The Referral Engine May 08 2022 The small business guru behind Duct Tape Marketing shares his most valuable lesson: how to get your customers to do your best marketing for you. The power of glitzy advertising and elaborate marketing campaigns is on the wane; word-of-mouth referrals are what drive business today. People trust the recommendation of a friend, family member, colleague, or even stranger with similar tastes over anything thrust at them by a faceless company. Most business owners believe that whether customers refer them is entirely out of their hands. But science shows that people can't help recommending products and services to their friends—it's an instinct wired deep in the brain. And smart businesses can tap into that hardwired desire. Marketing expert John Jantsch offers practical techniques for harnessing the power of referrals to ensure a steady flow of new customers. Keep those customers happy, and they will refer your business to even more customers. Some of Jantsch's strategies include: -Talk with your customers, not at them. Thanks to social networking sites, companies of any size have the opportunity to engage with their customers on their home turf as never before—but the key is listening. -The sales team is the most important part of your marketing team. Salespeople are the company's main link to customers, who are the main source of referrals. Getting them on board with your referral strategy is critical. -Educate your customers. Referrals are only helpful if they're given to the right people. Educate your customers about whom they should be talking to. The secret to generating referrals lies in understanding the "Customer Referral Cycle"—the way customers refer others to your company who, in turn, generate even more referrals. Businesses can ensure a healthy referral cycle by moving customers and prospects along the path of Know, Like, Trust, Try, Buy, Repeat, and Refer. If everyone in an organization keeps this sequence in mind, Jantsch argues, your business will generate referrals like a well-oiled machine. This practical, smart, and original guide is essential reading for any company looking to grow without a fat marketing budget.

You Are The Brand Jul 18 2020 Yes, It's Possible to Build a Business around Your Expertise, Ideas, Message, and Personality. But First You

Need to Realize — YOU ARE THE BRAND. It's no secret that more people than ever before are building thriving businesses around their personal brands. But why do some create six- or even seven-figure businesses while so many others strive to make a consistent income? Much of the personal brand space plays out in two ways. The first group of people sells a false version of themselves, thinking that image or perception alone will get them the results they seek. These folks don't realize that attention isn't owed, it's earned. The flip side of presenting a false version of yourself is oversharing in the name of authenticity. They talk nonstop about their issues, sometimes revealing way more than what is even comfortable to read about. It's as if these people are trying to sell their struggles, and it doesn't work in the long run. Like a car wreck, these folks garner attention, but it's short-lived. Here's a simple question that can serve as a litmus test for you: "Can I build a campfire around what I'm sharing?" Is there warmth? Are you building something that is attractive and inviting to others? Can you build a community around it? Are you someone whom others want to invite onto their stages, in front of their employees, or into their lives? In *You Are the Brand*, Mike Kim shares his proven 8-step blueprint that has helped build the brands for some of today's most influential thought leaders — as well as his own personal brand. In this practical and inspiring book, you will learn: How to identify and showcase your unique expertise How to gain clarity on your message, market, and business model Why the most effective marketing strategy is to simply tell the truth How-To-Preneur vs. Ideapreneur — Which one are you? The three kinds of personal stories that ensure you stand out in your market The simple "9-Box Grid" that shows you how to price your products and services How to cultivate "rocket ship relationships" that skyrocket your revenue, and influence
