War on Peace The Long End of the First World War The War of the Worlds

A Brief History of the First World War Nov 20 2020 Even 100 years on from the First World War it haunts us still. No other conflict has revealed so dramatically the senselessness of war, and none has shaped the modern world to the same extent, from its impact on the Russian Revolution and the rise of Hitler to the final break-up of the British Empire and the supremacy of America. These compelling eyewitness accounts - over 180 of them - of the War to End All Wars cover every facet of the war, from the Flanders trenches to the staffrooms of the Imperial German Army, from T. E. Lawrence ('Lawrence of Arabia') in the desert to German fighter ace the Red Baron in the air, and from English Land Girls to German U-boat crews in the North Atlantic. There are contributions from all combatant nations, including the UK, USA, France, Germany, Canada, Italy, Australia, Russia, Serbia, and India and the book includes a detailed timeline and maps.

War: How Conflict Shaped Us Feb 21 2021 Is peace an aberration? The New York Times bestselling author of *Paris 1919* offers a provocative view of war as an essential component of humanity. NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW "Margaret MacMillan has produced another seminal work. . . . She is right that we must, more than ever, think about war. And she has shown us how in this brilliant, elegantly written book."—H.R. McMaster, author of *Dereliction of Duty* and *Battlegrounds: The Fight to Defend the Free World* The instinct to fight may be innate in human nature, but war—organized violence—comes with organized society. War has shaped humanity's history, its social and political institutions, its values and ideas. Our very language, our public spaces, our private memories, and some of our greatest cultural treasures reflect the glory and the misery of war. War is an uncomfortable and challenging subject not least because it brings out both the vilest and the noblest aspects of humanity. Margaret MacMillan looks at the ways in which war has influenced human society and how, in turn, changes in political organization, technology, or ideologies have affected how and why we fight. *War: How Conflict Shaped Us* explores such much-debated and controversial questions as: When did war first start? Does human nature doom us to fight one another? Why has war been described as the most organized of all human activities? Why are warriors almost always men? Is war ever within our control? Drawing on lessons from wars throughout the past, from classical history to the present day, MacMillan reveals the many faces of war—the way it has determined our past, our future, our views of the world, and our very conception of ourselves.

World War One: 1914-1918 Jan 03 2022 "The lamps are going out all over Europe, we shall not see them lit again in our time." -Sir Edward Grey, British Foreign Secretary The First World War, also known as the Great War, involved over thirty nations and resulted in the deaths of millions of young men. This stunning new book brings history to life as we see the war through the eyes of the young conscripted servicemen on all sides of the conflict. Introducing the advent of tanks, airplanes, air raids, submarines and gas attacks, we take a close look at the first modern war of the 20th Century. From the assassination of Archduke Franz Ferdinand in Sarajevo to the Treaty of Versailles we see for ourselves what life was like in the trenches, on the home front, at sea and in the air. This is more than just a history book; it is a fully illustrated journey into another age. We follow the fortunes of a group of young conscripts and volunteers to discover what life was really like in the trenches and how they coped with returning home after the horrors of the front line.

Democracy and War Jan 15 2023 Henderson (political science, Wayne State U.) uses the same basic research design of the democratic peace proposition (DPP)—which contends that democracies rarely fight each other, are generally more peaceful than nondemocracies, and rarely experience civil war—to challenge the validity of the DPP. His results indicate that democracy is not significantly associated with a decreased likelihood of international war, militarized disputes, or civil wars in postcolonial states. He finds that in war between states and nonstate actors, such as colonial and imperial wars, democracies in general are less likely but Western states, specifically, are more likely to become involved in this type of "extrastate" war. He argues that global peace will require more than a worldwide spread of democracy. Annotation copyrighted by Book News, Inc., Portland, OR

The War to End All Wars Mar 05 2022 The War to End All Wars is considered by many to be the best single account of America's participation in World War I. Covering famous battles, the birth of the air force, naval engagements, the War Department, and experiences of the troops, this indispensable volume is again available in paperback for students and general readers.

At War's End Nov 13 2022 All fourteen major peacebuilding missions launched between 1989 and 1999 shared a common strategy for consolidating peace after internal conflicts: immediate democratization and marketization. Transforming war-shattered states into market democracies is basically sound, but pushing this process too quickly can have damaging and destabilizing effects. The process of liberalization is inherently tumultuous, and can undermine the prospects for stable peace. A more sensible approach to post-conflict peacebuilding would seek, first, to establish a system of domestic institutions that are capable of managing the destabilizing effects of democratization and marketization within peaceful bounds and only then phase in political and economic reforms slowly, as conditions warrant. Peacebuilders should establish the foundations of effective governmental institutions prior to launching wholesale liberalization programs. Avoiding the problems that marred many peacebuilding operations in the 1990s will require longer-lasting and, ultimately, more intrusive forms of intervention in the domestic affairs of these states. This book was first published in 2004.

To End a War Apr 25 2021 When President Clinton sent Richard Holbrooke to Bosnia as America's chief negotiator in late 1995, he took a gamble that would eventually redefine his presidency. But there was no saying then, at the height of the war, that Holbrooke's mission would succeed. The odds were strongly against it. As passionate as he was controversial, Holbrooke believed that the only way to bring peace to the Balkans was through a complex blend of American leadership, aggressive and creative diplomacy, and a willingness to use force, if necessary, in the cause for peace. This was not a universally popular view. Resistance was fierce within the United Nations and the chronically divided Contact Group, and in Washington, where many argued that the United States should not get more deeply involved. This book is Holbrooke's gripping inside account of his mission, of the decisive months when, belatedly and reluctantly but ultimately decisively, the United States reasserted its moral authority and leadership and ended Europe's worst war in over half a century. To End a War reveals many important new details of how America made this historic decision. What George F. Kennan has called Holbrooke's "heroic efforts" were shaped by the enormous tragedy with which the mission began, when three of his four team members were killed during their first attempt to reach Sarajevo. In Belgrade, Sarajevo, Zagreb, Paris, Athens, and Ankara, and throughout the dramatic roller-coaster ride at Dayton, he tirelessly imposed, cajoled, and threatened in the quest to stop the killing and forge a peace agreement. Holbrooke's portraits of the key actors, from officials in the White House and the Élysée Palace to the leaders in the Balkans, are sharp and unforgiving. His explanation of how the United States was finally forced to intervene breaks important new ground, as does his discussion of the near disaster in the early period of the implementation of the Dayton agreement. To End a War is a brilliant portrayal of high-wire, high-stakes diplomacy in one of the toughest negotiations of modern times. A classic account of the uses and misuses of American power, its lessons go far beyond the boundaries of the Balkans and provide a powerful argument for continued American leadership in the modern world.

The Cambridge Companion to the Latin American Novel Aug 18 2020 The diverse countries of Latin America have produced a lively and ever evolving tradition of novels, many of which are read in translation all over the world. This Companion offers a broad overview of the novel's history and analyses in depth several representative works by, for example, Gabriel García Márquez, Machado de Assis, Isabel Allende and Mario Vargas Llosa. The essays collected here offer several entryways into the understanding and appreciation of the Latin American novel in Spanish-speaking America and Brazil. The volume conveys a real sense of the heterogeneity of Latin American literature, highlighting regions whose cultural and geopolitical particularities are often overlooked. Indispensable to students of Latin American or Hispanic studies and those interested in comparative literature and the development of the novel as genre, the Companion features a comprehensive bibliography and chronology and concludes with an essay about the success of Latin American novels in translation.

As War Ends Jan 23 2021 For decades a bitter civil war between the Colombia government and armed insurgent groups tore apart Colombian society. After protracted negotiations in Havana, a peace agreement was accepted by the Colombian government and the FARC rebel group in 2016. This volume will provide academics and practitioners throughout the world with critical analyses regarding what we know generally about the post-war peace building process and how this can be applied to the specifics of the Colombian case to assist in the design and implementation of post-war peace building programs and policies. This unique group of Colombian and international scholars comment on critical aspects of the peace process in Colombia, transitional justice mechanisms, the role of state and non-state actors at the national and local levels, and examine what the Colombian case reveals about traditional theories and approaches to peace and transitional justice.

The War That Ended Peace Mar 17 2023 NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • The Economist • The Christian Science Monitor • Bloomberg Businessweek • The Globe and Mail From the bestselling and award-winning author of *Paris 1919* comes a masterpiece of narrative nonfiction, a fascinating portrait of Europe from 1900 up to the outbreak of World War I. The century since the end of the Napoleonic wars had been the most peaceful era Europe had known since the fall of the Roman Empire. In the first years of the twentieth century, Europe believed it was marching to a golden, happy, and prosperous future. But instead, complex personalities and rivalries, colonialism and ethnic nationalisms, and shifting alliances helped to bring about the failure of the long peace and the outbreak of a war that transformed Europe and the world. The War That Ended Peace brings vividly to life the military leaders, politicians, diplomats, bankers, and the extended, interrelated family of crowned heads across Europe who failed to stop the descent into war: in Germany, the mercurial Kaiser Wilhelm II and the chief of the German general staff, Von Moltke the Younger; in Austria-Hungary, Emperor Franz Joseph, a man who tried, through sheer hard work, to stave off the coming chaos in his empire; in Russia, Tsar Nicholas II and his wife; in Britain, King Edward VII, Prime Minister Herbert Asquith, and British admiral Jacky Fisher, the fierce advocate of naval reform who entered into the arms race with Germany that pushed the continent toward confrontation on land and sea. There are the would-be peacemakers as well, among them prophets of the horrors of future wars whose warnings went unheeded: Alfred Nobel, who donated his fortune to the cause of international understanding, and Bertha von Suttner, a writer and activist who was the first woman awarded Nobel's new Peace Prize. Here too we meet the urbane and cosmopolitan Count Harry Kessler, who noticed many of the early signs that something was stirring in Europe; the young Winston Churchill, then First Lord of the Admiralty and a rising figure in British politics; Madame Caillaux, who shot a man who might have been a force for peace; and more. With indelible portraits, MacMillan shows how the fateful decisions of a few powerful people changed the course of history. Taut, suspenseful, and impossible to put down, *The War That Ended Peace* is also a wise cautionary reminder of how wars happen in spite of the near-universal desire to keep the peace. Destined to become a classic in the tradition of Barbara Tuchman's *The Guns of August*, *The War That Ended Peace* enriches our understanding of one of the defining periods and events of the twentieth century. Praise for *The War That Ended Peace* "Magnificent. . . . The War That Ended Peace will certainly rank among the best books of the centennial crop."—The Economist "Superb."—The New York Times Book Review "Masterly . . . marvelous . . . Those looking to understand why World War I happened will have a hard time finding a better place to start."—The Christian Science Monitor "The debate over the war's origins has raged for years. Ms. MacMillan's explanation goes straight to the heart of political fallibility. . . . Elegantly written, with wonderful character sketches of the key players, this is a book to be treasured."—The Wall Street Journal "A magisterial 600-page panorama."—Christopher Clark, *London Review of Books*

How Wars End Feb 04 2022 Argues that the failure of the United States to create successful peace settlements when ending the major wars of the twentieth century has only led to subsequent conflicts and new wars which attempt to resolve the issues of the previous war.

To End War Dec 22 2020 Rev. ed. of: *To end war /* by Robert Pickus. 3rd ed. 1970. Includes index.

War on Peace Jun 15 2020 US foreign policy is undergoing a dire transformation, forever changing America's place in the world. Institutions of diplomacy and development are bleeding out after deep budget cuts; the diplomats who make America's deals and protect its citizens around the world are walking out in droves. Offices across the State Department sit empty, while abroad the military-industrial complex has assumed the work once undertaken by peacemakers. We're becoming a nation that shoots first and asks questions later. In an astonishing journey from the corridors of power in Washington, DC, to some of the most remote and dangerous places on earth—Afghanistan, Somalia, and North Korea among them—acclaimed investigative journalist Ronan Farrow illuminates one of the most consequential and poorly understood changes in American history. His firsthand experience as a former State Department official affords a personal look at some of the last standard bearers of traditional statecraft, including Richard Holbrooke, who made peace in Bosnia and died while trying to do so in Afghanistan. Drawing on recently unearthed documents, and richly informed by rare interviews with whistle-blowers, a warlord, and policymakers—including every living former secretary of state from Henry Kissinger to Hillary Clinton to Rex Tillerson—and now updated with revealing firsthand accounts from inside Donald Trump's confrontations with diplomats during his impeachment and candid testimonials from officials in Joe Biden's inner circle, *War on Peace* makes a powerful case for an endangered profession. Diplomacy, Farrow argues, has declined after decades of political cowardice, shortsightedness, and outright malice—but it may just offer America a way out of a world at war.

How Wars End Sep 11 2022 "Dan Reiter explains how information about combat outcomes and other factors may persuade a warring nation to demand more or less in peace negotiations, and why a country might refuse to negotiate limited terms and instead tenaciously pursue absolute victory if it fears that its enemy might renege on a peace deal. He fully lays out the theory and then tests it on more than twenty cases of war-termination behavior, including decisions during the American Civil War, the two world wars, and the Korean War. Reiter helps solve some of the most enduring puzzles in military history, such as why Abraham Lincoln issued the Emancipation Proclamation, why Germany in 1918 renewed its attack in the West after securing peace with Russia in the East, and why Britain refused to seek peace terms with Germany after France fell in 1940."

The Last Battle Dec 02 2021 Author of *The Great War*, as well as celebrated accounts of the battles of the Somme, Passchendaele, Jutland, and Gallipoli, historian Peter Hart now turns to World War One's final months. Much has been made of-and written about-August 1914. There has been comparatively little focus on August 1918 and the lead-up to November. Because of the fixation on the Great War's opening moves, and the great battles that followed over the course of the next four years, the endgame seems to come as a stunning anticlimax. At the eleventh hour of the eleventh day of the eleventh month of 1918 the guns simply fell silent. The Last Battle definitively corrects this misperception. As Hart shows, a number of factors precipitated the Armistice. After four years of bloodshed, Germany was nearly bankrupt and there was a growing rift between the military High Command and political leadership. But it also remained a determined combatant, and France and Great Britain had equally been stretched to their limits; Russia had abandoned the conflict in the late winter of 1918. However complex the causes of Germany's ultimate defeat, Allied success on the Western Front, as Hart reveals, tipped the scales-the triumphs at the Fifth Battle of Ypres, the Sambre, the Selle, and the Meuse-Argonne, where American forces made arguably their greatest contribution. The offensives cracked the Hindenburg Line and wore down the German resistance, precipitating collapse. Final victory came at great human cost and involved the combined efforts of millions of men. Using the testimony of a range of participants, from the Doughboys, Tommies, German infantrymen, and French poilus who did the fighting, to those in command during those last days and weeks, Hart brings intimacy and sweep to the events that led to November 11, 1918.

War's End Jul 21 2023 On August 9, 1945, on the tiny island of Tinian in the South Pacific, a twenty-five-year-old American Army Air Corps major named Charles W. Sweeney climbed aboard a B-29 Superfortress in command of his first combat mission, one devised specifically to bring a long and terrible war to a necessary conclusion. In the belly of his bomber, Bock's Car, was a newly developed, fully armed weapon that had never been tested in a combat situation. It was a weapon capable of a level of destruction never dreamed of in the history of the human race, a bomb whose terrifying aftershock would ultimately determine the direction of the twentieth century and change the world forever. The last military officer to command an atomic mission, Major General Charles W. Sweeney has the unique distinction of having been an integral part of both the Hiroshima and the Nagasaki bombing runs. Now updated with a new epilogue from the co-author, his book is an extraordinary chronicle of the months of careful planning and training; the setbacks, secrecy, and snafus; and the nerve-shattering final seconds and the astonishing aftermath of what is arguably the most significant single event in modern history: the employment of an atomic weapon during wartime. The last military officer to command an atomic mission, Major General Charles W. Sweeney has the unique distinction of having been an integral part of both the Hiroshima and the Nagasaki bombing runs. His book is an extraordinary chronicle of the months of careful planning and training; the setbacks, secrecy, and snafus; and the nerve-shattering final seconds and the astonishing aftermath of what is arguably the most significant single event in modern history: the employment of an atomic weapon during wartime.

The War to End All Wars Aug 30 2021 " The War to End All Wars is considered by many to be the best single account of America's participation in World War I. Covering famous battles, the birth of the air force, naval engagements, the War Department, and experiences of the troops, this indispensable volume is again available in paperback for students and general readers.

The End of Tsarist Russia Apr 06 2022 An Economist Best Book of the Year A Financial Times Best Book of the Year Winner of the the Pushkin House Russian Book Prize Finalist for the Lionel Gelber Prize An Amazon Best Book of the Month (History) One of the world's leading scholars offers a fresh interpretation of the linked origins of World War I and the Russian Revolution "Lieven has a double gift: first, for harvesting details to convey the essence of an era and, second, for finding new, startling, and clarifying elements in familiar stories. This is history with a heartbeat, and it could not be more engrossing."—Foreign Affairs World War I and the Russian Revolution together shaped the twentieth century in profound ways. In *The End of Tsarist Russia*, acclaimed scholar Dominic Lieven connects for the first time the two events, providing both a history of the First World War's origins from a Russian perspective and an international history of why the revolution happened. Based on exhaustive work in seven Russian archives as well as many non-Russian sources, Dominic Lieven's work is about far more than just Russia. By placing the crisis of empire at its core, Lieven links World War I to the sweep of twentieth-century global history. He shows how contemporary hot issues such as the struggle for Ukraine were already crucial elements in the run-up to 1914. By incorporating into his book new approaches and comparisons, Lieven tells the story of war and revolution in a way that is truly original and thought-provoking.

The End of War Apr 18 2023 War is a fact of human nature. As long as we exist, it exists. That's how the argument goes. But longtime *Scientific American* writer John Horgan disagrees. Applying the scientific method to war leads Horgan to a radical conclusion: biologically speaking, we are just as likely to be peaceful as violent. War is not preordained, and furthermore, it should be thought of as a solvable, scientific problem—like curing cancer. But war and cancer differ in at least one crucial way: whereas cancer is a stubborn aspect of nature, war is our creation. It's our choice whether to unmake it or not. In this compact, methodical treatise, Horgan examines dozens of examples and counterexamples—discussing chimpanzees and bonobos, warring and peaceful indigenous people, the World War I and Vietnam, Margaret Mead and General Sherman—as he finds his way to war's complicated origins. Horgan argues for a far-reaching paradigm shift with profound implications for policy students, ethicists, military men and women, teachers, philosophers, or really, any engaged citizen.

On War Mar 25 2021

Will War Ever End? Jul 17 2020 A deeply personal story of a soldier's search for human understanding that will lead to universal transformation. Its message is one of hope, offering practical solutions to help us build a better world.--Book jacket.

Ends of War Sep 30 2021 The Army of Northern Virginia's chaotic dispersal began even before Lee and Grant met at Appomattox Court House. As the Confederates had pushed west at a relentless pace for nearly a week, thousands of wounded and exhausted men fell out of the ranks. When word spread that Lee planned to surrender, most remaining troops stacked their arms and accepted paroles allowing them to return home, even as they lamented the loss of their country and cause. But others broke south and west, hoping to continue the fight. Fearing a guerrilla war, Grant extended the generous Appomattox terms to every rebel who would surrender himself. Provost marshals fanned out across Virginia and beyond, seeking nearly 18,000 of Lee's men who had yet to surrender. But the shock of Lincoln's assassination led Northern authorities to see threats of new rebellion in every rail depot and harbor where Confederates gathered for transport, even among those already paroled. While Federal troops struggled to keep order and sustain a fragile peace, their newly surrendered adversaries seethed with anger and confusion at the sight of Union troops occupying their towns and former slaves celebrating freedom. In this dramatic new history of the weeks and

months after Appomattox, Caroline E. Janney reveals that Lee's surrender was less an ending than the start of an interregnum marked by military and political uncertainty, legal and logistical confusion, and continued outbursts of violence. Janney takes readers from the deliberations of government and military authorities to the ground-level experiences of common soldiers. Ultimately, what unfolds is the messy birth narrative of the Lost Cause, laying the groundwork for the defiant resilience of rebellion in the years that followed.

The War To End All Wars Aug 22 2023 Nonfiction master Russell Freedman illuminates for young readers the complex and rarely discussed subject of World War I. The tangled relationships and alliances of many nations, the introduction of modern weaponry, and top-level military decisions that resulted in thousands upon thousands of casualties all contributed to the "great war," which people hoped and believed would be the only conflict of its kind. In this clear and authoritative account, the Newbery Medal-winning author shows the ways in which the seeds of a second world war were sown in the first. Numerous archival photographs give the often disturbing subject matter a moving visual counterpart. Includes source notes, a bibliography, and an index.
The Long End of the First World War May 15 2020

To End All Wars Jun 20 2023 In this riveting and suspenseful New York Times best-selling book, Adam Hochschild brings WWI to life as never before... World War I was supposed to be the "war to end all wars." Over four long years, nations around the globe were sucked into the tempest, and millions of men died on the battlefields. To this day, the war stands as one of history's most senseless spasms of carnage, defying rational explanation. To End All Wars focuses on the long-ignored moral drama of the war's critics, alongside its generals and heroes. Many of these dissenters were thrown in jail for their opposition to the war, from a future Nobel Prize winner to an editor behind bars who distributed a clandestine newspaper on toilet paper. These critics were sometimes intimately connected to their enemy hawks: one of Britain's most prominent women pacifist campaigners had a brother who was commander in chief on the Western Front. Two well-known sisters split so bitterly over the war that they ended up publishing newspapers that attacked each other. Hochschild forces us to confront the big questions: Why did so many nations get so swept up in the violence? Why couldn't cooler heads prevail? And can we ever avoid repeating history?

The War to End All Wars May 07 2022 A brilliant, concise history of The War to End All Wars. In the decade leading up to 1914, Europe had never known such prosperity. But the times were not good enough for the continent's most powerful nations: Germany wanted a navy that matched England's; Russia wanted an army as large and as disciplined as Germany's; the Austro-Hungarian Empire wanted more respect; and England felt compelled to teach the others about civilized relations. How terrible could a war be? In this riveting account of a tragic episode in world history, author Jack Batten takes readers through a far bloodier conflict than mankind had ever before endured. Meet the soldiers who fought the deadly battles along the Western Front. Follow the trail of flying ace Billy Bishop as he tangles in the air with the Red Baron. Learn the strategy of Britain's Grand Fleet of warships as it heads into the biggest sea battle in history. Discover how civilians decoded virtually all the messages the Germans sent to their ships around the world. From the Battle of the Somme, Gallipoli, Passchendale, and Vimy Ridge to the war's final battles, The War to End All Wars evokes the heroism and suffering of men from every country, whose stories changed the face of the world forever. With maps, index, and selected bibliography.

The End of War Jun 27 2021 Builds on the powerful argument for peace laid in Will War Ever End

The War of the Worlds Apr 13 2020 When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

Ending the Vietnam War Sep 18 2020 The Definitive Account Many other authors have written about what they thought happened -- or thought should have happened -- in Vietnam, but it was Henry Kissinger who was there at the epicenter, involved in every decision from the long, frustrating negotiations with the North Vietnamese delegation to America's eventual extrication from the war. Now, for the first time, Kissinger gives us in a single volume an in-depth, inside view of the Vietnam War, personally collected, annotated, revised, and updated from his bestselling memoirs and his book Diplomacy. Here, Kissinger writes with firm, precise knowledge, supported by meticulous documentation that includes his own memoranda to and replies from President Nixon. He tells about the tragedy of Cambodia, the collateral negotiations with the Soviet Union and the People's Republic of China, the disagreements within the Nixon and Ford administrations, the details of all negotiations in which he was involved, the domestic unrest and protest in the States, and the day-to-day military to diplomatic realities of the war as it reached the White House. As compelling and exciting as Barbara Tuchman's The Guns of August, Ending the Vietnam War also reveals insights about the bigger-than-life personalities -- Johnson, Nixon, de Gaulle, Ho Chi Minh, Brezhnev -- who were caught up in a war that forever changed international relations. This is history on a grand scale, and a book of overwhelming importance to the public record.

The End of Tsarist Russia May 27 2021 An Economist Best Book of the Year A Financial Times Best Book of the Year Winner of the the Pushkin House Russian Book Prize Finalist for the Lionel Gelber Prize An Amazon Best Book of the Month (History) One of the world's leading scholars offers a fresh interpretation of the linked origins of World War I and the Russian Revolution "Lieven has a double gift: first, for harvesting details to convey the essence of an era and, second, for finding new, startling, and clarifying elements in familiar stories. This is history with a heartbeat, and it could not be more engrossing."—Foreign Affairs World War I and the Russian Revolution together shaped the twentieth century in profound ways. In The End of Tsarist Russia, acclaimed scholar Dominic Lieven connects for the first time the two events, providing both a history of the First World War's origins from a Russian perspective and an international history of why the revolution happened. Based on exhaustive work in seven Russian archives as well as many non-Russian sources, Dominic Lieven's work is about far more than just Russia. He shows how contemporary hot issues such as the struggle for Ukraine were already crucial elements in the run-up to 1914. By incorporating into his book new approaches and comparisons, Lieven tells the story of war and revolution in a way that is truly original and thought-provoking.

Every War Must End May 19 2023 "Every War Must End" analyzes the many critical obstacles to ending a war -- an aspect of military strategy that is frequently and tragically overlooked. Ikli considers a variety of examples from twentieth-century history and examines specific strategies that effectively "won the peace." In the new preface, Ikli explains how U.S. political decisions and military strategy and tactics in Iraq have delayed, and indeed jeopardized, a successful end to hostilities.

The Vanquished Jul 09 2022 A Times Literary Supplement Best Book of 2016 An epic, groundbreaking account of the ethnic and state violence that followed the end of World War I—conflicts that would shape the course of the twentieth century For the Western Allies, November 11, 1918, has always been a solemn date—the end of fighting that had destroyed a generation, but also a vindication of a terrible sacrifice with the total collapse of the principal enemies: the German Empire, Austria-Hungary, and the Ottoman Empire. But for much of the rest of Europe this was a day with no meaning, as a continuing, nightmarish series of conflicts engulfed country after country. In The Vanquished, a highly original and gripping work of history, Robert Gerwarth asks us to think again about the true legacy of the First World War. In large part it was not the fighting on the Western Front that proved so ruinous to Europe's future, but the devastating aftermath, as countries on both sides of the original conflict were savaged by revolutions, pogroms, mass expulsions, and further major military clashes. In the years immediately after the armistice, millions would die across central, eastern, and southeastern Europe before the Soviet Union and a series of rickety and exhausted small new states would come into being. It was here, in the ruins of Europe, that extreme ideologies such as fascism would take shape and ultimately emerge triumphant. As absorbing in its drama as it is unsettling in its analysis, The Vanquished is destined to transform our understanding of not just the First World War but the twentieth century as a whole.

The War that Will End War Feb 16 2023

The War That Will End War Aug 10 2022 H.G. Wells was one of the greatest writers of the 20th century. Wells was a prolific author in many genres including history, politics, and social commentary.

To End All Wars Jun 08 2022 An omnibus of 27 short graphic narratives based on actual events, characters, circumstances, incidents, myths or consequences of the Great War. Featuring the four theatres of war (land, sea, air and the home front), spanning four continents and drawn from both sides of the conflict, our stories range from four to sixteen pages long, each by a different author and/or illustrator from the world of independent comics. Two dollars from the sale of copy will go to Medicins Sans Frontiers/Doctors Without Borders. The beauty of the To End All Wars project is the range of themes it covers, away from the usual focus on the Western Front. "We have dramatic reconstructions of the war in the Atlantic that could have come straight out of Steve Ditko's vault of horror" outline Jonathan and Brick on the project's web site. "We have the story of combatants' affection and need for pets in the trenches, related exclusively in pictures. We have the obligatory war poet's story, but that of a Welsh hill farmer rather than some bit of posh who's been done to death. And we have a feminist take on the controversial Mata Hari and the very personal story of an author's search for their great grandfather's memorial.

Coalition Strategy and the End of the First World War Oct 20 2020 This exploration of Allied war plans for 1918-1919 uncovers how the Supreme War Council became a successful mechanism for coalition war.

To End All Wars, New Edition Oct 12 2022 A close look at Woodrow Wilson's political thought and international diplomacy In the widely acclaimed To End All Wars, Thomas Knock provides an intriguing, often provocative narrative of Woodrow Wilson's epic quest for a new world order. This book follows Wilson's thought and diplomacy from his policy toward revolutionary Mexico, through his dramatic call for "Peace without Victory" in World War I, to the Senate's rejection of the League of Nations. Throughout, Knock reinterprets the origins of internationalism in American politics, sweeping away the view that isolationism was the cause of Wilson's failure and revealing the role of competing visions of internationalism—conservative and progressive.

The War of the End of the World Nov 01 2021 An apocalyptic prophet in the Brazilian backlands creates the state of Canudos. In it there is no money, property, marriage, income tax, decimal system, or census.

The Road Less Traveled Jul 29 2021 During a pivotal few months in the middle of the First World War all sides-Germany, Britain, and America-believed the war could be concluded. Peace at the end of 1916 would have saved millions of lives and changed the course of history utterly. Two years into the most terrible conflict the world had ever known, the warring powers faced a crisis. There were no good military options. Money, men, and supplies were running short on all sides. The German chancellor secretly sought President Woodrow Wilson's mediation to end the war, just as British ministers and France's president also concluded that the time was right. The Road Less Traveled describes how tantalizingly close these far-sighted statesmen came to ending the war, saving millions of lives, and avoiding the total war that dimmed hopes for a better world. Theirs was a secret battle that is only now becoming fully understood, a story of civic courage, awful responsibility, and how some leaders rose to the occasion while others shrank from it or chased other ambitions. "Peace is on the floor waiting to be picked up!" pleaded the German ambassador to the United States. This book explains both the strategies and fumbles of people facing a great crossroads of history. The Road Less Traveled reveals one of the last great mysteries of the Great War: that it simply never should have lasted so long or cost so much.

To End a War Dec 14 2022 When President Clinton sent Richard Holbrooke to Bosnia as America's chief negotiator in late 1995, he took a gamble that would eventually redefine his presidency. But there was no saying then, at the height of the war, that Holbrooke's mission would succeed. The odds were strongly against it. As passionate as he was controversial, Holbrooke believed that the only way to bring peace to the Balkans was through a complex blend of American leadership, aggressive and creative diplomacy, and a willingness to use force, if necessary, in the cause for peace. This was not a universally popular view. Resistance was fierce within the United Nations and the chronically divided Contact Group, and in Washington, where many argued that the United States should not get more deeply involved. This book is Holbrooke's gripping inside account of his mission, of the decisive months when, belatedly and reluctantly but ultimately decisively, the United States reasserted its moral authority and leadership and ended Europe's worst war in over half a century. To End a War reveals many important new details of how America made this historic decision. What George F. Kennan has called Holbrooke's "heroic efforts" were shaped by the enormous tragedy with which the mission began, when three of his four team members were killed during their first attempt to reach Sarajevo. In Belgrade, Sarajevo, Zagreb, Paris, Athens, and Ankara, and throughout the dramatic roller-coaster ride at Dayton, he tirelessly imposed, cajoled, and threatened in the quest to stop the killing and forge a peace agreement. Holbrooke's portraits of the key actors, from officials in the White House and the Élysée Palace to the leaders in the Balkans, are sharp and unforgiving. His explanation of how the United States was finally forced to intervene breaks important new ground, as does his discussion of the near disaster in the early period of the implementation of the Dayton agreement. To End a War is a brilliant portrayal of high-wire, high-stakes diplomacy in one of the toughest negotiations of modern times. A classic account of the uses and misuses of American power, its lessons go far beyond the boundaries of the Balkans and provide a powerful argument for continued American leadership in the modern world.
