America in 1982: Japanese car companies are on the rise and believed to be putting U.S. autoworkers out of their jobs. Anti-Asian American sentiment simmers, especially in Detroit. A bar fight turns fatal, leaving a Chinese American man, Vincent Chin, beaten to death at the hands of two white men, autoworker Ronald Ebens and his stepson, Michael Nitz. Paula Yoo has crafted a searing examination of the killing and the trial and verdicts that followed. When Ebens and Nitz pled guilty to manslaughter and received only a \$3,000 fine and three years' probation, the lenient sentence sparked outrage. The protests that followed led to a federal civil rights trial—the first involving a crime against an Asian American—and galvanized what came to be known as the Asian American movement. Extensively researched from court transcripts, contemporary news accounts, and in-person interviews with key participants, *From a Whisper to a Rallying Cry* is a suspenseful, nuanced, and authoritative portrait of a pivotal moment in civil rights history, and a man who became a symbol against hatred and racism. Lawrence Anthony devoted his life to animal conservation, protecting the world's endangered species. Then he was asked to accept a herd of "rogue" wild elephants on his Thula Thula game reserve in Zululand. His common sense told him to refuse, but he was the herd's last chance of survival: they would be killed if he wouldn't take them. In order to save their lives, Anthony took them in. In the years that followed he became a part of their family. And as he battled to create a bond with the elephants, he came to realize that they had a great deal to teach him about life, loyalty, and freedom. *The Elephant Whisperer* is a heartwarming, exciting, funny, and sometimes sad memoir of Anthony's experiences with these huge yet sympathetic creatures. Set against the background of life on an African game reserve, with unforgettable characters and exotic wildlife, Anthony's unrelenting efforts at animal protection and his remarkable connection with nature will inspire animal lovers and adventurous souls everywhere. What is an elite NFL QB and what separates that player from the others? One answer is the coach they share. In the recent history of the biggest game on earth, one man is the common thread that connects several of the very best in the sport: Peyton Manning; Ben Roethlisberger; Andrew Luck; and the resurgent Carson Palmer. That coach is Bruce Arians. A larger than life visionary who trained under the tutelage of Bear Bryant, Arians has had a major impact on the development and success of each of these players. For proof beyond the stats, go to the sources. "Bruce is gonna love you when you need some loving, but he's gonna jump on you when you're not doing right." --

Peyton Manning "He coaches the way players want to be coached." -- Ben Roethlisberger "He made players comfortable around him and let everybody have their own personality. He didn't force anybody to be someone they weren't. It may sound a little corny or cheesy, but there's merit to that. I felt comfortable being myself and I felt he had my back." -- Andrew Luck "We're a resilient group. It trickles down from the head coach. I think good teams, really good teams, and hopefully great teams take on their coach's mentality. I think that's what B.A. brings . . . " -- Carson Palmer Known around the game as the 'quarterback whisperer', Arians has an uncanny ability to both personally connect with his quarterbacks and to locate what the individual triggers are for that player to succeed. No two quarterbacks are the same. And yet with Arians they always share success. In this book Arians will explain how he does it. Miller and Sharp provide the game-changing tools and information teachers and administrators need to dramatically increase children's access to and engagement with books. After a lifetime of research, the authors offer the definitive guide to surviving the jackassery in life and making the world a better place--one set of noise-cancelling headphones at a time. The astonishing story of the soldiers, conservationists, and ordinary Iraqis who united to save the animals of the Baghdad Zoo When the Iraq war began, conservationist Lawrence Anthony could think of only one thing: the fate of the Baghdad Zoo, caught in the crossfire at the heart of the city. Once Anthony entered Iraq he discovered that hostilities and uncontrolled looting had devastated the zoo and its animals. Working with members of the zoo staff and a few compassionate U.S. soldiers, he defended the zoo, bartered for food on war-torn streets, and scoured bombed palaces for desperately needed supplies. Babylon's Ark chronicles Anthony's hair-raising efforts to save a pride of Saddam's lions, close a deplorable black-market zoo, run ostriches through shoot-to-kill checkpoints, and rescue the dictator's personal herd of Thoroughbred Arabian horses. A tale of the selfless courage and humanity of a few men and women living dangerously for all the right reasons, Babylon's Ark is an inspiring and uplifting true-life adventure of individuals on both sides working together for the sake of magnificent wildlife caught in a war zone. Daphne Sheldrick's best-selling love story of romance, life and elephants, An African Love Story: Love, Life and Elephants is an incredible story from Africa's greatest living conservationist. A typical day for Daphne involves rescuing baby elephants from poachers; finding homes for orphan elephants, all the while campaigning the ever-present threat of poaching for the ivory trade. An African Love Story is the incredible memoir of her life. It tells two stories - one is the extraordinary love story which blossomed when Daphne fell head over heels with Tsavo Game Park and its famous warden, David Sheldrick. The second is the love story of how Daphne and David, who devoted their lives to saving elephant orphans, at first losing every infant under the age of two until Daphne at last managed to devise the first-ever milk formula which would keep them alive. 'Compulsively readable', Mail on Sunday 'An enchanting memoir', Telegraph Daphne Sheldrick has spent her entire life in Kenya. For over 25 years, she and her husband, David, the famous founder of the the giant Tsavo National Park, raised and rehabilitated back into the wild orphans of misfortune from many different wild species. These included elephants, rhinos, buffaloes, zebra, eland, kudu, impala, warthogs and many other smaller animals. In 2006 she was made Dame Commander of the British Empire by the Queen. DIV In her entertaining and edifying New York Times bestseller, acclaimed author Francine Prose invites you to sit by her side and take a guided tour of the tools and tricks of the masters to discover why their work has endured. Written with passion, humour and wisdom, Reading Like a Writer will inspire readers to return to literature with a fresh eye and an eager heart - to take pleasure in the long and magnificent sentences of Philip Roth and the breathtaking paragraphs of Isaac Babel; to look to John le Carré for a lesson in how to advance plot through dialogue and to Flannery O'Connor for the cunning use of the

telling detail; to be inspired by Emily Brontë's structural nuance and Charles Dickens's deceptively simple narrative techniques. Most importantly, Prose cautions readers to slow down and pay attention to words, the raw material out of which all literature is crafted, and reminds us that good writing comes out of good reading. /div Listen -- can you hear it? THE INTERNATIONAL BESTSELLER "Malby-Anthony offers a book of great inspiration and wide appeal to nature-loving readers." —Publishers Weekly A heart-warming sequel to the international bestseller The Elephant Whisperer, by Lawrence Anthony's wife Françoise Malby-Anthony. A chic Parisienne, Françoise never expected to find herself living on a South African game reserve. But then she fell in love with conservationist Lawrence Anthony and everything changed. After Lawrence's death, Françoise faced the daunting responsibility of running Thula Thula without him. Poachers attacked their rhinos, their security team wouldn't take orders from a woman and the authorities were threatening to cull their beloved elephant family. On top of that, the herd's feisty new matriarch Frankie didn't like her. In this heart-warming and moving book, Françoise describes how she fought to protect the herd and to make her dream of building a wildlife rescue center a reality. She found herself caring for a lost baby elephant who turned up at her house, and offering refuge to traumatized orphaned rhinos, and a hippo called Charlie who was scared of water. As she learned to trust herself, she discovered she'd had Frankie wrong all along. Another extraordinary story of life on a South African game reserve from the authors of *The Elephant Whisperer*. Lawrence Anthony's South African game reserve is home to many animals he has saved, from a remarkable herd of elephants to a badly behaved bushbaby called George. Described as "the Indiana Jones of conservation", when one of his rhinos was brutally slaughtered for her horn, he didn't hesitate to lead an armed response against the poachers. Then he learned that there were only a handful of northern white rhinos left in the wild, living in an area of the Congo controlled by the infamous Lord's Resistance Army and soon to be hunted into extinction. Lawrence knew he had to take action. What followed was an extraordinary adventure, as he headed into the jungle to negotiate with the rebels, while battling to save his own animals from terrible drought and to save the eyesight of his beloved elephant matriarch Nana. *The Last Rhinos* is peopled with unforgettable characters, both human and animal, and is a sometimes funny, sometimes moving, always exciting read. At this critical junction in the history of humankind, leaders that are proficient in magical thinking aren't going to solve our problems. Creating alternative realities is not the answer. We need a very different kind of leadership—leaders who can resist the calls of regression and whose outlook is firmly based in reality. We need leaders who analyze and draw conclusions from, or use their own experiences as a development tool, face their strengths and weaknesses, and critique their own experiences in order to build new understandings. In this very personal and entertaining book, Manfred Kets de Vries, one of the “gurus” in the field of leadership studies offers his thoughts on leadership and life, reflections written for executives and the people who deal with them. As a psychoanalyst and leadership professor let loose in the world of renowned global organizations—as a passionate educator and scholar, or just a human being at the receiving end of heart-rending emails—he examines the pitfalls of leadership and the challenges for the professionals who work with senior executives in today’s AI-focused world. He points out why leaders can derail, and what steps they can take to prevent this from happening. Ultimately, this book encourages you to “Know yourself,” but makes no bones about the challenge it represents. Understanding our “inner theatre” will always be an uphill struggle. Kets de Vries points out why deep dives into our inner world are always fraught with many anxieties. Included in the many subjects covered by the author are the loneliness of command, the management of disappointment, the destructive role of greed, the impact of stubbornness, the role of storytelling, the importance of wellness, and the role of corporate culture. In addition, the book addresses the important topic of how to create great teams and best places to work. Furthermore, the book touches on endings—the ending of our career and the growing realization of the inevitable ending of our life. As time grows short, Kets de Vries emphasizes that we have no time to lose in dealing with our anxieties, regrets, and the things we spend much of our life determined not to see. Taking a deep dive into self-knowledge requires courage and support, and he is here to guide you through it. Lead investigators Mila Vasquez, a celebrated profiler, and Goran Gavila, an eerily prescient criminologist, dive into the case. They're confident they've got the right suspect in their sights until they discover no link between him and any of the kidnappings except the first.
