In the remote snow-covered mountains near Tibet lies a community long thought to be a mere

myth called Shambhala, or Shangri-La. Here, in this place, is knowledge that has been kept hidden for centuries, and an insight that can have a profound impact on the way each of us lives our lives. Your search for Shambhala begins with the words of a child and the vision of an old friend. Those slender clues and a powerful synchronicity will lead to Kathmandu, Nepal, and then to Lhasa, Tibet. Amid blowing snows and perilous mountains, you will meet the members of the secret Tibetan sect that guards mysterious legends - the verbal instructions handed down for centuries that describe the inner changes one must undergo before entering Shambhala. Finally, with Chinese Agents in pursuit, you will pass through regions where anger and compassion struggle for ascendancy, and arrive at a place where the stunning reality about human prayer-energy - our underdeveloped ability to increase the synchronicity in our lives and influence what will happen to us in the future - is revealed. The tale begins over three-hundred years ago, when the Fair People—the goblins, fairies, dragons, and other fabled and fantastic creatures of a dozen lands—fled the Old World for the New, seeking haven from the ways of Man. With them came their precious jewels: diamonds, rubies, emeralds, pearls... But then the Fair People

vanished, taking with them their twelve fabulous treasures. And they remained hidden until now... Across North America, these twelve treasures, over ten-thousand dollars in precious jewels in 1982 dollars, are buried. The key to finding each can be found within the twelve full-color paintings and verses of THE SECRET. Are you smart enough? THE SECRET: A TREASURE HUNT was published in 1982. The year before publication, the author and publisher Byron Preiss had traveled to 12 locations in the continental U.S. (and possibly Canada) to secretly bury a dozen ceramic casques. Each casque contained a small key that could be redeemed for one of 12 jewels Preiss kept in a safe deposit box in New York. The key to finding the casques was to match one of 12 paintings to one of 12 poetic verses, solve the resulting riddle, and start digging. Since 1982, only two of the 12 casques have been recovered. The first was located in Grant Park, Chicago, in 1984 by a group of students. The second was unearthed in 2004 in Cleveland by two members of the Quest4Treasure forum. The mysterious group of people called the 'Erev Rav' have stayed hidden in the shadows of Jewish history for more than three millenia. For the first time, this book pieces together some of the deepest Jewish sources and commentaries to paint a picture of the Erev that's complex, engaging and occasionally disturbing. In these pages, you'll find the answer to questions like: Who are the Erev Rav? How are they really connected to the Jewish people? Why have they got such a bad name? How do they behave? Why are they still a problem for the Jewish people, even in our modern times? How are they connected to global redemption, and the coming of Moshiach? What can we do, to meet the challenge they pose to us and our communities? This book is like reading a mystery thriller about the Jewish people, just so much better. How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic

challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter

our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, The Secret of Our Success explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness. Working for a prominent member of the NAACP in 1946 when a request comes from her favorite childhood author to investigate the murder of a black war hero, Regina Robichard travels to Mississippi, where she navigates the muddy waters of racism, relationships, and her own tragic past. Cassie King's father has died, her mother has retreated into herself, away from reality, and her best friend has abandoned her for the in crowd, so when she and her sort-of friend, Joe, find a kitten during an intense electrical storm, Cassie is determined to adopt him; but Albert (named for Einstein) is no ordinary kitten: he is incredibly strong, things around him tend to burn, his eyes glow red, and when he gets annoyed the weather turns dangerous--in fact Albert is a dragon, and there is someone searching for him with very unfriendly intentions. The word "secret" appears in many

book titles in an effort to create sales, but the reader often finds few secrets inside. This book is a rare exception. There is a powerful secret to be found within these pages. It claims to contain the hidden jewel that both Eastern and Western religions have been seeking for centuries. Religions have lost their focus, having turned their attention away from this mystical process and toward their dogmatic theologies. The Golden Flower, in terms of this book, is the hidden light within the human body that is the key to spiritual enlightenment. This book reveals how the reader can tap into it using meditative and Taoist Yoga practices. This can result in higher wisdom, spiritual bliss and a complete transformation of consciousness. It includes a Commentary by the legendary psychologist C.G. Jung concerning the differences in consciousness between the East and West, as well as his closing Appendix honoring the memory and accomplishments of the original Translator of this work, Richard Wilhelm. Like The Mystery of the Yellow Room, The Secret of the Night is a Joseph Rouletabille mystery. In The Mystery of the Yellow Room fictional detective Rouletabille investigated a complex and seemingly impossible crime - in which the criminal appears to disappear from a locked room! There've been so many locked-room mysteries since that it's become a subgenre - but there are folks who

believe Gaston Leroux invented the form. (We hate assertions like that. Have you noticed how often things turn out to have been invented by monks in the middle ages, or by prehistoric Chinamen, or seventeenth-century Englishmen? - Heavy sigh.) John Dickson Carr, the master of locked-room mystery, named The Mystery of the Yellow Room as the "finest locked room tale ever written" in his 1935 novel the Hollow Man.
