Answers to Your Biggest Questions About Creating a Dynamic Classroom Feb 10 2022 "This book will serve as the non-content area, general teaching methods book in the Five To Thrive series, which launches in the Fall of 2021 with Answers To Your Biggest Questions About Teaching Elementary Mathematics. It will follow the same general format: a presentation of 5 critical areas of general practice, with 10-15 questions answered in each section. Each question/answer will be featured on a 2-page spread. The five topic areas include: building an affirming classroom community; keeping students at the center; designing effective, fun, and engaging learning for students; making assessments work for you and your students; and "shh! uncovering the answers to what we often don't talk about," which includes work/life balance, asking for support from administrators, navigating difficult parent conversations"--

The Leader in Me Apr 22 2020 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

The Science of Cooking Dec 31 2020 Get answers to all your cooking science questions, and cook tastier, more nutritious food using fundamental principles, practical advice, and step-by-step techniques. Where does the heat come from in a chili pepper? Why is wild salmon darker than farmed? Does searing meat really "seal in" the juices? A good recipe goes a long way, but if you can master the science behind it, you'll be one step ahead. Using full-color images, stats and facts through infographics, and an engaging Q&A format to show you how to perfect your cooking, The Science of Cooking brings food science out of the lab and into your kitchen. Topics include meat and poultry, seafood, dairy, pulses and grains, fruits, vegetables, spices, herbs, baked goods, and more, making it perfect for perfecting everyday cooking as well as for special meals.

To Burp Or Not to Burp May 16 2022 Of all the questions astronauts are asked by kids, the most frequent one is "How do you go to the toilet in space?" This book not only answers that question, but many others about the effect of zero gravity on the human body: How do you brush your hair in space? What happens when you sweat? What does food taste like? The best thing is that the answers are provided by Dr. Dave Williams, a NASA astronaut who speaks from first-hand experience. Written for kids ages 7 to 10, this book uses age-appropriate language to explain the different phenomena that astronauts encounter during a mission. The bright, colorful pages, short blocks of text accompanied by photos and humorous illustrations make this a very attractive choice for young readers. The opening message from Dr. Dave empowers kids to follow his example by believing in themselves and following their dreams.

Most titles have more than 150 pages. Answer key included.

The Sensory Processing Disorder Answer Book Apr 02 2021 Written in an easy-to-read Q&A format, The Sensory Processing Disorder Answer Book helps parents understand their child's diagnosis and develop a plan for success. Is there medication for sensory processing disorder? How can occupational therapy help? What advice can I give my child's teacher? Can you "outgrow" sensory processing disorder? How can we make social situations less of an ordeal? What are some therapeutic activities I can do with my child? It is estimated that more than 10 percent of children deal with some form of sensory processing disorder (SPD), a neurological disorder characterized by the misinterpretation of everyday sensory information, such as touch, sound, and movement. For many children, SPD can lead to academic struggles, behavioral problems, difficulties with coordination, and other issues. The Sensory Processing Disorder Answer Book is a reassuring, authoritative reference, providing sound advice and immediate answers to your most pressing questions about SPD, such as: What is sensory processing? Does SPD affect social skills? Can you see sensory processing difficulties in an infant? What is Sensory Integration Therapy? Is SPD a sign of autism? Are there tests for SPD? How do I get a prescription for occupational therapy? How do I teach my child to understand his sensory needs? Written in an easy-to-read question and answer format, The Sensory Processing Disorder Answer Book helps you fully understand SPD, conquer your fears, and seek help for your child when necessary.
