**City of Thieves Jul 23 2020 From the critically acclaimed author of The
25th Hour and When the Nines Roll Over and co-creator of the HBO
series Game of Thrones, a captivating novel about war, courage,
survival — and a remarkable friendship that ripples across a lifetime.
During the Nazis' brutal siege of Leningrad, Lev Beniov is arrested for
looting and thrown into the same cell as a handsome deserter named
Kolya. Instead of being executed, Lev and Kolya are given a shot at
saving their own lives by complying with an outrageous directive:
secure a dozen eggs for a powerful Soviet colonel to use in his
daughter's wedding cake. In a city cut off from all supplies and
suffering unbelievable deprivation, Lev and Kolya embark on a hunt
through the dire lawlessness of Leningrad and behind enemy lines to
find the impossible. By turns insightful and funny, thrilling and
terrifying, the New York Times bestseller City of Thieves is a gripping,
cinematic World War II adventure and an intimate coming-of-age story
with an utterly contemporary feel for how boys become men.**

***The Siege* Aug 04 2021 Called "elegantly, starkly beautiful" by "The New York Times Book Review, *The Siege*" is Dunmore's masterpiece. Her canvas is monumental--the Nazi's 1941 winter siege on Leningrad that killed 600,000--but her focus is heartrendingly intimate.**

Plants Go to War Jan 09 2022 As the first botanical history of World War II, *Plants Go to War* examines military history from the perspective of plant science. From victory gardens to drugs, timber, rubber, and fibers, plants supplied materials with key roles in victory. Vegetables provided the wartime diet both in North America and Europe, where vitamin-rich carrots, cabbages, and potatoes nourished millions. Chicle and cacao provided the chewing gum and chocolate bars in military rations. In England and Germany, herbs replaced pharmaceutical drugs; feverbark was in demand to treat malaria, and penicillin culture used a growth medium made from corn. Rubber was needed for gas masks and barrage balloons, while cotton and hemp provided clothing, canvas, and rope. Timber was used to manufacture Mosquito bombers, and wood gasification and coal replaced petroleum in European vehicles. Lebensraum, the Nazi desire for agricultural land, drove Germans eastward; troops weaponized conifers with shell bursts that caused splintering. Ironically, the Nazis condemned non-native plants, but adopted useful Asian soybeans and Mediterranean herbs. Jungle warfare and camouflage required botanical knowledge, and survival manuals detailed edible plants on Pacific islands. Botanical gardens relocated valuable specimens to safe areas, and while remote locations provided opportunities for field botany, Trees surviving in Hiroshima and Nagasaki live as a symbol of rebirth after vast destruction.

***Justice across Boundaries* Jul 03 2021 Who ought to do what, and for whom, if global justice is to progress? In this collection of essays on justice beyond borders, Onora O'Neill criticises theoretical approaches that concentrate on rights, yet ignore both the obligations that must be met to realise those rights, and the capacities needed by those who shoulder these obligations. She notes that states are profoundly anti-cosmopolitan institutions, and that even those committed to justice and universal rights often lack the competence and the will to secure them, let alone to secure them beyond their**

borders. She argues for a wider conception of global justice, in which obligations may be held either by states or by competent non-state actors, and in which borders themselves must meet standards of justice. This rich and wide-ranging collection will appeal to a broad array of academic researchers and advanced students of political philosophy, political theory, international relations and philosophy of law.

On the Run Jun 02 2021 "In 1944, Frans, is a twelve-year-old boarding school student taking care of a band of ponies when an American airman is shot down over occupied Holland. Frans rescues Bill. While trying to bring him to a safe place, they are both nearly captured by the Germans. On the run, they survive a number of harrowing experiences. This book relates in graphic detail how people survive the occupation, the hunger winter, separation, displacement, and the loss of family, friends and homes. It is a story of friendships, of people taking care of each other, of Germans who took care of the Dutch and of Dutchmen who were deceitful. The boy has to come to grips with good and evil, coming of age in a difficult time"--Page 4 of cover.

***The Hunger Winter* Mar 23 2023 "In this pioneering study, Ingrid de Zwart examines the causes and demographic impact of the Dutch 'Hunger Winter' that occurred in the Netherlands during the final months of German occupation in the Second World War. She offers a comprehensive and multifaceted view of the sociopolitical context in which the famine emerged and considers how the famine was confronted at different societal levels, including the responses by Dutch, German and Allied state institutions, affected households, and local communities. Contrary to highly-politicized assumptions, she argues that the famine resulted from a culmination of multiple transportation and distribution difficulties. Although Allied relief was postponed for many crucial months and official rations fell far below subsistence level, successful community efforts to fight the famine conditions emerged throughout the country. She also explains why German authorities found reasons to cooperate and allow relief for the starving Dutch. With these explorations, *The Hunger Winter* offers a radically new understanding of the Dutch famine and provides a valuable insight into the strategies and coping mechanisms of a modern society facing catastrophe"--**

***White Truffles in Winter* Mar 31 2021** The sensuality of food and love is explored in this novel about the legendary French chef Auguste Escoffier, who was torn between his poet wife, Delphine Daffis and the reckless actress Sarah Bernhardt. 20,000 first printing.

Communities in Action Oct 26 2020 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. **Communities in Action: Pathways to Health Equity** seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

A Meal in Winter Mar 11 2022 This tale of the Holocaust “will make many think of the stories of Ernest Hemingway . . . a reminder of the power a short, perfect work of fiction can wield” (The Wall Street Journal). This timeless short novel begins one morning in the dead of winter, during the darkest years of World War II, with three German soldiers heading out into the frozen Polish countryside. They have been charged by their commanders with tracking down and bringing back for execution “one of them”—a Jew. Having flushed out a young man hiding in the woods, they decide to rest in an abandoned house before continuing their journey back to the camp. As they prepare food, they are joined by a passing Pole whose virulent anti-Semitism adds tension to an already charged atmosphere. Before long, the group's sympathies begin to splinter when each man is forced to

confront his own conscience as the moral implications of their murderous mission become clear. Described by Ian McEwan as “sparse, beautiful and shocking,” *A Meal in Winter* is a “stark and profound” work by a Booker Prize–nominated author (The New York Times). “Sustains tension until the very last page.” —Kirkus Reviews, starred review

Death in the City of Light May 21 2020 The gripping, true story of a brutal serial killer who unleashed his own reign of terror in Nazi-Occupied Paris. As decapitated heads and dismembered body parts surfaced in the Seine, Commissaire Georges-Victor Massu, head of the Brigade Criminelle, was tasked with tracking down the elusive murderer in a twilight world of Gestapo, gangsters, resistance fighters, pimps, prostitutes, spies, and other shadowy figures of the Parisian underworld. But while trying to solve the many mysteries of the case, Massu would unravel a plot of unspeakable deviousness. The main suspect, Dr. Marcel Petiot, was a handsome, charming physician with remarkable charisma. He was the "People's Doctor," known for his many acts of kindness and generosity, not least in providing free medical care for the poor. Petiot, however, would soon be charged with twenty-seven murders, though authorities suspected the total was considerably higher, perhaps even as many as 150. Petiot's trial quickly became a circus. Attempting to try all twenty-seven cases at once, the prosecution stumbled in its marathon cross-examinations, and Petiot, enjoying the spotlight, responded with

astonishing ease. Soon, despite a team of prosecuting attorneys, dozens of witnesses, and over one ton of evidence, Petiot's brilliance and wit threatened to win the day. Drawing extensively on many new sources, including the massive, classified French police file on Dr. Petiot, *Death in the City of Light* is a brilliant evocation of Nazi-Occupied Paris and a harrowing exploration of murder, betrayal, and evil of staggering proportions.

The Hunger Feb 10 2022 "Deeply, deeply disturbing, hard to put down, not recommended reading after dark." --Stephen King A tense and gripping reimagining of one of America's most haunting human disasters: the Donner Party with a supernatural twist. Evil is invisible, and it is everywhere. That is the only way to explain the series of misfortunes that have plagued the wagon train known as the Donner Party. Depleted rations, bitter quarrels, and the mysterious death of a little boy have driven the isolated travelers to the brink of madness. Though they dream of what awaits them in the West, long-buried secrets begin to emerge, and dissent among them escalates to the point of murder and chaos, unknowingly propelling them into one of the deadliest and most disastrous Western adventures in American history. As members of the group begin to disappear, the survivors start to wonder if there really is something disturbing, and hungry, waiting for them in the mountains...and whether the evil that has unfolded around them may have in fact been growing within them all along. Effortlessly combining the supernatural and the historical, *The Hunger* is an eerie, thrilling look at the volatility of human nature, pushed to its breaking point.

The Silent Heroes Jun 14 2022 Author Hans Moederzoon van Kuilenburg was a 10-year-old girl living in Amsterdam when German soldiers invaded Holland in the spring of 1940. The Dutch had intended to stay neutral at the outbreak of the war, as their military was no match for the Nazi hordes. Within five days, Holland had fallen and the German occupation was underway. The five ensuing years were among the darkest chapters in Dutch history, culminating in the hunger winter of 1944, during which 30,000 Dutch citizens died of hunger and cold. Even today, people like the author, who grew up during that time, are more prone to heart attacks as a result of the physical stress of those years. But despite having capitulated so quickly in the face of the overwhelming might of the German war machine, there were many heroes in Holland during the occupation; people like the author's father, a civilian supervisor of marine supplies, who robbed the Germans blind and gave stolen food and clothing to Dutch people in need. Eventually his activities attracted the attention of the German authorities and he was imprisoned. Thankfully Hans' mother was able to stage a dramatic escape with the help of the family doctor. **The Silent Heroes** is a true story of heroism, survival and resistance during a time of fear, despair, and hardship. Hans Moederzoon van Kuilenburg was born in Amsterdam and immigrated to the U.S. in 1959. She had a distinguished career as a medical

assistant before retiring. In addition to writing, she also does photography and sometimes exhibits her work. *The Silent Heroes* is her first book. Publisher's website: <http://sbpra.com/HansMoederzoonVanKuilenbur>

Coping with Hunger and Shortage under German Occupation in World War II Sep 17 2022 This volume demonstrates how German expansion in the Second World War II led to shortages, of food and other necessities including medicine, for the occupied populations, causing many to die from severe hunger or starvation. While the various chapters look at a range of topics, the main focus is on the experiences of ordinary people under occupation; their everyday life, and how this quickly became dominated by the search for supplies and different strategies to fight scarcity. The book discusses various such strategies for surviving increasingly catastrophic circumstances, ranging from how people dealt with rationing systems, to the use of substitute products and recycling, barter, black-marketeering and smuggling, and even survival prostitution. In addressing examples from Norway to Greece and from France to Russia, this volume offers the first pan-European perspective on the history of shortage, malnutrition and hunger resulting from the war, occupation, and aggressive German exploitation policies.

The Hunger Winter Aug 28 2023 Germany invaded the Netherlands in the spring of 1940. Life in occupied Holland was hideous enough, but for the Dutch the worst was yet to come. After the Western Allies lost the Battle of Arnhem in September 1944, the Dutch provinces north of the Rhine and Waal Rivers were in the hands of the Germans, and to the south fighting raged for months. In the winter of 1944-45, just as other parts of Europe were being liberated, the Dutch seemed forsaken by the Allies, who bypassed Holland on their drive to Berlin. That last winter of the war, with its severe food and fuel shortages, was a terrible one for the Dutch people, who also suffered from episodes of Nazi terrorism. In some provinces there was nothing to eat but tulip bulbs and sugar beets, and eighteen thousand Dutch civilians actually starved to death. Henri van der Zee, who was ten years old that winter, remembers what happened to his people.

Wicked Deeds on a Winter's Night May 13 2022 Grieving over the loss of his love, werewolf Bowen MacRieve enjoys a passionate encounter with his enemy, the witch Mariketa the Awaited, but when sinister forces threaten her life, Bowen must use all his skills to keep her alive.

More than 200,000 people suffered from severe malnutrition and an estimated 20,000 people died of starvation.

It is the autumn of 1846 in Ireland. Lorraine and her brother are waiting for the time to

pick the potato crop on their family farm leased from an English landowner. But this year is different—the spuds are mushy and ruined. What will Lorraine and her family do? Then Lorraine meets Miss Susannah, the daughter of the wealthy English landowner who owns Lorraine’s family’s farm, and the girls form an unlikely friendship that they must keep a secret from everyone. Two different cultures come together in a deserted Irish meadow. And Lorraine has one question: how can she help her family survive? A little known part of history, the Irish potato famine altered history forever and caused a great immigration in the later part of the 1800s. Lorraine’s story is a heartbreaking and ultimately redemptive story of one girl’s strength and resolve to save herself and her family against all odds.

Famine and Death in Occupied Greece, 1941-1944 Aug 16 2022 This is a pioneering study of the impact of the famine that occurred in Greece during its occupation by German, Italian and Bulgarian forces in 1941 and 1942. Violetta Hionidou examines the courses and politics of this food crisis, focusing on the demography of the famine and the effectiveness of the relief operations. Her interdisciplinary approach combines demographic, historical and anthropological methodologies to offer a comprehensive account of the famine. This important study makes a major contribution to current debates about mortality and its causes during famines.

Shedding Our Stars Sep 24 2020 During the German occupation of the Netherlands, 1940 to 1945, all Jews were ordered to register the religion of their grandparents. The Reichskommissar appointed the young lawyer Hans Calmeyer to adjudicate “doubtful cases.” Calmeyer used his assignment to save at least 3,700 Jews from deportation and death, dwarfing the number saved by Schindler’s famous rescue operation. Laureen Nussbaum—née Hannelore Klein—owes her life to this brave German official. In *Shedding Our Stars*, she tells how Calmeyer declared her mother non-Jewish and deleted her and her family from the deportation lists, saving them from death. She goes on to interweave his story with her family’s tale of survival, as well as with that of her boyfriend and, later, husband, Rudi Nussbaum. Since in Amsterdam the Kleins were close to the Franks, Anne Frank and her family also figure in book. Going beyond the liberation of the Netherlands to follow both Calmeyer’s and the author’s story to the end of their lives, *Shedding Our Stars* is a story

of courage in the darkest of times, and of the resilience of the human spirit.

Dutch Girl Oct 18 2022 Twenty-five years after her passing, Audrey Hepburn remains the most beloved of all Hollywood stars, known as much for her role as UNICEF ambassador as for films like *Roman Holiday* and *Breakfast at Tiffany's*. Several biographies have chronicled her stardom, but none has covered her intense experiences through five years of Nazi occupation in the Netherlands. According to her son, Luca Dotti, "The war made my mother who she was." Audrey Hepburn's war included participation in the Dutch Resistance, working as a doctor's assistant during the "Bridge Too Far" battle of Arnhem, the brutal execution of her uncle, and the ordeal of the Hunger Winter of 1944. She also had to contend with the fact that her father was a Nazi agent and her mother was pro-Nazi for the first two years of the occupation. But the war years also brought triumphs as Audrey became Arnhem's most famous young ballerina. Audrey's own reminiscences, new interviews with people who knew her in the war, wartime diaries, and research in classified Dutch archives shed light on the riveting, untold story of Audrey Hepburn under fire in World War II. Also included is a section of color and black-and-white photos. Many of these images are from Audrey's personal collection and are published here for the first time.
