The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition A Penguin Classic Dick Davis—“our pre-eminent translator from the Persian” (The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi’s masterpiece, adding more than 100 pages of newly translated text. Davis’s elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are

deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators. This fascinating book is the first volume in a projected cultural history of the United States, from the earliest English settlements to our own time. It is a history of American folkways as they have changed through time, and it argues a thesis about the importance for the United States of having been British in its cultural origins. While most people in the United States today have no British ancestors, they have assimilated regional cultures which were created by British colonists, even while preserving ethnic identities at the same time. In this sense, nearly all Americans are "Albion's Seed," no matter what their ethnicity may be. The concluding section of this remarkable book explores the ways that regional cultures have continued to dominate national politics from 1789 to 1988, and still help to shape attitudes toward education, government, gender, and violence, on which differences between American regions are greater than between European nations.

Traditional knot and interlace patterns, combined to form uniquely striking contemporary designs. Ever since her ground-breaking book *Viking Patterns for Knitting* was published, Elsebeth Lavold has been recognized as one of the world's leading experts on cabling. It was within the pages of her international bestseller—described as “an indispensable milestone in 20th century knitting literature”—that Lavold first introduced the world to her own innovation: using lifted increases to create interlace patterns, and bringing new life to the ornamental heritage of the Vikings as adornment on modern knitwear. In the years since, Lavold has sought new ideas and “design cousins” to Viking patterns to explore with her needles, and has undertaken a fascinating journey through archives, museums, libraries, and the internet. In more than a decade of continued research, she has studied cultures from all over the globe in search of similar types of ornamental expression, creating the foundation for this exciting new book: a glorious collection rich in imagery, history, patterns, and designs. Dozens of different sources of inspiration, catalogued and placed within their cultural and historical context, from all around the world. Complete, step-by-step instructions for an abundance of fresh and stunningly beautiful knit designs, presented in the book with full-color photographs. Lavold's own painstaking analysis of a huge number of interlace motif types, displayed in both swatch and chart form, to allow you to compose your own patterns based on her research. *Stones of Aran: Pilgrimage* is, as Robert Macfarlane says in his introduction, 'one of the most sustained, intensive and imaginative studies of a place that has ever been carried out'. That place is one of the most mysterious and oldest inhabited landscapes in the world, the islands of Aran off the west coast of Ireland. Tim Robinson's epic exploration of the desolate, storm-lashed, limestone rocks, which have already haunted generations of Irish writers, takes the form of a clockwise journey around the coast. Every cliff, inlet and headland reveals layers of myth and historical memory, and Robinson makes beautifully crafted observations about the habits of birds, plants and the humans who lived there and endured, leaving records in stone - on the walls, cairns and ancient forts - in story and in oral tradition. Each of the 40 extraordinary hand-crocheted afghans displayed here in magnificent photos is a blue-ribbon winner, and you can recreate these wonderful items at home, thanks to the patterns, detail shots, and instructions provided in "Blue Ribbon Afghans from America's State Fairs." Whether they are called blankets or throws, warm and colorful afghans are an ever popular item for the home and project for knitters, and this guide takes knitters from the basics of creating afghan squares through the mechanics of laying out those squares in a design to the final product. Four project patterns—two that combine texture and color, one with cables, and one for kids—are included. Step-by-step illustrations are featured for stitches such as intarsia, duplicate stitch, cable and twist stitches, modular, entrelac, and two-color stranding. Both written and charted pattern directions, finishing hints, and border treatments are also provided. Since squares are made one at a time, crafters can easily transport projects and switch up designs any time. *Knitting Outside the Box* is part creative exercises, part insight into the design process.
