #1 of The Vampire's Witch Saga. Books #2 (IN THE BLOOD) and #3 (THE SEVENTH DAY) in the series are also available for sale. Excerpt from The Cobra's Den: And Other Stories of Missionary Work Among the Telugus of India The exceedingly kind reception given on both sides of the Atlantic, to "In the Tiger Jungle and Other Stories of Missionary Work among the Telugus" seems to indicate that such simple sketches of incidents in the life and work of any earnest, observant missionary have a place of some importance, in quickening the interest of both young people and older in all that pertains to the spread of the Kingdom, and that another collection of such sketches may not be out of place. Indeed, many urgent requests, from both friends and strangers, in Europe, Asia, and America, have been received, that at the earliest date another such collection should be issued. As these requests have come largely from acknowledged leaders in the church in the Home Lands, as well as from fellow-missionaries in different countries, and from Missionary Secretaries of many Societies and Boards, the call can no longer be left unheeded. As readers of poetry, we all have our favorite ancient poets like Milton, Blake, Homer, and Rimbaud to name a few. Are you ready to break the mold and read some new, crisp poetry from a new American poet? If so, then you have the right book in hand. My poetry approaches life from many angles. I had a twenty-year career in the military with three combat tours under my belt. Also well explore life, death, afterlife, beauty, eroticism, and evil. All human emotions will run the gambit. My poems play a bit to the darker side of life. But if you want to challenge your mind, my symbolic and sometimes chaotic works are up to the task. Tiny Bible Tales, a new series of board books, shares the stories of the Bible's bravest heroes. With gentle, rhyming text, this book tells the tale of Jonah getting swallowed by the great whale. And with illustrations depicting these heroic Biblical characters as children, readers can easily put themselves directly in the story. Little Jonah hears God say, Help the people to obey. After Jonah sets sail against God's command, he finds himself in the belly of a great whale. Trapped there for three days and three nights, he learns a valuable lesson in forgiveness. The mountain lion came out of nowhere, grabbed the little girl by the head, and they were gone. "Out of the Lion's Den" is the true story of five-year-old Laura Small's attack in an Orange County, California park. But it's not only the story of Laura's long recovery from brain injuries. Her parents soon realized that the attack wasn't just the result of a lone mountain lion. Early morning anonymous phone calls, erasures on police reports, and a California moratorium on killing lions, led a persistent investigator and a brilliant lawyer all the way to a trial against Orange County for negligence. And for Laura's mother, who believed in God and had been a nun for six years, one question still haunted her. How could a loving God allow such suffering? A lively intellectual history that explores how prominent midcentury public intellectuals approached Zionism and then the State of Israel itself and its conflicts with the Arab world. In this lively intellectual history of the political Left, cultural critic Susie Linfield investigates how eight prominent twentieth-century intellectuals struggled with the philosophy of Zionism, and then with Israel and its conflicts with the Arab world. Constructed as a series of interrelated portraits that combine the personal and the political, the book includes philosophers, historians, journalists, and activists such as Hannah Arendt, Arthur Koestler, I. F. Stone, and Noam Chomsky. In their engagement with Zionism, these influential thinkers also wrestled with the twentieth century's most crucial political dilemmas: socialism, nationalism, democracy, colonialism, terrorism, and anti-Semitism. In other words, in probing Zionism, they confronted the very nature of modernity and the often catastrophic histories of our time. By examining these leftist intellectuals, Linfield also seeks to understand how the contemporary Left has become focused on anti-Zionism and how Israel itself has moved rightward. "In this book, young readers will learn about the fox's habitat and home"--Provided by publisher. Felix Mitterer's reputation as a European dramatist of the first rank is by now firmly established. With his gift for sketching social milieu in a few salient strokes and creating almost unbearably intense moments of dramatic suspense, he

has for over thirty years been riveting the attention of viewers on the suffering of such oppressed groups as the aged (Siberia), the mentally challenged (No Room for Idiots) and the workingmen and women in thrall to corrupt corporations (One Everyman). The two plays offered here, *In the Lions' Den* and *The Panther*, fall well within the purview of Mitterer's social concerns, portraying as they do, respectively, the plight of the Jews in the Third Reich and, once again, the aged in contemporary society. Yet they also reveal a deeper and more personal thematic vein having to do with the intimate symbiosis of language and individual identity. In *Lions' Den* the Jewish protagonist Kirsch affects Tyrolean dialect to create an Aryan persona for survival purposes, in effect corroborating the idealist doctrine, *esse est percipi* (to be is to be perceived, as this or that). You are what you can persuade others you are, and God help you if your powers of persuasion fail you! In *The Panther* the old man's self-image, his very sense of himself, erodes with the chipping-away of age at his memory of the lines that make up Rilke's immortal *Dinggedicht*. In both plays the bedrock ordering of experience imposed by language is strained to the breaking point, leaving the protagonists teetering on the brink of the abyss that looms just beyond personal identity. Of his own life the self-effacing Felix Mitterer has said: "Its only unusual aspect is that I became a writer, that I was saved and others weren't". His words allude obliquely to the grinding poverty and backbreaking work he had to endure labouring on the farms of the Tyrol as he grew up. They also convey his solidarity with those "others" who could not make it out of the Alpine ghetto and suggest his deep commitment to make their plight, and that of other oppressed groups, the driving force of his dramatic art. Felix Mitterer has done what all true artists do, transformed his personal demons into angels of art. And in tracing, through that art, the correspondence between his own demons and those of society, he masters them, not only in himself but in the receptive viewer (or reader) as well.

Deep in the den, ten sleepy, cuddly animals snuggle up together for the night. But as the animal friends roll over to make more room, one animal after another gently tumbles out of the cozy den until Little Mouse is left all alone. But Little Mouse and Foxes dig their dens, sometimes using burrows already made by other animals. The dens provide the foxes safety and also a place to birth and raise their cubs. Kids will be intrigued by these beautiful animals and encouraged to understand the text by strong photographs, including some of adorable fox cubs. Each volume of this series is a focused monograph on a single cave. The series covers many disciplines that can be applied to study a cave: geology (cave genesis, sedimentology, speleothems), hydrogeology (speleothems for climate reconstructions, aquifer reconstructions), paleontology (cave bear or carnivore dens), archeology (Palaeolithic to Medieval camp or burial sites) and modern biology. Each volume is beautifully illustrated and written in a simple manner that will be of interest to general readers, speleologists and natural scientists, alike. This volume gives details of Hermann's cave in Rübeland near Wernigerode, Germany. It is one of the largest show caves in Germany and Europe. The cave gives us information about the region in the Ice Age dating back to 350,000 years (which implies its significance in the Late Pleistocene epoch). The cave is a beautiful granite (Brocken Peak) and limestone rock and valley cut landscape. The volume presents information about the Late Pleistocene fauna discovered within the cave and other archaeological findings. Specifically, the volume gives details about the small and large cave bear species within the cave, their ecological relationship to the region (including interactions with steppe lions and Cromagnon humans), and their survival in taiga forest mountain areas of central Europe. This volume continues the premise of the book series on bringing information about fossils and archaeological records of well-known caves to light and will give readers an interesting peek into Hermann's cave by bringing some of its Ice Age stories to life. **'I am that I am'** (Exodus 3.14) has been an exegetical puzzle to many generations of biblical scholars as well as theologians: is it about the present or the future, is it about God's presence or his hiddenness? Den Hertog argues that such exegetical questions have been framed too narrowly, and that this deeply suggestive statement about God needs to be set in a broader context. First, the statement must be understood within the narrative of Moses' call as an answer to his problem: how can his being launched on a radically new, prophetic mission be reconciled with the features of the God of the patriarchs? This book substantiates the view that the meaning of the statement is deliberately indefinite: 'I may be who I may be'. In its context, it points to Yhwh's other face, the possibility of his manifesting himself differently from the way he is thought to be. Secondly, the after-history of this text should also be considered, since it has shaped our understanding in one way or another. This book pays particular attention to the renderings by the ancient and early modern versions (including the King James Version). The point of departure is the Septuagint rendering 'I am the one being', which has traditionally been associated with the Greek philosophical concept of absolute Being. This rendering, however, appears to have originally signified God's active presence: 'I am the one who shows himself to be there'. Thirdly, this fundamental theological statement invites further a psychoanalytic interpretation. Den Hertog adopts a Lacanian perspective, according to which 'I am that I am' represents an irruption of an 'I' from nowhere, from beyond usual thought and expectation. In its context this means that in a situation of crisis a new orientation is born, one that undermines the pharaonic powers.

**Daniel and the lions den** storybook that's fun to read - and that children can play with too! This chunky shaped book comes to life with clever peep-holes, cut-outs and a gatefold flap. Toddlers learn the story of Daniel as they read and play with this sturdy board book. Meet a man forced to live in a fast changing and godless society. He faced fears about the future, concern for his safety, and the discouragement of world that seemed to be falling apart at warp speed. Sound familiar? His name was Daniel, and with the power of hope, humility, and wisdom, he not only thrived, he changed an empire while he was at it. Though he lived thousands of years ago, he has a much to teach us today. Even in Babylon, **God Is in Control In Thriving in Babylon**, Larry Osborne explores the “adult” story of Daniel to help us not only survive – but actually thrive in an increasingly godless culture. Here Pastor Osborne looks at: - Why panic and despair are never from God- What true optimism looks like- How humility disarms even our greatest of enemies- Why respect causes even those who will have nothing to do with God to listen- How wisdom can snatch victory out of the jaws of defeat For those who know Jesus and understand the full implications of the cross, the resurrection, and the promises of Jesus, everything changes – not only in us, but also in our world. Provides a rare glimpse into the machinations of one of the world's most baffling political systems, examining what has gone wrong and how Washington should deal with this volatile Middle Eastern nation -- Publisher.
