Discover how to tap into your extraordinary human capacity for connection and healing using astonishing new findings about the miraculous power of group intention in this new book by the author of the international bestsellers *The Intention Experiment* and *The Field*. In *The Power of Eight*, Lynne McTaggart—whose “work has had an unprecedented impact on the way everyday people think of themselves in the world” (Gregg Braden, author of *The Divine Matrix*)—reveals her remarkable findings from ten years of experimenting with small and large groups about how the power of group intention can heal our lives and change the world for the better. When individuals in a group focus their intention together on a single target, a powerful collective dynamic emerges that can

heal longstanding conditions, mend fractured relationships, lower violence, and even rekindle life purpose. But the greatest untold truth of all is that group intention has a mirror effect, not only affecting the recipient but also reflecting back on the senders. Drawing on hundreds of case studies, the latest brain research, and dozens of McTaggart's own university studies, *The Power of Eight* provides solid evidence showing that there is such a thing as a collective consciousness. Now you can learn to use it and unleash the power you hold inside of you to heal your own life, with help from this riveting, highly accessible book. It took years of research, university teaching, and hundreds of client projects for Will to formulate his concept behind the art of asking powerful questions. In his book, Will breaks it down into six simple steps for all of us to be able to understand. The *Asking Powerful Questions Pyramid*(tm) shows you how to build: Intention Rapport Openness Listening Empathy Business professionals, personal coaches, teachers and anyone in a position of leadership will relate to the personal successes and failures Will shares as he unpacks the art of asking questions that elicit unconventional answers. "Intention is a force in the universe, and everything and everyone is connected to this invisible force." Intention is generally viewed as a pit-bull kind of determination, propelling one to succeed at all costs by never giving up on an inner picture. In this view, an attitude that combines hard work with an indefatigable drive toward excellence is the way to succeed. However, intention is viewed very differently in this book. Dr. Wayne W. Dyer has researched intention as a force in the universe that allows the act of creation to take place. This book explores intention-not as something you do-but as an energy you're a part of. We're all intended here through the invisible power of intention. This is the first book to look at intention as a field of energy you can access to begin co-creating your life! Part I deals with the principles of intention, offering true stories and examples showing how to make the connection. Dr. Dyer identifies the attributes of the all-creating universal mind of intention as creative, kind, loving, beautiful, expanding, endlessly abundant, and receptive, explaining the importance of emulating this source of creativity. In Part II, Dr. Dyer offers an intention guide with specific ways to apply the co-creating principles in daily life. Part III is an exhilarating description of Dr. Dyer's vision of an individual connected at all times to the universal mind of intention. **THE INVISIBLE FORCE** Dr. Wayne W. Dyer has put together this little book in order to convey the fact that intention is a field of energy that flows invisibly beyond the reach of our normal, everyday habitual patterns. It's a force that we all have within us, and we have the power to draw it into our lives by being the energy we want to attract. Use the uplifting material within these pages to bring the power of intention into your life for many years to come, and experience the world in a new and exciting way! *Intentioning* by best-selling author Gloria Feldt will help you envision the life and career you might have thought were impossible dreams, then give you the courage and actionable tools to achieve them. In the wake of the coronavirus pandemic and a pandemic of racial injustice that together shook our world to its core and revealed deep fault lines in our culture, Gloria Feldt, New York Times best-selling author, speaker, commentator, international leadership expert, successful CEO, and feminist icon, shows how we can seize the once-in-a-lifetime opportunity created by massive disruption to build back stronger with diverse women at the center of the recovery. In *Intentioning: Sex, Power, Pandemics, and How Women Will Take The Lead for (Everyone's) Good*, Feldt inspires diverse women to embrace their personal power to lead with intention, confidence, and joy. It comes as no surprise to her that women flexed their formidable muscles when needed most, representing a disproportionate number of essential workers during the darkest days of the coronavirus global outbreak and leading the charge against racism in the United States. But this book is decidedly about the future, taking the leadership lessons learned from this disruption and creating a better world for all. Feldt not only unveils the next step in advancing gender parity in all spheres of business and life, but she also lays out the vital next steps in the overall advancement of our economy and our civilization. The "Lead Like a Woman" framework and the "9 Leadership Intentioning Tools" she presents in this book will prepare, motivate, and propel women of all diversities and intersectionalities now so that by 2025, women will have attained their fair and equal share of leadership positions across all sectors of industry and society. We simply cannot squander women's talents when so much hangs in the balance. Women must be at the vanguard of reimagining and reconstructing a vibrant and sustainable future for us all. **BASED ON NATURAL** laws which govern all of creation, this book shatters the myth that success is the result of hard work, exacting plans, or driving ambition. In *The*

Seven Spiritual Laws of Success, Deepak Chopra offers a life-altering perspective on the attainment of success: Once we understand our true nature and learn to live in harmony with natural law, a sense of well-being, good health, fulfilling relationships, energy and enthusiasm for life, and material abundance will spring forth easily and effortlessly. a technological society, no doubt about it. Our devices keep us informed while isolating us from each other and from ourselves, our true selves. There is, however, another technology, an inner technology that brings us back to our true selves and gives us the ability to create lives of joy, abundance and wisdom. Kim Stanwood Terranova calls it The Technology of Intention and in this book she teaches the reader how to tap into this technology and unleash its power. We all have the power we've just forgotten how to use it. Intentions give us the pathway to consciously create our lives. They are the powerful force that points the energy in the direction of all we wish to manifest. This book is a guiding light in assisting us to not only understand the power we each have, but also to give us the road map and step-by-step process to ignite that power. A fully illustrated guide to intentional living from leading author, coach and speaker, Carolyn Boyes. By living with intention we are actively shaping our lives, establishing how we wish to invest our energy and time on this Earth. Through the processes of self-enquiry, assessing our values, visioning and mindfulness we can ensure that our beliefs and actions are in alignment, discard those aspects of our lives that no longer serve us and manifest the existence we want. By using easy-to-follow tools, strategies and exercises, leading life coach and speaker, Carolyn Boyes, shows us how, in this fast-paced, demanding world, which is so full of distractions, we can move from living a busy life - one that we endure - to an intentional life - one that we have chosen. Draws on original experiments as well as scientific research to explore a theory that the entire universe is connected by a vast energy field that can be manipulated for the betterment of the world using positive thought processes. No matter who you are or what you believe, you have the power to manifest what you want in life—a dream job, wealth, love, and health. In this concise and fascinating book, Tony Burroughs shows readers how to work with the Law of Agreement to change old beliefs about money, relationships, and health issues that are holding them back. He shares stories from his years of working with people from all over the world who are practicing living intentionally bringing into their lives that which serves the higher good and discarding the rest. The Law of Agreement says that as we lend our agreement to any belief, we reinforce it and make it stronger. Alternatively, as we refrain from lending our agreement to an idea that isn't likely to give us the results we're looking for, we dilute it and weaken its power over us and over everyone else simultaneously. Burroughs offers examples and stories that show how the Law of Agreement and its partner, the Law of Adversity, work simultaneously. What happens when we don't get what we want? What is the opportunity in adversity? The Law of Agreement shows how adversity can lift us up and out of our routines and help us to reach deep inside ourselves for answers to life's hardest questions. Full of real-life stories, examples, and solutions, The Law of Agreement is a practical and world changing book. Dyer takes the viewer through a journey into the seven faces of intention: creativity, kindness, love, beauty, expansiveness, abundance, and receptivity. As a bonus feature, Dyer speaks about the very personal and profound event that transformed his own life. Please note: This is a companion version & not the original book. Sample Book Insights: #1 The Power of Intention was intended into the material world by applying all of the principles written about in this book. I managed to make my own vibrational energy match up to the all-creating Source, and allowed these words and ideas to flow through me directly to you. #2 I've been studying intention for years, and I've found that it is a strong purpose or aim accompanied by a determination to produce a desired result. People driven by intention are described as having a strong will that won't allow anything to interfere with their achieving their inner desire. #3 The Power of Intention is the power to access the seemingly dormant forces within us and use them to achieve our goals. It is a field of energy that flows invisibly beyond the reach of our normal, everyday habits. #4 The field is the source of our intelligence, creativity, and imagination. It is an invisible domain or higher reality that can be tapped into and used by everyone. It is present in everything in the universe, and it doesn't err. Why Meditate? The practice of meditation takes us on a fabulous journey into the gap between our thoughts, where all the advantages of a more peaceful, stress-free, healthy, and fatigue-free life are available—but they're merely side benefits. The paramount reason for daily meditation is to get into the gap between our thoughts and make conscious contact with the creative energy of life itself. In this uplifting book, Dr. Wayne W. Dyer explains the soul-nourishing meditation technique for making conscious contact with God, which the ancient masters have told us about. You have all the potential to be an instrument of the highest good for all concerned and to be a literal miracle worker in your own life. No person, government entity, or religious group can legitimately claim to do this for you. "In fact," says Dr. Dyer, "I agree with Carl Jung, who said that one of the main functions of formalized religion is to protect people against a direct experience of God." (Dr. Dyer helps you have this direct experience by leading you through the meditation technique in the accompanying audio download.) When you master getting into the gap, stay there for prolonged segments of meditation, and experience what you bring back into the world, you'll truly know the answer to the question: "Why meditate? What I'm offering in this book is the awareness that we can return to a full-time position of inspiration, which is the true meaning of our life." Dr. Wayne W. Dyer.....INSPIRATION In this groundbreaking book, Dr. Wayne W. Dyer explains how we've chosen to enter this world of particles and form. From our place of origin, in ways that we don't readily comprehend now, we knew what we were coming here to accomplish, and we participated in setting this life process in motion. So why not think along these same lines? Why put the responsibility or blame on any one or any thing that's not a part of us? On Earth we have the capacity of volition we can choose so let's assume that we had the same capacity when we resided in the spiritual realm. We chose our physical body, and we chose the parents we needed for the trip. It doesn't seem too great a stretch to move into the idea that we chose this life in concert with our Source. Inspiration can be cultivated and be a driving force throughout life, rather than showing up every now and then and just as mysteriously disappearing, seemingly independent of our desires. Inspiration is for everyone! It isn't reserved for high-profile creative geniuses in the arts and sciences it's inherent in our Divine birthright. The problem is that as children we're gradually taught to believe exclusively in the world of phenomena where ego is dominant and inspiration diminished. As you read each chapter in this book, you'll find specific suggestions for living "in-Spirit." From a very personal viewpoint, Wayne offers a blueprint through the world of inspiration your ultimate calling. Classic Books Library presents this brand new edition of "The Federalist Papers", a collection of separate essays and articles compiled in 1788 by Alexander Hamilton. Following the United States Declaration of Independence in 1776, the governing doctrines and policies of the States lacked cohesion. "The Federalist", as it was previously known, was constructed by American statesman Alexander Hamilton, and was intended to catalyse the ratification of the United States Constitution. Hamilton recruited fellow statesmen James Madison Jr., and John Jay to write papers for the compendium, and the three are known as some of the Founding Fathers of the United States. Alexander Hamilton (c. 1755–1804) was an American lawyer, journalist and highly influential government official. He also served as a Senior Officer in the Army between 1799-1800 and founded the Federalist Party, the system that governed the nation's finances. His contributions to the Constitution and leadership made a significant and lasting impact on the early development of the nation of the United States. 'Change the

Why the future of great power politics is likely to resemble its dismal past Can great powers be confident that their peers have benign intentions? States that trust each other can live at peace; those that mistrust each other are doomed to compete for arms and allies and may even go to war. Sebastian Rosato explains that states routinely lack the kind of information they need to be convinced that their rivals mean them no harm. Even in cases that supposedly involved mutual trust—Germany and Russia in the Bismarck era; Britain and the United States during the great rapprochement; France and Germany, and Japan and the United States in the early interwar period; and the Soviet Union and United States at the end of the Cold War—the protagonists mistrusted each other and struggled for advantage. Rosato argues that the ramifications of his argument for U.S.–China relations are profound: the future of great power politics is likely to resemble its dismal past. Part I deals with the principles of intention, offering true stories and examples on ways to make the connection. Dr. Dyer identifies the attributes of the all-creating universal mind of intention as creative, kind, loving, beautiful, expanding, endlessly

abundant, and receptive, explaining the importance of emulating this source of creativity. In Part II, Dr. Dyer offers an intention guide with specific ways to apply the co-creating principles in daily life. Part III is an exhilarating description of Dr. Dyer's vision of a world in harmony with the universal mind of intention. Intention is generally viewed as a pit-bull kind of determination propelling one to succeed at all costs by never giving up on an inner picture. In this view, an attitude that combines hard work with an indefatigable drive toward excellence is the way to succeed. Dr. Wayne W. Dyer has researched intention as a force in the universe that allows the act of creation to take place. These cards explore intention—not as something you do—but as an energy you're a part of. Dyer shows you how to restore balance in your life by offering nine principles for realigning your thoughts so that they correspond to your highest desires. Imagine a balance scale with one end weighted down to the ground, and the other end - featuring the objects of your desires - sticking up precariously in the air. This scale is a measurement of your thoughts. To restore the same balance that characterizes everything in our universe, you have to take up the weighty thoughts so that they match up to your desires. The seasons reflect the overall harmony of life. For example, winter passes and the blossoms emerge. This is balanced by a need to have the trees rest, so autumn arrives on time and helps the trees ready themselves for another period of repose. This book is dedicated to the idea that we're a vital component of this creative process and have within ourselves the wherewithal to create all that we want if we recognize and revise out-of-balance thoughts. "I'm trying to meditate one day but urgent thoughts keep intruding. Don't forget to take cupcakes to school! I have to prepare for my presentation for the wellness conference! Is that lunch with the other moms tomorrow or next week? My to-do list is stampeding through my mind, trampling any chance of tranquility. I feel overwhelmed, yes, but there's more: I feel...guilty. Guilty that I'm taking on too much, guilty that I'm not doing anything well, guilty that I'm giving short shrift to my kids, my husband, my job. And what about you, Mallika? a quiet voice asks. How are you shortchanging yourself?" *Living with Intent* is a chronicle of Mallika Chopra's search to find more meaning, joy, and balance in life. She hopes that by telling her story, she can inspire others with her own successes (and failures) as well as share some of the wisdom she has gathered from friends, experts, and family along the way—people like her dad, Deepak, as well as Eckhart Tolle, Marianne Williamson, Arianna Huffington, Andrew Weil, and Dan Siegel. She also provides a practical road map for how we can all move from thought to action to outcome. Each chapter is devoted to one step on her journey and another piece of her INTENT action plan: Incubate, Notice, Trust, Express, Nurture, and Take Action. Chopra's insights and advice will help us all come closer to fully living the lives we truly intend. National Bestseller This inspiring book by Wayne Dyer, author of the bestselling classics *Your Erroneous Zones* and *Pulling Your Own Strings*, delves into the teachings of intellectuals of our past to mine values and wisdom for the present. "What do our ancestral scholars, whom we consider the wisest and most spiritually advanced, have to say to us today?" asks Dyer. The answer lies in this powerful collection of writings, poems, and sayings by some of the greatest thinkers of the past twenty-five centuries. In succinct original essays, Dyer sets out to explain the meaning and context of each piece of wisdom, and, most important, to explain how we can actively apply these teachings to our modern lives. From sixty ancestral masters - Buddha, Michelangelo, Rumi, Whitman, Jesus, Emily Dickinson, and Emerson, among others - here are treasured passages on a variety of subjects, including solitude, time, and passion. Among the contributions are words on inspiration from Pantanjali, author of the Hindu classic *Yoga Sutras*; teachings about the power of prayer from 13th-century monk St. Francis of Assisi; and thoughts about the importance of action written by Mother Teresa. The voices collected here cut across a wide range of historical eras and cultures, yet they communicate universal truths about the human experience. *Wisdom of the Ages* provides us with a marvelous dual opportunity: to receive guidance from our great ancestors and to recognize our own potential for greatness
