Metamorphoses Jun 28 2021 *Metamorphoses*—the best-known poem by one of the wittiest poets of classical antiquity—takes as its theme change and transformation, as illustrated by Greco-Roman myth and legend. Melville's new translation reproduces the grace and fluency of Ovid's style, and its modern idiom offers a fresh understanding of Ovid's unique and elusive vision of reality.

Best Boy: A Novel Jul 30 2021 *New York Times* Editor's Choice *People Magazine* Pick of the Week *A Washington Post* Notable Book of 2015 *Library Journal* Top Ten Books of 2015 *BookPage* Top Five Books of 2015 "Raw and beautiful. . . . What rises and shines from the page is Todd Aaron, a hero of such singular character and clear spirit that you will follow him anywhere. You won't just root for him, you will fight and push and pray for him to wrest control of his future. You will read this book in one sitting or maybe two, and, I promise, you will miss this man deeply when you are done."—Ann Bauer, *Washington Post* Sent to a "therapeutic community" for autism at the age of eleven, Todd Aaron, now in his fifties, is the "Old Fox" of Payton LivingCenter. A joyous man who rereads the encyclopedia compulsively, he is unnerved by the sudden arrivals of a menacing new staffer and a disruptive, brain-injured roommate. His equilibrium is further worsened by Martine, a one-eyed new resident who has romantic intentions and convinces him

to go off his meds to feel "normal" again. Undone by these pressures, Todd attempts an escape to return "home" to his younger brother and to a childhood that now inhabits only his dreams. Written astonishingly in the first-person voice of an autistic, adult man, *Best Boy*—with its unforgettable portraits of Todd's beloved mother, whose sweet voice still sings from the grave, and a staffer named Raykene, who says that Todd "reflects the beauty of His creation"—is a piercing, achingly funny, finally shattering novel no reader can ever forget. [Trattato sulla tolleranza](#) Jul 22 2023 Pubblicato nel 1763, il *Trattato sulla tolleranza* fu ispirato a Voltaire da un fatto di cronaca: l'ingiusta condanna a morte di un protestante, decisa dai giudici di Tolosa sotto lo stimolo di un cieco fanatismo religioso. Questo episodio di intolleranza è per il filosofo parigino il punto di partenza per la serrata affermazione della necessità di bandire ogni tentazione di sopraffazione fra gli uomini, per riaffermare una civiltà fondata sul rispetto delle scelte, delle posizioni, dei diritti degli altri. In una parola, sul rispetto della diversità. A distanza di oltre due secoli questo manifesto per la libertà e la tolleranza religiosa secondo gli ideali illuministi resta un'opera sempre attuale capace di riportarci alle radici stesse della modernità. Titolo originale: *Traité sur la tolérance à l'occasion de la mort de Jean Calas*. **BNI.** May 16 2020

[The Merchant of Venice](#) Apr 19 2023 This is one of Shakespeare's darkest comedies, for the romantic story of a young man, Bassanio, who has squandered his fortune and must borrow money to woo the wealthy lady he loves is set against the more disturbing story of the Jewish moneylender Shylock and his demand for the "pound of flesh" owed him by the Venetian merchant, Antonio. Here pathos and farce combine with moral complexity and romantic entanglement to display the extraordinary power and range of Shakespeare at his best. Each Edition Includes: • Comprehensive explanatory notes • Vivid introductions and the most up-to-date scholarship • Clear, modernized spelling and punctuation, enabling contemporary readers to understand the Elizabethan English • Completely updated, detailed bibliographies and performance histories • An interpretive essay on film adaptations of the play, along with an extensive filmography

Firenze architettura Apr 14 2020 *The Nation of Plants* Sep 12 2022 In this playful yet informative manifesto, a leading plant neurobiologist presents the eight fundamental pillars on which the life of plants—and by extension, humans—rests. Even if they behave as though they were, humans are not the masters of the Earth, but only one of its most irksome residents. From the moment of their arrival, about three hundred thousand years ago—nothing when compared to the history of life on our planet—humans have succeeded in

changing the conditions of the planet so drastically as to make it a dangerous place for their own survival. The causes of this reckless behavior are in part inherent in their predatory nature, but they also depend on our total incomprehension of the rules that govern a community of living beings. We behave like children who wreak havoc, unaware of the significance of the things they are playing with. In *The Nation of Plants*, the most important, widespread, and powerful nation on Earth finally gets to speak. Like attentive parents, plants, after making it possible for us to live, have come to our aid once again, giving us their rules: the first Universal Declaration of Rights of Living Beings written by the plants. A short charter based on the general principles that regulate the common life of plants, it establishes norms applicable to all living beings. Compared to our constitutions, which place humans at the center of the entire juridical reality, in conformity with an anthropocentrism that reduces to things all that is not human, plants offer us a revolution.

Toleration Jan 16 2023 *Book Excerpt*: ...table to God. The hope of salvation, as it was the only cause of his entrance into that communion, so it can be the only reason of his stay there. For if afterwards he discover anything either erroneous in the doctrine or incongruous in the worship of that society to which he has joined himself, why should it not be as free for him to go out as it was to enter? No member of a religious society can be tied with any other bonds but what proceed from the certain expectation of eternal life. A church, then, is a society of members voluntarily uniting to that end. It follows now that we consider what is the power of this church and unto what laws it is subject. Forasmuch as no society, how free soever, or upon whatsoever slight occasion instituted, whether of philosophers for learning, of merchants for commerce, or of men of leisure for mutual conversation and discourse, no church or company, I say, can in the least subsist and hold together, but will presently dissolve and break in pieces, unless it...

How Far Should Tolerance Go? Jun 16 2020

What are the limits of tolerance in constitutional or liberal democracies today? This is a crucial question, for if there were no limits to tolerance, it would ultimately destroy itself by accepting the intolerable. The concept of tolerance has to be assessed from a political point of view, thus questioning to what extent its potential achievement does not suppose any moral mutation in humanity. For instance, if people were all already 'virtuous' according to a commonly held moral framework, there would be simply no need to speak of tolerance. Conversely, if it were the case that people could be made 'virtuous', then tolerance would be the matter of an improbable utopia. Ultimately, we need to consider how tolerance can be conceptualised in a way that is relevant to

people and their societies as they actually are. In a time when a growing amount of political demands touches on themes of cultural identity and rights, and while we witness a mounting wave of religious fundamentalism, what should democracies accept and what should they refuse? What are the limits of tolerance in constitutional or liberal democracies today? The Enlightenment Mar 06 2022 Debate over the meaning of 'Enlightenment' began in the eighteenth century and has continued unabated until our own times. This period saw the opening of arguments on the nature of man, truth, on the place of God, and the international circulation of ideas, people and gold. Did the Enlightenment mean the same for men and women, for rich and poor, for Europeans and non-Europeans? In the second edition of her book, Dorinda Outram addresses these, and other questions about the Enlightenment. She studies it as a global phenomenon, setting the period against broader social changes. This new edition offers a fresh introduction, a new chapter on slavery, and new material on the Enlightenment as a global phenomenon. The bibliography and short biographies have been extended. This accessible synthesis of scholarship will prove invaluable reading to students of eighteenth-century history, philosophy, and the history of ideas.

[Remaining in the Truth of Christ](#) May 28 2021

In this volume five Cardinals of the Church, and four other scholars, respond to the call issued by Cardinal Walter Kasper for the Church to harmonize "fidelity and mercy in its pastoral practice with civilly remarried, divorced people". Beginning with a concise introduction, the first part of the book is dedicated to the primary biblical texts pertaining to divorce and remarriage, and the second part is an examination of the teaching and practice prevalent in the early Church. In neither of these cases, biblical or patristic, do these scholars find support for the kind of "toleration" of civil marriages following divorce advocated

by Cardinal Kasper. This book also examines the Eastern Orthodox practice of oikonomia (understood as "mercy" implying "toleration") in cases of remarriage after divorce and in the context of the vexed question of Eucharistic communion. It traces the centuries long history of Catholic resistance to this convention, revealing serious theological and canonical difficulties inherent in past and current Orthodox Church practice. Thus, in the second part of the book, the authors argue in favor of retaining the theological and canonical rationale for the intrinsic connection between traditional Catholic doctrine and sacramental discipline concerning marriage and communion. The various studies in this book lead to the conclusion that the Church's longstanding fidelity to the truth of marriage constitutes the irrevocable foundation of its merciful and loving response to the individual who is civilly divorced and remarried. The book therefore challenges the premise that traditional Catholic doctrine and contemporary pastoral practice are in contradiction. "Because it is the task of the apostolic ministry to ensure that the Church remains in the truth of Christ and to lead her ever more deeply into that truth, pastors must promote the sense of faith in all the faithful, examine and authoritatively judge the genuineness of its expressions and educate the faithful in an ever more mature evangelical discernment." - St. John Paul II, Familiaris Consortio

The Most Important Thing Sep 19 2020 The animals of the forest have assembled to discuss what is the most important thing: to have a trunk like an elephant, quills like a porcupine, or a long neck like a giraffe? Naturally, every animal is convinced that its particular trait is the most important one and that everyone should have it. But when the double pages open to show all the animals with the quills of a porcupine, the long neck of a giraffe, or the trunk or the elephant, everyone must agree that the true importance lies precisely in their collective 'diversity'. It is that which makes them all unique and essential to life of the forest. *The Most Important Thing* received a UNESCO honorable mention for peace and collaboration. An important message of diversity and inclusion delivered in the form of a charming modern fable.

Emotional Landscapes Jan 24 2021 Love and its attendant emotions not only spur migration—they forge our response to the people who leave their homes in search of new lives. *Emotional Landscapes* looks at the power of love, and the words we use to express it, to explore the immigration experience. The authors focus on intimate emotional language and how languages of love shape the ways human beings migrate but also create meaning for migrants, their families, and their societies. Looking at sources ranging from letters of Portuguese immigrants in the 1880s to tweets passed among immigrant families in today's Italy, the essays explore the sentimental, sexual, and political meanings of love. The authors also look at how immigrants and those around them use love to justify separation and

loss, and how love influences us to privilege certain immigrants—wives, children, lovers, refugees—over others. Affecting and perceptive, *Emotional Landscapes* moves from war and transnational families to gender and citizenship to explore the crossroads of migration and the history of emotion. Contributors: María Bjerg, Marcelo J. Borges, Sonia Cancian, Tyler Carrington, Margarita Dounia, Alexander Freund, Donna R. Gabaccia, A. James Hammerton, Mirjam Milharčić Hladnik, Emily Pope-Obeda, Linda Reeder, Roberta Ricucci, Suzanne M. Sinke, and Elizabeth Zaroni

[The Incredible Journey of Plants](#) May 20 2023

In this richly illustrated volume, a leading neurobiologist presents fascinating stories of plant migration that reveal unexpected connections between nature and culture. When we talk about migrations, we should study plants to understand that these phenomena are unstoppable. In the many different ways plants move, we can see the incessant action and drive to spread life that has led plants to colonize every possible environment on earth. The history of this relentless expansion is unknown to most people, but we can begin our exploration with these surprising tales, engagingly told by Stefano Mancuso. Generation after generation, using spores, seeds, or any other means available, plants move in the world to conquer new spaces. They release huge quantities of spores that can be transported thousands of miles. The number and variety of tools through which seeds spread is astonishing: we have seeds dispersed by wind, by rolling on the ground, by animals, by water, or by a simple fall from the plant, which can happen thanks to propulsive mechanisms, the swaying of the mother plant, the drying of the fruit, and much more. In this accessible, absorbing overview, Mancuso considers how plants convince animals to transport them around the world, and how some plants need particular animals to spread; how they have been able to grow in places so inaccessible and inhospitable as to remain isolated; how they resisted the atomic bomb and the Chernobyl disaster; how they are able to bring life to sterile islands; how they can travel through the ages, as they sail around the world.

Racism Explained to My Daughter Dec 23 2020

Ellis Island Nation Mar 26 2021 Though debates over immigration have waxed and waned in the course of American history, the importance of immigrants to the nation's identity is imparted in civics classes, political discourse, and television and film. We are told that the United States is a "nation of immigrants," built by people who came from many lands to make an even better nation. But this belief was relatively new in the twentieth century, a period that saw the establishment of immigrant quotas that endured until the Immigrant and Nationality Act of 1965. What changed over the course of the century, according to historian Robert L. Flegler, is the rise of "contributionism," the belief that the newcomers from eastern and southern Europe contributed important cultural and economic benefits to American society. Early twentieth-century immigrants from southern and eastern Europe often found themselves criticized for language and customs at odds with their new

culture, but initially found greater acceptance through an emphasis on their similarities to "native stock" Americans. Drawing on sources as diverse as World War II films, records of Senate subcommittee hearings, and anti-Communist propaganda, Ellis Island Nation describes how contributionism eventually shifted the focus of the immigration debate from assimilation to a Cold War celebration of ethnic diversity and its benefits—helping to ease the passage of 1960s immigration laws that expanded the pool of legal immigrants and setting the stage for the identity politics of the 1970s and 1980s. Ellis Island Nation provides a historical perspective on recent discussions of multiculturalism and the exclusion of groups that have arrived since the liberalization of immigrant laws.

[The Leopard](#) Jun 09 2022 Set in the 1860s, The Leopard tells the spellbinding story of a decadent, dying Sicilian aristocracy threatened by the approaching forces of democracy and revolution. The dramatic sweep and richness of observation, the seamless intertwining of public and private worlds, and the grasp of human frailty imbue The Leopard with its particular melancholy beauty and power, and place it among the greatest historical novels of our time. Although Giuseppe di Lampedusa had long had the book in mind, he began writing it only in his late fifties; he died at age sixty, soon after the manuscript was rejected as unpublishable. In his introduction, Gioacchino Lanza Tomasi, Lampedusa's nephew, gives us a detailed history of the initial publication and the various editions that followed. And he includes passages Lampedusa wrote for the book that were omitted by the original Italian editors. Here, finally, is the definitive edition of this brilliant and timeless novel. (Translated from the Italian by Archibald Colquhoun.)

[Toleration](#) Oct 01 2021 More than anything, diversity is what characterizes societies of the 21st century. Our contemporary societies are marked by ethnic, religious, racial, ideological, moral, and sexual diversity. Cultural, moral, and ideological pluralism is a fact of our lives. While some people see this phenomenon as a source of richness and thus welcome it, others feel threatened by it. Those who feel threatened have two options before them; they will either learn how to live with diversity or look for ways to suppress it. While, this latter option causes social conflict, the former ameliorates social conflict. This option is called 'toleration.'

Toleration: The Liberal Virtue is a defense of toleration as a remedy to societal conflict caused by differences. It examines four prominent grounds of toleration: skepticism, prudence, autonomy, and conscience which are illustrated through the works of four pioneering liberals, namely, Michel de Montaigne, John

Locke, John Stuart Mill, and Pierre Bayle, respectively.
