Criminal Law Conversations provides an authoritative overview of contemporary criminal law debates in the United States. This collection of high caliber scholarly papers was assembled using an innovative and interactive method of nominations and commentary by the nation's top legal scholars. Virtually every leading scholar in the field has participated, resulting in a volume of interest to those both in and outside of the community. Criminal Law Conversations showcases the most captivating of these essays, and provides insight into the most fundamental and provocative questions of modern criminal law. CRIMINAL LAW AND PROCEDURE, 7th edition delivers extensive coverage of every aspect of the law and details the duties a paralegal is expected to perform when working within criminal law. High-level, comprehensive coverage is combined with cutting-edge developments, foundational concepts, and emerging trends, such as terrorism, treason, and national security crimes; cyber stalking; virtual child pornography; corporate crime, racial profiling, and more. Case excerpts help you develop your case analysis skills, while a variety of

built-in learning aids sharpen your problem solving and analytical skills. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Place of publication from publisher's website. Essential Criminal Law, Second Edition equips students with a foundational and practical understanding of criminal law in the United States, as well as encourages strong legal reasoning skills for students with no prior exposure to case law. Award-winning professor and bestselling author Matthew Lippman guides students through the complexities of the legal system using thought-provoking examples of real-life crimes and legal defenses, along with highly approachable case analyses. Updated with the most current developments in criminal law and public policy, the Second Edition takes students beyond the classroom and prepares them to apply criminal law in today's legal world. RICO: Civil and Criminal Law and Strategy provides a fundamental grounding in substantive RICO law and focuses on strategic and tactical considerations of RICO practice. An in-depth look at the consequences of New York City's dramatically expanded policing of low-level offenses Felony conviction and mass incarceration attract considerable media attention these days, yet the most common criminal-justice encounters are for misdemeanors, not felonies, and the most common outcome is not prison. In the early 1990s, New York City launched an initiative under the banner of Broken Windows policing to dramatically expand enforcement against low-level offenses. Misdemeanorland is the first book to document the fates of the hundreds of thousands of people hauled into lower criminal courts as part of this policing experiment. Drawing on three years of fieldwork inside and outside of the courtroom, in-depth interviews, and analysis of trends in arrests and dispositions of misdemeanors going back three decades, Issa Kohler-Hausmann argues that lower courts have largely abandoned the adjudicative model of criminal law administration in which questions of factual guilt and legal punishment drive case outcomes. Due to the sheer volume of arrests, lower courts have adopted a managerial model--and the implications are troubling. Kohler-Hausmann shows how significant volumes of people are marked, tested, and subjected to surveillance and control even though about half the cases result in some form of legal dismissal. She describes in harrowing detail how the reach of America's penal state extends well beyond the shocking numbers of people incarcerated in prisons or stigmatized by a felony conviction. Revealing and innovative, Misdemeanorland shows how the lower reaches of our criminal justice system operate as a form of social control and surveillance, often without adjudicating cases or imposing formal punishment. Covering criminal justice history on a cross-national basis, this book surveys criminal justice in Western civilization and American life chronologically from ancient times to the present. It is an introduction

to the historical problems of crime, law enforcement and penology, set against the background of major historical events and movements. Integrating criminal justice history into the scope of European, British, French and American history, this text provides the opportunity for comparisons of crime and punishment over boundaries of national histories. The text concludes with a chapter that addresses terrorism and homeland security. * Spans all of western history, and examines the core beliefs about human nature and society that informed the development of criminal justice systems. The fifth edition gives increased coverage of American law enforcement, corrections, and legal systems * Each chapter is enhanced with supplemental "Timeline," "Time Capsule," and "Featured Outlaw" boxes as well as discussion questions, notes and problems * Contains discussion questions, notes, learning objectives, key terms lists, biographical vignettes of key historical figures, and "History Today" exercises to engage the reader and encourage critical thinking This coursebook offers an exciting new approach to teaching criminal law to graduate and undergraduate students, and indeed to the general public. Each well-organized and student-friendly chapter offers historical context, tells the story of a principal historic case, provides a modern case that contrasts with the historic, explains the legal issue at the heart of both cases, includes a unique mapping feature describing the range of positions on the issue among the states today, examines a key policy question on the topic, and provides an aftermath that reports the final chapter to the historic and modern case stories. By embedding sophisticated legal doctrine and analysis in real-world storytelling, the book provides a uniquely effective approach to teaching American criminal law in programs on criminal justice, political science, public policy, history, philosophy, and a range of other fields. A call to replace Canada's incarceration model, which has proven destructive, discriminatory, expensive, counterproductive, and — most of all — unnecessary. Imprisonment developed in the Western world as the punishment to suit all offences, from violent assault to victimless drug use. Centuries ago, incarcerating convicts represented progress on society's part, since it came as a replacement for capital punishment, maiming, and torture. Our current model — taking away convicts' freedom and holding them in degrading and unhealthy prison conditions — promotes recidivism and jeopardizes public safety. It is highly discriminatory, with disproportionate numbers of ethnic, indigenous, mentally ill, drug-dependent, poor, and otherwise marginalized people imprisoned. It is also ruinously expensive. Elsewhere, alternative correctional systems successfully rehabilitate offenders while treating them with dignity and respect. This book lays out the case for a complete overhaul of Canada's ineffective incarceration model of criminal justice and for a new approach. ESSENTIALS OF CRIMINAL LAW, 11/e is an easy-to-read, clear, and comprehensive introduction to criminal law for criminal justice majors and non-majors at all levels. Avoiding overly complex issues, it explains key principles through real-world examples, so they can be easily and quickly understood. Thoroughly reviewed and revised for even greater clarity and relevance, this edition contains multiple

examples from drawn from The American Law Institute's Model Penal Code. Even more than previous editions, it goes beyond a pure "law enforcement" orientation, offering a broader and more all-encompassing approach to criminal law. This edition also contains extensive updates to reflect the latest changes in statutory and case law; notably, revisions related to narcotics law, juvenile offenses, forgery and counterfeiting. A user-friendly introduction to the Palmetto State's criminal justice system A handy reference for students, police officers, and concerned citizens, the Guide to South Carolina Criminal Law and Procedure, Fifth Edition, offers a comprehensive overview of the state's criminal justice system, including legislative changes enacted during the 1995-96 session. Patricia Seets Watson and William Shepard McAninch identify the functions of the police, prosecution, defense, and the Department of Corrections; define the jurisdiction and sentencing options of various courts; and discuss the procedures involved in processing a case from start to finish. One of the few bestselling introductory criminal justice texts written by professors who actively teach the course to large numbers of undergraduates each year, INTRODUCTION TO CRIMINAL JUSTICE is uniquely attuned to the needs of today's students and instructors. Now in its fifteenth edition and known for its authoritative, solidly researched content, Siegel and Worrall's text delivers comprehensive, cutting-edge coverage of criminal justice. Extremely student friendly, the text's balanced and objective presentation is packed with provocative real-world examples and the latest developments from the field. Crisp writing, complemented by vivid illustrations, deftly guides readers through the intricate workings of the police, courts, and correctional systems; the concepts and processes of justice; and key policy issues. The book also includes an emphasis on today's criminal justice careers, offering insights from numerous professionals on the rewards and realities of their jobs. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. After your casebook, a Casenote Legal Brief is your most important reference source for the entire semester. Expert case studies and analyses and quicknote definitions of legal terms help you prepare for class discussion. Here is why you need Casenote Legal Briefs to help you understand cases in your most difficult courses: Each Casenote includes expert case summaries, which include the black letter law, facts, majority opinion, concurrences, and dissents, as well as analysis of the case. There is a Casenote for you! With dozens of Casenote Legal Briefs, you can find the Casenote to work with your assigned casebook and give you the extra understanding of all cases Casenotes in 1L subjects include a Quick Course Outline to help you understand the relationships between course topics. Excerpt from Criminal Law and Procedure of California: Including the Penal Code of California This book is not intended to cover the general field of criminal law and procedure, but rather to put before the public in a concise and convenient form the law of this state relating to crimes. With this end in view every criminal case decided by the Supreme Court of California to the present time has been examined carefully. It

is intended to make forms for indictment and instructions a prominent feature. And many which have received the sanction of our Supreme Court are to be found herein. Considerable attention also has been devoted to examinations and commitments by magistrates. The Penal Code as now in force has been included with citations supplied by the publishers. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works. "The topics covered [in this book] are those most often raised in criminal law casebooks, and coverage of these subjects is meant to complement professors' classroom discussions. The text focuses on the basic elements of, and defenses to, all crimes; provides in-depth coverage of such crimes as homicide, rape, and theft; and covers other important topics covered in the Criminal Law course, such as accomplice and inchoate liability. [This book] also covers theories of punishment, sources of the criminal law, and overarching principles such as legality and proportionality. The common law is emphasized with extensive comparisons to the Model Penal Code and modern statutes. This edition offers the most significant updating ever, including coverage of quickly-changing legal areas, such as sexual assault and self-defense law. Recent and ongoing revisions to the Model Penal Code are also covered."-- Providing the undergraduate criminal law course with a nationally acclaimed blend of analysis and illustrative cases, Joel Samaha's CRIMINAL LAW, 10e is the textbook of choice among instructors nationwide. Praised for his clear, concise, engaging writing style, Samaha presents criminal law using a combined text/casebook approach. Though cases are included to amplify text coverage, this bestseller is comprehensive enough to stand alone--giving instructors the flexibility to choose the amount of case coverage they want, while knowing they have the best of the best in terms of case law. A number of fully explicated cases and some case excerpts cover the broad range of criminal law, giving instructors additional flexibility to select the degree to which case excerpts and explanations are used. The full text of all excerpted cases in the book is available on the website. Packed with the latest topics and cases--and accompanied by a powerful collection of teaching and learning resources--the new Tenth Edition is even more effective in helping students understand and think analytically about the underlying principles and policies that specific cases illustrate. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Providing a current view that prompts students to read and analyze, Contemporary Criminal Law, Sixth Edition combines the concepts taught in undergraduate criminal law courses with thought-provoking cases and engaging learning tools. Covering emerging legal

topics including constitutional rights, consent, arson, identity theft, and hate crimes all applied through real life examples that students recognize and connect to. For courses in Criminal Law. Bringing criminal law to life. Criminal Law Today, 6/e, brings criminal law to life by relating it to real stories from today's headlines. The text's approach is strongly influenced by the belief that the law has always been, and remains, a vital policy-making tool. As a topic for study and discussion, the nature and life of the law is more important today than ever before. The text highlights the challenges that face the law as it continues to adapt to the needs of a complex and rapidly changing society and features a balanced text/casebook approach that provides a lively introduction to criminal law. Effective in-text learning tools give students the resources they need to master the material presented in the text. To give your students the most accurate picture of criminal law today, the material on law and crime is updated throughout the Sixth Edition. New cases and stories drawn from recent real-life events are included to draw readers into the material and help them contextualize how theory translates into practice. Criminal Law Today, 6/e, is also available via REVEL(TM), an interactive learning environment that enables students to read, practice, and study in one continuous experience. Learn more. Equipping you with a practical understanding of legal topics, Gardner and Anderson's CRIMINAL LAW, 12th Edition, delivers comprehensive coverage of the major components of substantive criminal law in a remarkably reader-friendly presentation. Its narrative, descriptive approach exposes readers to the language of the law without overwhelming them. A longtime market leader, the book offers complete coverage of the issues and principles that drive American criminal justice today. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. Covering the constitutional foundation of criminal procedure in the U.S., this is a contemporary, comprehensive, case-driven textbook from award-winning teacher Matthew R Lippman Practitioner and Educator, Tina Fryling Presents a Pragmatic and Accessible Approach to Constitutional Law for Criminal Justice Students Constitutional Law in Criminal Justice, Third Edition presents the constitutional provisions most directly related to criminal law and procedure and demonstrates their daily impact on the attitudes, capabilities, events, and responses of legal professionals in policing, courtrooms, and federal agencies. The U.S. Constitution guides every facet of the investigation of crime and of threats to public safety and national security. To further readers' understanding of the nature of these procedures, this book examines both the Constitution's relevant provisions and the central developments in their interpretation by the Supreme Court and other U.S. courts. Vivid examples of the situations faced by practitioners on a daily basis bring the complexities of criminal law to life. New to the Third Edition: Expanded discussions of strict scrutiny, stop and frisk, cell phone privacy, the Strickland Test, and First Amendment protections in social media and campaign financing. New cases cover: the interpretation of the attempt to restrain an individual as a seizure (Torres v. Madrid) searches based

on "common sense" and making a "logical inference" (Kansas v. Glover) hot pursuit and entry into a building (Lange v. California) the "community caretaking exception" to the Fourth Amendment (Caniglia v. Strom) the Establishment Clause and schools (Kennedy v. Bremerton School District and Carson v. Makin) the primacy of Second Amendment rights (New York State Rifle and Pistol Ass'n. v. Bruen) New scenarios for "You Be the Judge" and featured cases. Professors and students will benefit from: "You Be the Judge" feature encourages students to consider all sides of an issue and broaden their understanding of the complexities of constitutional law in the criminal justice context. Brief summaries of landmark Supreme Court cases provide essential information and insight. The relevant constitutional amendments are covered in terms of both their historical basis and their interpretation and application today. Clear writing speaks to a wide range of readers' interests, perspectives, and preparation; the text is accessible to both majors and nonmajors in courses at all levels. Written by a practicing attorney who has litigated the issues, the text is authentic, current, approachable, and practical. Comprehensive information on the complexities of constitutional law relates to daily practice by courts, law enforcement, and other criminal justice professionals. The text is further enhanced by: A logical structure and conceptual focus Learning Objectives and key term lists in each chapter Stimulating questions in each chapter to test and assess student understanding American Criminal Courts: Legal Process and Social Context provides a complete picture of both the theory and day-to-day reality of criminal courts in the United States. The book begins by exploring how democratic processes affect criminal law, the documents that define law, the organizational structure of courts at the federal and state levels, the overlapping authority of the appeals process, and the effect of legal processes such as precedent, jurisdiction, and the underlying philosophies of various types of courts. In practice, criminal courts are staffed by people who represent different perspectives, occupational pressures, and organizational goals. Thus, this book includes chapters on actors in the traditional courtroom workgroup (judges, prosecutors, and defense attorneys, etc.) as well as those outside the court who seek to influence it, including advocacy groups, the media, and politicians. It is the interplay between the court's legal processes and the social actors in the courtroom that makes the application of criminal law fascinating. By focusing on the tension between the law and the actors inside of it, American Criminal Courts: Legal Process and Social Context demonstrates how the courts are a product of "law in action" and presents content in a way that enables you to understand not only the "how" of the U.S. criminal court system, but also the "why." Clearly explains both the principles underlying the development of criminal law and the practical reality of the court system in action A complete picture of the criminal justice continuum, including prosecution, defense, judges, juries, sentencing, and pre-trial and appeals processes Feature boxes look at how courts are portrayed in the media; identify landmark due-process cases; illustrate the pros and cons of the courts' discretionary decision-making; examine procedures

and the goals of justice; and highlight the various types of careers available within the criminal courts Constitutional principles are the foundation upon which substantive criminal law, criminal procedure law, and evidence laws rely. The concepts of due process, legality, specificity, notice, equality, and fairness are intrinsic to these three disciplines, and a firm understanding of their implications is necessary for a thorough comprehension of the Introduction to Criminal Law is a course designed to provide students with an in-depth understanding of the fundamental principles of criminal law. The course covers several topics including the definition of crime, criminal acts and intent, defenses to crimes, and the principles of punishment. The course begins by providing students with an overview of the criminal justice system and the roles of the different players in the system. This is followed by an analysis of the elements of a crime which include actus reus and mens rea. Students will also learn the different types of criminal offenses, including property crimes, violent crimes, and white-collar crimes. The course also delves into the various defenses to crimes, including self-defense, entrapment, and duress. Finally, the course concludes by examining the principles of punishment, including the purposes of punishment, sentencing, and the constitutional safeguards of the Eighth Amendment. Overall, the course equips students with the knowledge and skills to understand the intricacies of criminal law and the criminal justice system. The course is important in providing a foundation for those who wish to pursue a career in the field of criminal justice. Professionals who work in the legal system, such as lawyers, judges and law enforcement officers, must have a deep understanding of criminal law to effectively carry out their roles. The course is also useful for individuals who are interested in learning more about the criminal justice system, including students exploring different career paths or individuals with a general interest in law. The course offers a comprehensive understanding of the principles of criminal law and the mechanisms used to enforce these principles, and thus provides a useful tool for individuals seeking to broaden their knowledge and understanding of the criminal justice system. Criminal Law and Procedure: An Introduction, 2nd Edition is an excellent resource for anyone interested in the practice and theory of criminal law. Written primarily for paralegal, legal studies, and criminal justice students at the college level, this book also serves as an excellent introductory guide for anyone preparing for a career in law. Criminal Law in Focus (CLIF) provides an updated approach to the first-year criminal law casebook, with coverage and pedagogy that reflects modern criminal law practice. Alongside the traditional justificatory theories of punishment, the book considers punishment as a tool for social control, the rise of mass incarceration, and racial disparities in criminal enforcement. Using compelling cases that clearly articulate legal doctrine, this book covers core traditional offenses (like homicide and rape), as well as those that figure prominently in modern practice, but which have historically been absent from or deemphasized in the criminal law curriculum (like drug possession and property crimes). The Real Life Applications feature following each case poses a series of questions to spotlight important topics that might otherwise be

overlooked, such as prosecutorial discretion and plea bargaining. Straightforward exposition helps students navigate their way around the differences and tensions between jurisdictional approaches to defining crimes and defenses. Features: CLIF goes beyond the traditional coverage of most casebooks, (which focus primarily on homicide offenses, rape, and (to a lesser extent) theft crimes). With expanded coverage of property offenses, an entire chapter on drug offenses, and coverage of contemporary issues (such as child pornography offenses and the public authority defense), CLIF reflects a wider, more inclusive perspective on criminal law today. Most criminal law casebooks place extended coverage of the elements of crime (mens rea, actus reus, and causation) at the front of the book, before covering individual criminal offenses—which requires students to grapple with these concepts in the abstract. By contrast, CLIF provides a brief, early introduction to the elements of crime (which can be covered in one class); it then pivots to an integrated discussion of specific criminal offenses and covers principles related to mens rea, actus reus, and causation in the context of those offenses. Chapter 10 also covers the interpretation of criminal statutes. At 550 pages, CLIF is much shorter than most criminal law casebooks, even though it includes topics (e.g., drug crimes) that aren't covered in most criminal law casebooks. Professors and students will benefit from: Coverage of offenses that are either absent from, or deemphasized in, most other casebooks, CLIF helps professors to design a course that improves both bar-exam readiness and practice readiness. The inclusion of issues related to mass incarceration in the first chapter modernizes the traditional “purposes of punishment” material. CLIF retains coverage of justificatory theories of punishment, including the famous case of Dudley and Stephens; these theories aim to provide a morally defensible account of punishment and they are important. But they do not fully explain the reality of punishment in the United States today. By covering issues related to the rise of mass incarceration alongside the traditional theories of punishment, CLIF allows for a fuller discussion of the theory and reality of punishment. The book's innovative approach to covering the elements of crimes has a number of benefits. It is much more efficient, from a teaching perspective; it will afford professors time to cover other topics that they can't usually fit into the course (e.g., drug crimes and a more in-depth treatment of property offenses). Professors might spend 4 or 5 (or more) class sessions on the elements of crime before they can begin to cover individual offenses. This is not necessary: Most of these concepts are more effectively covered in the context of specific crimes (e.g., intent and mistakes of fact can both be introduced in the context of larceny; willful blindness can be addressed in the context of drug crimes). Then, after students have learned about these concepts in the context of individual offenses, the concepts can be tied together in 1 or 2 class sessions using the materials in Chapter 10. Covering difficult mens rea and actus reus concepts in depth before covering individual crimes (as most books do) often leaves students confused. They don't have enough context to appreciate how the difficult mens rea problems fit into criminal law doctrine, for example. The structure in CLIF teaches

students the basics first. Once they have that foundation, they are better able to grapple with the more complex mens rea questions in Chapter 10. The traditional approach can be frustrating for faculty, as well. It is a bit like trying to teach someone about the broad structure of mathematics before they have learned basic arithmetic. The approach in CLIF more accurately reflects criminal law practice. In a real-world case, the prosecutor and defense do not argue about mens rea or actus reus in the abstract. Instead, the parties are focused on the elements of the specific crime(s) at issue. When difficult mens rea or actus reus questions arise in practice, it is in the context of the elements of a particular crime. Forensic psychologists and psychiatrists are increasingly asked to provide expertise to courts and attorneys in the criminal justice system. To do so effectively, they must stay abreast of important advances in the understanding of legal standards as well as new developments in sophisticated measures and the methods for their assessment. Fundamentals of Forensic Practice is designed to address the critical issues that are faced by mental health experts in their role of conducting assessments, presenting findings, and preparing for challenges to admissibility and credibility. Uniquely practical and comprehensive, this volume operationalizes legal standards and describes empirically validated methods for their evaluation. Not only is this essential for mental health professionals, but it is equally valuable to criminal attorneys. Lawyers require both clinical knowledge and understanding of legal standards in order to prepare their own experts and to challenge those on the opposing side. For both clinical and legal experts Fundamentals of Forensic Practice offers a full view of all phases of criminal proceedings: - Pretrial—diversion, determinations of bail, waivers of Miranda rights, and the capacity to consent to searches. - Trial—competency to stand trial and criminal responsibility. Beyond insanity, the latter addresses mens rea, automatism, and psychological context evidence, such as battered-woman syndrome. - Post-trial—sentencing, capital sentencing, competency to be executed, and other post-conviction issues. Other key features include: - Chapters on specific criminal issues in a consistent format, with comprehensive coverage of legal standards and relevant clinical methods - Guidelines for conducting more effective forensic evaluations - In-depth coverage of specialized assessments, eg. malingering, sexual predator cases, and the insanity defense. - A detailed overview of direct and cross-examination strategies This book is the second collaboration between Rogers and Shuman. As individual authors, each received the American Psychiatric Association's prestigious Guttman Award for their outstanding contributions to forensic psychiatry. Criminal Justice Procedure gives clear guidance on the most common questions faced by today's law enforcement, offering fresh look at 21st century pre-trial protocol. Unlike other case books, this newly revised edition eschews legal theory in favor of the practical know-how needed to not to parse, but apply criminal law. Emphasis has been placed on just exactly how practitioners should conduct hot-button procedures such as airport and border searches. Moreover, the book also addresses the often dire implications of deviating from proper practice - how a false

step can translate into a violation. The premier choice for Courts courses for decades, this popular text offers a comprehensive explanation of the courts and the criminal justice system, presented in a streamlined, straightforward manner that appeals to instructors and students alike. Neubauer and Fradella's crisp and clear writing, characterized by the organization of material into brief sections within chapters, ensures that readers gain a firm handle on the material. At the same time, the text's innovative courtroom workhouse model -- which focuses on the interrelationships among the judge, prosecutor, and defense attorney -- brings the courtroom to life. AMERICA'S COURTS AND THE CRIMINAL JUSTICE SYSTEM has long been known for the way it gives students an accurate glimpse of what it is like to work within the American criminal justice system, and the Twelfth Edition is no exception. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version. This report addresses the use of criminal sanctions to control corporate behavior—prosecutions both of corporations and of employees for actions taken on corporations' behalf. The authors describe the current state of the use of criminal sanctions in controlling corporate behavior, describe how the current regime developed, and offer suggestions about how the use of criminal sanctions to control corporate behavior might be improved. Criminal Law offers a unique hybrid approach to learning criminal law. Most textbooks oversimplify the law by presenting the black letter law for major offenses and defenses, but they rarely present any corresponding exploration of the gray areas that exist beyond the basic rules of law. Conversely, casebooks present numerous edited judicial opinions, often with context. Criminal Law takes the best from each of these approaches by merging textual pedagogy and case analyses into a coherent framework that includes legal history, social context, and public policy. Taking a historical approach, legal expert Henry F. Fradella presents the law as it evolved from English common law and compares it with the modern statutory approach to crimes set forth in the American Law Institute's highly influential Model Penal Code. After providing such comparative pedagogy for each crime or defense, Criminal Law presents 1-2 edited cases that allow the reader to contrast how the black letter law plays out in the real world. After each case, a series of questions challenge students to engage in critical thinking about the case and its implications as precedent. Finally, chapters contain a number of additional pedagogical features that focus on public policy concerns and statutory interpretation skills using penal laws from a variety of U.S. states. Criminal Law Conversations provides an authoritative overview of contemporary criminal law debates in the United States. This collection of high caliber scholarly papers was assembled using an innovative and interactive method of nominations and commentary by the nation's top legal scholars. Virtually every leading scholar in the field has participated, resulting in a volume of interest to those both in and outside of the community. Criminal Law Conversations showcases the most captivating of these essays, and provides insight into the most fundamental and provocative questions of modern criminal law.
