[The Alphabet War](#) Jan 08 2022 When Adam started kindergarten, the teacher wanted him to learn about letters. But "p" looked like "q," and "b" looked like "d." Adam would rather color or mold clay. In first grade, his teacher wanted him to put the letters into words so he could read. That was the beginning of the Alphabet War. "Was" looked like "saw," and "there" looked like "then." Almost everyone else in his class was learning to read, but Adam was fighting a war against letters. In second grade, he had to learn to spell, which was also impossible. Now he was so frustrated he got into trouble and had to go to the principal's office. At last, in third grade, he got the right kind of help. Slowly he began to do better. During fourth grade, he learned that he could excel in other things. That gave him the confidence to take chances with reading. One day he found himself reading a book all by himself!

Within hours of the original release of *Alphapets* the book was, with permission, picked up by a publishing-distribution house called Storyberries where it quickly had over 5000 views, then 10,000 and more. Alphabetical Jun 01 2021 How on Earth did we fix upon our twenty–six letters, what do they really mean, and how did we come to write them down in the first place? Michael Rosen takes you on an unforgettable adventure through the history of the alphabet in twenty–six vivid chapters, fizzing with personal anecdotes and fascinating facts. Starting with the mysterious Phoenicians and how sounds first came to be written down, he races on to show how nonsense poems work, pins down the strange story of OK, traces our five lost letters and tackles the tyranny of spelling, among many many other things. His heroes of the alphabet range from Edward Lear to Phyllis Pearsall (the inventor of the A–Z), and from the two scribes of Beowulf to rappers. Each chapter takes on a different subject – whether it's codes, umlauts or the writing of dictionaries. Rosen's enthusiasm for letters positively leaps off the page, whether it's the story of his life told through the typewriters he's owned or a chapter on jokes written in a string of gags and word games. This is the book for anyone who's ever wondered why Hawaiian only has a thirteen–letter alphabet or how exactly to write down the sound of a wild raspberry.

Among the suspects: a gingerbread man (G) with a bite out of his head, a kite (K) that may be above the law, and an octopus (O) with grabby tentacles. But — hold on — are those crumbs on Bear's page? Is that frosting on his face? Looks like our narrator is a little unreliable! And it appears our culprit might be the one that Bear wants readers to suspect the least of all. . . . Author Eoin McLaughlin's sly, cheeky humor takes the alphabet book to inventive new heights, while best-selling illustrator Marc Boutavant's smart and striking graphic-style art matches the irreverent tone. Young ABC learners and older fans of funny stories will laugh out loud at Bear's uproarious “investigation” and his anything-but-usual suspects.
