Cullman County, Alabama Cemeteries, Volume 4 Apr 16 2022 Cullman County was established in 1877 in large part from the west side of Blount and the east side of Winston counties. Today, the few old cemeteries which existed in those counties in the early days are found within the borders of Cullman. The cemetery listings in this four volume set were conducted by the author beginning in 2003 and ending in early 2006. An attempt was made to personally visit every cemetery in Cullman County and record information from each readable monument. Volume 4 of this series covers alphabetically cemeteries M through Z, beginning with the Mt. Zion United Methodist Church Cemetery and concluding with the Zion Grove Cemetery. The volumes are filled with photos of many of the old cemetery sites and notes describing the company and unit of most of the old Civil War era veterans. This set of books is vital to any serious student of Cullman County genealogy and history.

Hawaii's Past in a World of Pacific Islands Aug 09 2021 Given its relatively late encounter with the West, Hawaii offers an exciting opportunity to study a society whose traditional lifeways and technologies were recorded in native oral traditions and written documents before they were changed by contact with non-Polynesian cultures. This book in the SAA Press Current Perspectives Series chronicles the role of archaeology in constructing a narrative of Hawaii's cultural past, focusing on material evidence dating from the Polynesians' first arrival on Hawaii's shores about a millennium ago to the early decades of settlement by Americans and Europeans in the nineteenth century. A final chapter discusses new directions taken by native Hawaiians toward changing the practice of archaeology in the islands today.

PUBLIC POLICY Mar 16 2022 The subject of Public Policy has assumed considerable importance in response to the complexity of economic downturns, social upheavals, political crises, institutional weaknesses and technology. It is concerned not only with the description but also with the developing scientific knowledge about the forces shaping public policy. The textbook, now in its second edition, continues to provide an in-depth study of the various approaches for policy formulation, implementation and evaluation. It addresses issues in policy analysis, and explains the forces that influence the functioning of executive, legislature, judiciary, civil society and administration. The book excellently reviews and evaluates the public policy literature, and exemplifies the author's long teaching and research experience in Panjab University. The book is primarily intended for postgraduate students of Political Science and Public Administration for their courses in Public Policy and Policy Analysis, besides meeting the requirements of candidates offering public administration subject for the civil services examination. It will be equally useful for policymakers, planners and bureaucrats concerned with policy management. **NEW TO THIS EDITION** : Updation of the chapter Policy Approaches and Models with the inclusion of the topic 'Public choice model of policy-making' Addition of the two new chapters – Power Approaches to Policy Making and Strategic Planning Approach for Improving Public Policy – to study the subject in detail.

Power and Empowerment in Higher Education Sep 09 2021 The tangled relationship of power and higher education is a fascinating one. Where power centers arise on campus, they influence and are influenced by sources of power outside. Students, faculty and administration compete for authority within the academic community; citizens whose education has placed them in a position to obtain social, political, and economic power outside the university walls frequently use it in a way that deeply affects the direction and nature of academic development. This collection of thought-provoking essays is dedicated to Professor Louis Smith, who has long been a student of higher education in this country and abroad. Considering matters as varied as the place of the department head in the academic hierarchy and the image of political leadership promulgated by the academic world, distinguished scholars present here a rich harvest of insights on a significant topic.

Military Decision-Making Processes Nov 11 2021 President Bill Clinton, speaking as might any commander-in-chief, on the eve of his decision to deploy ground troops to Bosnia in 1995, declared he had "no responsibility more grave than putting soldiers in harm's way." Such a statement suggests that a study of the decision-making process associated with the weighty matters of using force would be enlightening. Indeed, it is. The decision-making process is far from standardized nor is it simple. While all individuals associated with important decisions about national security and the lives of America's service members take their responsibilities seriously, the processes by which they reach their conclusions are varied and complicated. The book traces eight traditional and emerging theories or models of decision-making by first explaining the components of each model and then by analyzing its practical application through three case studies. Each chapter concludes with a discussion of the utility and explanatory power of the particular model. Instructors considering this book for use in a course may request an examination copy here.

The Irony of Democracy: An Uncommon Introduction to American Politics Jun 26 2020 The question at the center of the seventeenth edition of THE IRONY OF DEMOCRACY is "How democratic is American society?" While most American government textbooks address politics from a pluralist perspective, this text approaches the subject using an elitist perspective, thus exposing the irony between it and democratic theory and modern pluralist theory. As a result, this text helps students understand why the U.S. government works as it does. Who's Running America? Oct 23 2022 A classic of American government, Who's Running America? continues to demonstrate how power is concentrated in large institutions no matter who inhabits the White House. The eighth edition of this best-selling text focuses on the Obama administration and the ways in which it is different from but also similar to administrations that have come before. Based on years of exhaustive data compilation and analysis,

Who's Running America? explores the influence and impact of governmental leaders, corporate officials, and other elites both inside and outside the United States. Employing an oligarchic model of national policymaking, Tom Dye doesn't just lay out theory and data. He very consciously "names names" in describing the people who inhabit the White House, the Cabinet, the leaders of Congress, members of the Supreme Court, as well as the board rooms of the nation's largest corporations and banks including leading media lights as well as "fat cat" political contributors. Dye argues that big institutions run America, but also that these institutions are made up of real people. Who's Running America? puts the flesh and bones on the statistics and delivers the inside scoop on the Obama reign.

Alabama Government & Politics May 25 2020 For most of the nation, Alabama government is emblemized by Governor George Wallace blocking the entry to the University of Alabama, defying court-ordered integration and championing states'-rights slogans. But Wallace's return to power in the 1980s witnessed sweeping social and political changes in Alabama. Today the state for the most part enjoys the aura of "the new South." James D. Thomas and William H. Stewart, both natives of Alabama, bring a detailed sense of its colorful past to their forward-looking book about its government and political institutions. In the course of writing about Alabama's legislative, administrative, and judiciary branches; its local politics; and its historic relations with the federal government, Thomas and Stewart reveal much about life today in this southern state. Low taxes, industrialization and urbanization, the civil rights movement, and a trend toward two-party politics have helped to usher in dramatic changes. Although continued change is in the wind, the authors do not think that Alabama's political institutions will soon lose their distinctive Alabama character, and no book has ever described that better than Alabama Government and Politics.

Understanding Public Policy May 30 2023 This leading introduction to public policy is designed to provide learners with concrete tools for not only understanding public policy in general, but for analyzing "specific" public policies. It focuses on "what" policies governments pursue, "why" governments pursue the policies they do, and what the "consequences" of these policies are. Very contemporary in perspective, it introduces eight analytical models currently used by political scientists to describe and explain political life and then, using these various analytical models singly and in combination explores specific public policies in a variety of key domestic policy areas. For individuals interested in a summary of current public policy in a variety of areas.

The Cambridge Handbook of Translation Apr 24 2020 Translation plays a vital role in society – it allows us to share knowledge and enrich our lives through access to other cultures. Translation studies is a rapidly evolving academic discipline, directly impacted by advances in technological aids, and with close connections between theory and practice. Bringing together contributions from internationally-renowned scholars, this Handbook offers an authoritative, up-to-date account of the many facets of this buoyant discipline. It covers different themes, areas of practice and developing trends, and provides an overview of the major sub-fields, and the connections between them. It is organised into six parts covering the nature of translation, its roles in society, its relationships with other disciplines, a selection of its factual genres, a selection of its art-related genres and, finally, its role in history. Comprehensive yet accessible, it is essential reading for students, teachers and scholars of translation studies, modern languages, linguistics, social studies and literary studies.
