In *The Leader's Brain*, Wharton Neuroscience Initiative director Michael Platt explains how. Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? *The Leader in Me* that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught *The 7 Habits of Highly Effective People* to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well. You never dreamed being the boss would be so hard. You're caught in a web of conflicting expectations

from subordinates, your supervisor, peers, and customers. You're not alone. As Linda Hill and Kent Lineback reveal in *Being the Boss*, becoming an effective manager is a painful, difficult journey. It's trial and error, endless effort, and slowly acquired personal insight. Many managers never complete the journey. At best, they just learn to get by. At worst, they become terrible bosses. This new book explains how to avoid that fate, by mastering three imperatives:

- **Manage yourself:** Learn that management isn't about getting things done yourself. It's about accomplishing things through others.

- **Manage a team:** Forge a high-performing "we" out of all the "I's" who report to you.

You may be surprised to discover you're not as influential as you think you are. Your team is only as strong as your influence, and many leaders today are mistaken about what it means to be influential. An outdated influence paradigm, along with technological devices and distractions, is making it increasingly challenging for leaders to reach those they need to influence in order to be successful. In fact, many leaders are unwillingly and unknowingly sabotaging themselves and their influence. In her thought-provoking *Influence Redefined*, Stacey Hanke introduces her powerful Influence Model, a step-by-step method for improving communication and producing the ideal type of influence—one that moves people to action long after an interaction is over. She dispels the most common influence myths and instructs leaders on how to stop sabotaging themselves in order to leave a positive, lasting impression. Using a results-based definition of influence for individuals and organizations, Hanke successfully shows leaders how they can develop influence as a skill through self-awareness, consistency, a positive reputation, adaptability, and impact. With insights from dozens of executives and business leaders, as well as practical how-tos and action steps, *Influence Redefined* will help leaders multiply and expand their influence every day, Monday to Monday®. Through Stacey Hanke, Inc., the author has provided keynotes, mentoring and training on communicating with influence to thousands of leaders across industries. Timeless advice on how to be a successful leader in any field The ancient biographer and essayist Plutarch thought deeply about the leadership qualities of the eminent Greeks and Romans he profiled in his famous—and massive—*Lives*, including politicians and generals such as Pericles, Alexander the Great, Julius Caesar, and Mark Antony. Luckily for us, Plutarch distilled what he learned about wise leadership in a handful of essays, which are filled with essential lessons for experienced and aspiring leaders in any field today. In *How to Be a Leader*, Jeffrey Beneker presents the most important of these essays in lively new translations accompanied by an enlightening introduction, informative notes, and the original Greek on facing pages. In "To an Uneducated Leader," "How to Be a Good Leader," and "Should an Old Man Engage in Politics?" Plutarch explains the characteristics of successful leaders, from being guided by reason and exercising self-control to being free from envy and the love of power, illustrating his points with memorable examples drawn from legendary Greco-Roman lives. He also explains how to train for leadership, persuade and deal with colleagues, manage one's career, and much more. Writing at the height of the Roman Empire, Plutarch suggested that people should pursue positions of leadership only if they are motivated by "judgment and reason"—not "rashly inspired by the vain pursuit of glory, a sense of rivalry, or a lack of other meaningful activities." His wise counsel remains as relevant as ever. Meyer challenges both established and potential leaders to cultivate hearts that please God in every way and describes exactly which tests all leaders must pass, giving priceless encouragement for the spiritual journey ahead. Ever wondered why it feels so hard to get the career you dream of without having to sacrifice who you are? Most leadership books teach you what to fix, but you aren't broken; you simply need to unlock the goldmine of talent you have already and remarket it for the biggest impact. This is where fulfillment stems from. The "management classic" (*Library Journal*) that packs a huge amount of practical wisdom is now in paper. In his inspiring new book, *You Don't Need a Title to Be a Leader*, Mark Sanborn, the author of the national bestseller *The Fred Factor*, shows how each of us can be a leader in our daily lives and make a positive difference, whatever our title or position. Through the stories of a number of unsung heroes, Sanborn reveals the keys each one of us can use to improve our organizations and enhance our careers. Genuine leadership – leadership with a "little I", as he puts it, is not conferred by a title, or limited to the executive suite. Rather, it is shown through our everyday actions and the way we influence the lives of those around us. Among the qualities that genuine leaders share: • Acting with purpose rather than getting bogged down by mindless activity • Caring about and listening to others • Looking for ways to encourage the contributions and development of others rather than focusing solely on personal achievements • Creating a legacy of accomplishment and contribution in everything they do As readers across the country discovered in *The Fred Factor*, Mark Sanborn has an unparalleled ability to explain fundamental business and leadership truths through simple stories and anecdotes. *You Don't Need a Title to Be a Leader* offers an inspiring message to anyone who wants to take control of their life and make a positive difference. Today, leadership skills are vital in every field and, consequently, are in much demand. Successful leaders must have a clear vision of what they want to achieve. They must also be able to persuade everyone on their team to join with them in achieving their goals. From there on, it is necessary to continue working very hard to keep the team united and totally task focused until the goals are achieved. An excellent analogy is to liken the leader to a bus driver who knows the desired destination. The two vital tasks, then, are to persuade everyone, whose assistance is needed to get there, to board the bus, and, having done so, ensure they all stay on board, until the destination is reached. This book explains what leadership is, which leadership style is your predominant one, what you need to do to get your people on your bus and, finally, how to keep them there until your goals are achieved. In summary, you will learn how to be a truly effective and successful leader. Great things come in little packages: 50 commonsense (but rarely common) ideas for building the leadership potential of others. You never dreamed being the boss would be so hard. You're caught in a web of conflicting expectations from subordinates, your supervisor, peers, and customers. You're not alone. Packed with

compelling stories and practical guidance, *Being the Boss* is an indispensable guide for not only first-time managers but all managers seeking to master the most daunting challenges of leadership. Most leadership models start with trying to identify what great leaders do. In *Follow the Leader*, global speaker, consultant and leadership expert Emmanuel Gobillot answers a much more fundamental question to anyone wanting to become a great leader: 'what do great followers want?'. In this fast-paced and well-researched book, he identifies the key elements of leadership success and the proven pathways to developing the charisma we all seek in the leaders who truly inspire and motivate us. He breaks down the all-important 'charisma' into eight critical elements, explaining how each component works and offering practical development steps for each. Getting these steps right will transform good leaders into magnets for great followers, harnessing an unstoppable power for business achievement. "Be the Leader, Make the Difference" links separate leadership behavior--like vision, empowerment, reward and recognition, coaching, and mentoring--into a single leadership model. Readers can discover the connection between challenging people, building their confidence, and coaching. Graphs and charts. When a position in management opens up, will you make the 'short list' of nominees? When your annual review comes along, do you have the 'leadership qualities' necessary to climb the corporate ladder? More importantly, are great leaders born? Or are they made? In this unique blend of narrative fiction and study-guide, authors Ken Strong and John DiCicco tell us the story of Mike. He's an ex-drill sergeant, a good father, and a solid employee. But it's been a long time since he trained new military recruits to become seasoned leaders. When a position in management opens up, Mike's hesitant to apply. With the mentoring of a CEO that sees his potential, and the help of a lovingly honest wife, Mike relearns that most important of lessons, that Leadership is a Choice. Each chapter follows Mike's immersive story and explains invaluable management wisdom from the process. Following each section is a study guide with explanations that further illuminate the most important steps in becoming a leader. With this straightforward, example-driven method, learning to become a great leader has never been easier. In this book, you will find the keys and principles that will make you the kind of leader that others want to follow, the kind that earns respect. Don't allow that possible promotion to pass you by. Be the leader that your employer is looking for. Whether you've ever thought you would be able to lead before or not, you can now, because Leadership Is a Choice. Kindness and leadership aren't often synonymous. Ask someone to describe "good leadership" to you and you will hear many adjectives used: authentic, bold, challenging, charismatic, decisive, empowering, fearless, goal-oriented, humble, inspiring, original, passionate, role-model, strategic and transparent, to name of a few. And though there are many more that come to mind, kindness isn't one of them. And here's the problem with that. Leaders lead. And the way a leader leads -- how they do what they do -- influences those they lead. From the president of the country, to the president of a company, from middle managers, right down to front-line supervisors, what a leader models -- how they think, speak and act -- influences the people they lead. Leaders who think, speak and act unkindly give legitimacy and permission to those they lead to think, speak, and act in exactly the same unkind ways. Today, in a world where a leaders' words and actions travel quickly through social media channels such as Twitter, their influence -- unkind or kind -- is amplified through repeated views and sharing. In an increasingly fragmented, polarized and divided world, we need leaders who will bring people together not divide them. Leaders who value and model cooperation and collaboration over competition. And who model ways to think kindly, speak kindly and act kindly. We need kindness to become synonymous with good leadership. So that when someone is asked to describe the traits of a good leader, kindness will be the first word that comes to mind. Essentially, the purpose of this book is to teach leaders how to lead with kindness so they can influence the people they lead to create kinder workplaces, organizations and the world. Each chapter contains a mixture of theory, case studies and reflections from leaders and the people they influence. As well, the book follows the fictional stories of Kay'La Janson and Kevin Landrell, as they become leaders in a failing organization that is ultimately turned around through kind leadership. Between chapters there are a series of practical exercises based on concepts presented in the previous chapter with space to record outcomes and reflections on the practice process. This book gives you a deep theoretical understanding of the importance of leading with kindness and also provides practical exercises for you to use to turn theory into practice. Because "change means doing things differently," and because we only really "learn by doing" to create kinder organizations, kinder communities and a kinder world, leaders must be able to begin practicing kindness right away. By the time you finish the book, you will feel confident in your ability to lead with kindness and also to address organizational problems at work, at home and in the community, with kindness. ...compelling, inspiring, practical--just like its author.--Walter Anderson, Editor of Parade Magazine

Leaders aren't born, they're made. Becoming a successful leader is a continual, lifelong process. It's a journey that requires discipline, intention, and drive. Yet true leadership is not about what we do, it's about who we are. So how can we become leaders of integrity, passion, and excellence? *Be The Leader You Were Meant To Be* is a definitive resource for creating leaders who make a difference. Biblically-based, time-tested, and real-world proven, this landmark guide offers powerful, practical insights for personal and professional development. Inside you'll learn: How to cultivate the traits of an effective leader Why some leaders succeed more than others God's standard for authentic leadership How to resolve career challenges and difficulties How to excel in any profession Discover how you can make an impact in your workplace, on your team, and in your life. And uncover the leader that God intended you to be. Join the global movement that's making corporations more people-centric to achieve great results. The world is facing a global leadership crisis. Seventy-seven percent of leaders think they do a good job of engaging their people, yet 88 percent of employees say their leaders don't engage enough. There is also a high level of suffering in the workplace: 35 percent of employees would forgo a pay raise to see their leaders fired. This is an enormous waste of human talent--despite the fact that \$46 billion is spent each year on leadership development. Based on extensive research, including assessments of more than 35,000 leaders and interviews with 250 C-level executives, *The Mind of the Leader* concludes that organizations and leaders aren't meeting employees' basic human needs of finding meaning, purpose, connection, and genuine happiness in their work. But more than a description of the problem, *The Mind of the Leader* offers a radical, yet practical, solution. To solve the leadership crisis, organizations need to put people at the center of their strategy. They need to develop managers and executives who lead with three core mental qualities: mindfulness, selflessness, and compassion. Using real-world

inspirational examples from Marriott, Accenture, McKinsey & Company, LinkedIn, and many more, *The Mind of the Leader* shows how this new kind of leadership turns conventional leadership thinking upside down. It represents a radical redefinition of what it takes to be an effective leader--and a practical, hard-nosed solution to every organization's engagement and execution problems. You can be the leader you want to be--today and every day. Do you find yourself wishing you had more hours in the day? Do you want to do more, yet feel you just can't add another thing to your plate without being overwhelmed by stress or compromising your health, relationships, and integrity? No doubt, as a leader, there are some days when you feel the flow. You're able to make a difference and achieve big goals. You feel confident and energized. On days like this, you are your best self--the leader you want to be. But on other days, you go down a different, negative path, with pressures and doubts making you feel like a lesser version of yourself. How can you be the leader you want to be, every day? The answer is more than a time-management system or a silver-bullet solution for changing your routines. Leadership expert and coach Amy Jen Su's powerful new book helps readers discover that the answer lies within. By focusing in specific ways on five key leadership elements--Purpose, Process, People, Presence, and Peace--you can increase your time, capacity, energy, and ultimately your impact, with less stress and more equanimity. Drawing on rich and instructive stories of clients, leaders, artists, and athletes, as well as on research by experts, the author brings together the best of both Western management thinking and Eastern philosophy to provide a holistic yet hands-on approach. *The Leader You Want to Be* is your indispensable guide to tapping into and expanding your leadership capacity so that you can be your best, sustain yourself, and thrive as a leader. Former Head of the Singapore Civil Service Mr Lim Siong Guan now shares his diverse experiences and fresh insights on leadership in his exclusive new book, *The Leader, The Teacher & You*. As a former Permanent Secretary in ministries, including the Ministry of Defence, the Prime Minister's Office and the Ministry of Finance, and former chairman of the Inland Revenue Authority of Singapore and the Singapore Economic Development Board, the indefatigable public servant has contributed greatly to Singapore's success, introducing innovative policies and practices at each turn, which have greatly enhanced drive and performance across the board. Most notably, he is known for his pursuit of excellence, especially in spearheading the Public Service for the 21st Century (PS21) movement, to develop organizational excellence. From Singapore's early years of government to its emergence as a prosperous metropolis, Lim has served the nation tirelessly through the years. In *The Leader, The Teacher & You*, Lim puts forth a fresh take on the notion of leadership as other-centered, with the focus on enabling others to be the best they can be. This noble vision of leadership is elaborated and built upon through the sharing of his experiences, in particular the memorable lessons and deep-seated convictions he has had while serving under Mr Lee Kuan Yew, Singapore's first Prime Minister, and Dr Goh Keng Swee, Singapore's First Deputy Prime Minister. Different types of leadership, such as personal and position leadership are touched upon as the author encourages leaders to take an active role in empowering those they lead and spurring them on to excellence. Coming from a man who has helmed many distinguished organizations, Mr Lim's insights on core values essential for organizational excellence are also not to be missed. The book offers practical and down-to-earth advice for leaders in all walks of life. For leaders who genuinely care for the people they lead and hope to make a difference in their lives, this book will be a crucial guide. It is full of human insights, and it has a deep understanding of successful leadership, an appreciation of selflessness as the key to our collective future, an awareness of history's relevance to our lives and an unflinching emphasis on excellence. Siong Guan Lim is one of the most outstanding public servants in any country, and after finishing this book, you will know why." Senator Bill Bradley Former U.S. Senator and a Managing Director at Allen & Co. United States of America "The Leader, The Teacher & You is a riveting and thoughtful study on leadership based on theory, principles, and experience by a former Head of the Civil Service and one of Singapore's most successful and admired public servants, Siong Guan Lim. It should be read by every student of politics and public policy, and anyone who aspires to play a leadership role. The book which as the author says is 'part biography, part commentary, and part exposition,' is loaded with insights into how to work with people, deal with reality, motivate an organization, achieve results, anticipate change, and ensure relevance of the organization. For those who have long puzzled over how Singapore has been able to achieve so much with so little and in short time, it is public servants such as Siong Guan Lim who have made the partnership between the civil service and the elected politicians so fruitful. Through his fascinating account of how he started in his first job as an engineer in the Sewerage Department, went on to be the Principal Private Secretary to Prime Minister Lee Kuan Yew, worked with Deputy Prime Minister and Minister of Defence Dr Goh Keng Swee, and became successively Permanent Secretary of Defence, Education, and Finance, he recounts the crucial mentorship and inspiration provided by Singapore's leaders. He thoroughly examines what true leadership is all about. Lim moved on to become Chairman of Singapore's Economic Development Board and then Group President of GIC Private Limited, the wealth fund of Singapore. I have not read such a clear analysis of the function of leadership written so succinctly and in such practical terms. It should be on the required reading list of university courses not only in Singapore, but major universities everywhere." Professor Chan Heng Chee Chairman, Lee Kuan Yew Centre for Innovative Cities Singapore University of Technology and Design Singapore "The Leader, The Teacher & You makes us aware that what we do is not just for ourselves, but also for future generations. It is full of a wisdom born of a vast experience and a propensity to take the long view, while remaining acutely relevant for the immediate. Siong Guan Lim is the consummate teacher and role-models the title of the book. While there are suggestions on how to skim through selectively, I would encourage readers to read the whole book to get the true gist of the thinking that has helped to make civil servants people that count in our nation." Mrs Belinda Charles Dean, Academy of Principals Singapore "A remarkable book ... after I started reading it I simply couldn't put it down. It has great insights, is fun to read, and deserves to be widely read. It is full of practical wisdom for a wide range of people — from full time mums to business leaders. It sets out a framework for leaders based on values and culture, but also on lessons learned by having to take tough decisions. Siong Guan Lim had an outstanding career in the development of Singapore. The ability, motivation, and vision of the author and his colleagues are clearly one reason why Singapore and Lee Kuan Yew were so successful. Because of this, the book is a great insight to understanding the phenomenon of Singapore." Lord Griffiths of Fforestfach Vice Chairman, Goldman Sachs International UK "Siong Guan Lim has led and managed at the most senior levels of the Singaporean government. Any leader would love to have him at his/her side, advising, counselling, provoking, and reminding. We cannot have him with us in person, but we do have this book that extracts the lessons that he has garnered from his many years of experience. We are fortunate that he has chosen to share his wisdom in writing. I have used some of his wisdom in my Harvard Kennedy School course on Effective Implementation for more than ten years. It has stood the test of time. Now, with the advent of the book, I will borrow even more from him. My students

and I are grateful.” Mr Francis Hartmann Adjunct Lecturer in Public Policy and Originator of the Kennedy School course on Effective Implementation Harvard Kennedy School of Government USA “Academics often think of themselves as being like monks in a monastery, each person being responsible only for themselves and advancing their own careers. This book by Siong Guan Lim shows what real leadership can do to collectively achieve far more than can be done individually. This book contains the lessons and reflections of an outstanding practitioner of the art of leadership. Siong Guan Lim served in many senior positions of the Singapore Civil Service with great distinction and effectiveness. The fact that he was moved repeatedly from one senior position to another is a testament to his ability. In a society dedicated to promotion on the basis of merit, he was clearly meritorious. The book contains many important lessons and challenges based on what the author has learned and practiced himself. As he points out himself, the true testament of a leader is to look at what remains after he is gone. By that measure he did exceptionally well since the Singaporean public service and Ministry of Defence are models of efficiency and effectiveness. He points out that organizations need to change in good times and in good time so that they are not overtaken by the future. He clearly succeeded in the ones that he ran. I trust that the current leadership in these organizations will take his lessons to heart. Relative to other books I have read on leadership, this is one of the best. It is full of practical wisdom, insights and challenges. The focus on values as critical is what I have observed in the organizations I have led. I could not put it down once I started reading it. I would put it as a must read for any leader of an organization of any size. I certainly intend to use it in my leadership challenges.” Professor Daniel Hastings Cecil and Ida Green Education Professor of Aeronautics and Astronautics and Engineering Systems Massachusetts Institute of Technology (MIT), and Director/ Chief Executive Officer of Singapore-MIT Alliance for Research and Technology United States of America “This book is truly unique: it is written and packaged like the numerous self-help books on leadership with tips and challenges, but its objective is not to teach someone how to get ahead and be successful by learning leadership techniques. At its heart is a simple and yet profound message — that to lead, one has to inspire people to aspire beyond themselves. Messages like ‘at the heart of every human being is a desire for meaning and purpose in life’ is a call for true values-based leadership, and a selflessness that is reflected by the book’s fundamental premise: to be a good leader, one has to be a great teacher. Through examples from his own very public record of service to the nation and written in a way that is very accessible to young people, Siong Guan Lim is himself a teacher-leader. The one message that resonates through the book is his observation that ‘time passes and people die, but principles and values are what live on.’ Young Singaporeans should absorb the book’s messages into their daily lives, and by so doing they will become the selfless teacher-leaders, which Siong Guan Lim is the best example of.” Mr Ho Kwon Ping and Ms Claire Chiang Founders, Banyan Tree Hotels and Resorts Singapore “We live in a wicked world. The conventional wisdom is that, in order to succeed, one has to be ruthless and unprincipled. Siong Guan Lim’s extraordinary success is proof that a man with deep religious convictions and high moral principles can be a successful leader. What is Siong Guan Lim’s leadership style? He is a leader with a tough mind and a warm heart, a leader who teaches and develops those who are members of his team. This is a wise and inspiring book.” Professor Tommy Koh Chairman, Centre for International Law, National University of Singapore Singapore “As a life-long student of philosophy, I have been struck how scarce wisdom is in our world, even though it has been revered throughout the ages. This is why Siong Guan Lim’s book is special. It is probably one of the wisest books I have read about the Singapore experience. At the same time, its principles have universal applicability. Hence, I have no doubt that every reader will benefit from reading it. And the world will become a better place if his wise insights are universally applied.” Professor Kishore Mahbubani Dean of the Lee Kuan Yew School of Public Policy, National University of Singapore, and author of *The Great Convergence: Asia, the West, and the Logic of One World* Singapore “Siong Guan Lim’s book is a fascinating and uplifting read. He evolves an original exposition on the many facets of leadership from his more than 30 years of distinguished public service to Singapore. I recommend it as essential reading for managers be they placed in the private or public sector. Of greatest relevance to me personally was ‘Part I: The Teacher’ culminating in the chapter on ‘Culture and Values’ — valuable for those of us leading organizational change and development. Siong Guan’s conviction that today’s challenges demand values-driven solutions resonates sharply and persuasively. This book is organized to lovingly teach you how to lead yourself and your people to be the best that everyone can be.” Mr Philip Ng Chief Executive Officer, Far East Organization, and Chairman of the Singapore University of Technology and Design Board of Trustees Singapore “An extensive collection of great quotations and life principles by Siong Guan Lim has provided me with personal inspiration and valuable professional insights as a CEO of a company whose continued success depends on its people. As every principle is intelligently articulated, reading this book will surely motivate and encourage all leaders.” Mr Takeshi Niinami Chief Executive Officer of Lawson, Inc. Japan “The Leader, The Teacher & You: Leadership Through The Third Generation is a reflective account on teacher leadership by Siong Guan Lim, a former top civil servant with an illustrious career. Unlike many other books on the subject, he imparts thoughtful advice and perceptive lessons on leadership through easy to understand anecdotes and quotes from distinguished leaders such as Singapore’s founding fathers Mr Lee Kuan Yew and the late Dr Goh Keng Swee. This is an essential read for anyone looking to make a positive impact in the lives of others, regardless of age, background, or occupation. His advice is applicable to people from all walks of life, whether one is a civil servant, a business leader or a student.” Dr Stephen Riady Executive Chairman OUE Limited Singapore “This book captures much of what is important in life from a leadership perspective. Having lived in Singapore and having been a regular visitor since the early 1990’s, I have added much to my understanding of why the country has been so successful. A country run by leaders at all levels who exhibit the aspects of great leadership captured here, who really are ‘catalysts for change,’ and who never stop trying to be the best they can be, has every reason to be successful ... and this works in the private sector too!” Mr John G Rice Vice Chairman, General Electric, and President & Chief Executive Officer of GE Global Growth and Operations USA “This is an extraordinarily valuable book. Siong Guan Lim and Joanne Lim have managed to do the unusual, which is to create a narrative that is both educational and readable. The writers have elegantly drawn out important experiences and learnings from Siong Guan’s long and varied career, and have made them memorable. But this is more than a story of a remarkable career and personal journey but the context, the development of a country whose primary asset is its people, means that the insights are endorsed by the success of a nation.” Sir John Rose Chairman, Holdingham Group, and former Chief Executive Officer, Rolls Royce Inc. UK “One of the most insightful books in German literature is the novel *The Buddenbrooks* of Thomas Mann. It describes the decline of a family. Again and again looking at dynasties or business houses, we witness the seemingly unavoidable descent from great heights of success to failure. How can this be prevented? The answer is selfless and competent leadership! The young look for role models and guidance, which can only be provided by elders who by their achievements and their life show them that there are lofty goals worth striving for. Read this book for ideas and ideals.” Mr Urs Schoettli Consultant on Asian Affairs and former Asia Correspondent of *Neue Zürcher Zeitung* (Switzerland) in Beijing, Hong Kong, Delhi, and Tokyo “Siong Guan Lim has been at the helm of many organizations critical in the transformation of Singapore into an economic powerhouse, from the civil service to the Economic Development Board to GIC, the fund manager for Singapore’s foreign reserves. As autobiographical as it is motivational, *The Leader, the Teacher, and You* is a must-read for executives, public servants, and students of East Asian development. Yet the wisdom of its general insights, as well as the humility with which they are delivered, will be an inspiration for any reader.” Dr Toni Schönenberger Chief Executive Officer, UBS Wolfsberg, and Chairman, stars Foundation Board Switzerland “The transformation of Singapore has often been credited to the leadership of its succession of Prime Ministers. However, behind them are other leaders who do the actual grunt work and make things happen. This book tells the remarkable story of one such man, Siong Guan Lim, the son of a taxi driver, starting his career as a sewerage engineer and rising to be the Head of the Civil Service, having served as Principal Private

Secretary to the Prime Minister, as well as Permanent Secretary for the Defence, Education, and Finance Ministries along the way. And today he sits as Group President of one of the largest global sovereign wealth funds. There are fascinating insights into the way he led innovative changes in the government departments he served. After three decades, there are countless nuggets of wisdom here for us to learn from. There are many things that I admire about Siong Guan — his appetite for learning, courage to accept new appointments, his ability to lead wholesale management changes, and so on. But most of all I admire his humility, his empathy, and his ability to encourage and inspire others to do the best they can. Reading his story made me wish I had worked for such a leader and mentor.” Dato Dr Kim Tan Chairman, SpringHill Management Ltd. UK “Siong Guan Lim was Head of the well-known Singapore Civil Service. His book is full of aphorisms that are aimed primarily at the empowerment of people in a large complex organization and the role of an enlightened leadership. He ends the book with a quote from Laozi — ‘As for the best leaders, people do not notice their existence.’ The entire civil service of Singapore could do very well for themselves, but more importantly for Singaporeans, by taking a refresher course through reading this book. Civil servants today must take the risks of constructive change. The lessons of the book could prevent the stasis that dominant ruling parties undergo as witnessed with the KMT in Taiwan and the LDP in Japan.” Dr Tommy Tan Chief Executive Officer, TC Capital Singapore “One learns how to do something, but one can also do in order to learn. This is a book by a dedicated Singapore civil servant who did both by following able leaders who were also great teachers. Drawing lessons from a lifetime's work, he offers advice to all those who wish to succeed in serving their society with integrity.” Professor Wang Gungwu Chairman of the East Asian Institute and University Professor, National University of Singapore Singapore “This book was written by my good friend Siong Guan Lim based on his observations and experience in his public career since 1969. It reflects his lifestyle, wisdom, life, and beliefs. With keen insight, he describes the behaviour of human groups, for example, by using the image of GEESE in a thoughtful and persuasive way. While each society may need a slightly different type of leader, there are some basic requirements that make a superior leader. Some leaders, while they are leading their people, are brilliant and exemplary with a clear vision for the future. But once they leave, the group may face an abrupt slowdown or even chaos. Siong Guan clearly states that such leaders are not the best ones. Not leading from the front, nor from the side, nor from behind, but ‘from within’ is what makes the best leader, he writes. There is so much truth in his statement that the leader must seek to be like the teacher, where the true measure of success is how well the student can surpass the teacher. Siong Guan and I are involved in sharing ideas on lessons for leaders of the future generation. I find his thoughts and contributions to be highly original and instructive.” Mr Hiroshi Watanabe Chief Executive Officer/ Executive Managing Director Japan Bank for International Co-operation Japan “Siong Guan Lim has written an outstanding book, and he has done this because he is an outstanding man. Lim has been on the frontlines of Singapore's rapid development over the past forty years providing vital leadership in defence, education, finance, the Prime Minister's Office, and as Head of the Civil Service. He captures the leadership lessons from his mentors — some of the founding fathers of Singapore — and the leadership lessons born of direct experience building a world-class public service. Few practitioners in the art of leadership and governance have had the experience that Lim has had, and few would be able to reflect on that experience and generate such an amazing guidebook for anyone serious about leadership and change. If you want to raise your institution, your government, or your nation to the next level of performance, then this book is for you.” Mr Dean Williams Lecturer in Public Policy, Center for Public Leadership Harvard Kennedy School of Government USA “The dearth in courageous moral leadership in our world today has left many political and economic institutions weakened and compromised. In this book, Siong Guan offers us tried and tested truths on leadership that he personally embodied throughout his time with the Singaporean Government Civil Service, Economic Development Board, and GIC. We have much to learn from him!” Tan Sri Dr Francis Yeoh Managing Director YTL Group of Companies Malaysia “An invaluable guide to the heart, soul, and guts of leadership from that rarest of breeds: a true Servant Leader who, in the words of Singapore's Prime Minister, ‘established an unbroken record of understanding Singapore's challenges and developing a vision of how the Public Service should respond to these challenges’ over an outstanding, 44-year career directly managing key areas of our nation's tumultuous and miraculous transformation. Having worked under his teacher-leader mentorship, I can testify to both the personal genuineness and organizational effectiveness of Mr Lim's remarkable mastery of that most difficult of management arenas: leading excellence, innovation, and change from the front as a boss, from the side as a comrade, from behind as a mentor, and finally from within as a lasting source of inspiration.” Mr Yeoh Lam Keong Social commentator and former GIC Chief Economist Singapore “Although The Leader, the Teacher & You relates Lim's 37 years as a civil servant in Singapore, the lessons apply universally to all sorts of readers. Hong Kong readers, including businessmen, should find useful lesson in this book.” Sunday Morning Post, Hong Kong
