Reexamining the Chicano civil rights movement of the 1960s and 1970s, *In the Spirit of a New People* brings to light new insights about social activism in the twentieth-century and new lessons for progressive politics in the twenty-first. Randy J. Ontiveros explores the ways in which Chicano/a artists and activists used fiction, poetry, visual arts, theater, and other expressive forms to forge a common purpose and to challenge inequality in America. Focusing on cultural politics, Ontiveros reveals neglected stories about the Chicano movement and its impact: how writers used the street press to push back against the network news; how visual artists such as Santa Barraza used painting, installations, and mixed media to challenge racism in mainstream environmentalism; how El Teatro Campesino's innovative "actos," or short skits, sought to embody new, more inclusive forms of citizenship; and how Sandra Cisneros and other Chicana novelists broadened the narrative of the Chicano movement. *In the Spirit of a New People* articulates a fresh understanding of how the Chicano movement contributed to the social and political currents of postwar America, and how the movement remains meaningful today. The first compilation that brings together publications on New Religious Movements (NRMs) from across Western Europe, this useful work includes titles written in most European languages. The Introduction provides an overview of NRMs since 1960 and places them in a global perspective. The literature, from the late 1970s to the present, covers areas of study

such as sociology, psychology, history, theology, and more, and will be of interest to scholars and students in many disciplines. The work is a companion piece to Diane Choquette's *New Religious Movements in the United States and Canada: A Critical Assessment* (Greenwood, 1985). The authors, experts in NRMs throughout the world, discuss various explanatory models that account for the emergence of NRMs and look at the way they have spread throughout the countries of Western Europe. Membership and impact are discussed, as well as the response of the wider society. The label new is addressed and some attempts at classification are presented. Provides annotated coverage of articles, books, and dissertations relating to the evangelical movement in North America. References are given to sources dealing with the history of evangelicism, fundamentalism, pentecostalism, the charismatic movement and revivalism. Contains a listing of selected periodicals and an index of authors and editors. Annotation copyrighted by Book News, Inc., Portland, OR

Chartism, which was supported by tens of thousands of working-class people in mid-nineteenth-century, Britain, took its name from the People's Charter. Published in 1838, the Charter called for universal suffrage, the ballot, no property qualifications for members of parliament, payment for members of parliament, equal electoral areas and annual parliaments. The Chartist movement continues to attract considerable attention. Scholarly books and articles appear with regularity, and the movement features prominently in courses taught in universities and schools. This bibliography expands,

updates and corrects the one compiled by J.F.C. Harrison and Dorothy Thompson in 1978 (Harvester Press). A comprehensive list of manuscript material - letters, petitions, notebooks and poetry - relevant to the study of Chartism is provided, as well as a section on contemporary printed sources incorporating books, pamphlets, handbills, posters, Chartist and near-Chartist periodicals, with a location provided for each of the latter. Books, articles and theses written on different aspects of Chartism since 1978 are also included. Annotations amplify many of the sources and provide the reader with useful guidance. The bibliography includes an introductory essay by Dorothy Thompson and will be of immense value to researchers, teachers and students of labour and social history, and Victorian studies, in universities and schools. The 1960s were a particularly turbulent period, and the events of those years continue to interest and influence American society. This bibliography records and documents the most significant happenings of that decade. The volume spans the years between 1960 and the resignation of President Nixon in 1974. It includes citations for more than 1300 books related to that period. Some of the books were written during the 1960s and directly influenced people of that time. Others were written afterward, and analyze and interpret the events of the decade. The entries are arranged in topical chapters, and each citation is accompanied by a descriptive and evaluative annotation. The volume begins with an introduction that overviews and discusses the major events and trends of the time. The 17 topical chapters that follow treat virtually every aspect of life in the 1960s. The first few chapters include general works on the underlying social, political, and economic conditions that served to define the decade. Other chapters discuss works on the presidencies, social protests, the impact of the Vietnam war, the cultural revolution, and trends in art, music, literature, and religion. The bibliography concludes with author, title, and subject indexes that add to its value as a reference tool. First Published in 1996. Those of us who

aspire to know about the black church in the African-American experience are never satisfied. We know so much more about the Christian and church life of black Americans than we did even a dozen years ago, but all the recent discoveries whet our insatiable appetites to know it all. That goal will never be attained, of course, but there do remain many conquerable worlds. Sherry Sherrod DuPree set her mind to conquering one of those worlds. She has persisted, with the results detailed here. A huge number of items are available to inform us about Holiness, Pentecostal, and Charismatic congregations and organizations in the African-American Christian community. The Watchtower movement has over ten million followers and remains one of the fastest growing religious movements in the world today. Since the movement actively proselytizes throughout the world, many people are aware of Jehovah's Witnesses, but readers may not be aware that the movement has profoundly influenced the constitutional law of many countries, including America and Canada. This volume contains almost 10,000 references on the Watchtower movement and the dozen or so major schisms that have occurred since its founding in 1879. An introductory chapter reviews the history, major events, and doctrinal changes of the Jehovah's Witnesses. Books, book chapters, booklets, dissertations, journal articles, and book sections that examine the Watchtower movement are referenced in English and other languages such as Chinese, Japanese, Korean, and Turkish. Selectively annotated, the entries are grouped in five major sections for easy reference. Scholars and researchers will appreciate the comprehensive list the author has provided of all literature published by the Watchtower movement throughout its history. The Jesus People Movement, an important social development which emerged from the North American counterculture of the 1960s, developed as an experiential religious revival that attracted teenagers and young adults to the historic tenets of Christianity. The Chartist Movement has attracted a great deal of interest from scholars. Lists of primary and secondary sources have filled two volumes. This volume is intended as a supplement to *The Chartist Movement: A New Annotated Bibliography* (1995), edited by Owen Ashton, Robert Fyson and Stephen Roberts. There is no overlap. It lists manuscript material located in the last quarter of a century - including petitions, letters and sketches - and the many books, articles and theses that have been produced. For all those interested in Chartism, this book is indispensable.
