Simplified Chinese edition of "Rain Rain Rivers," a 1969 New York Times Book Review Notable Children's Book of the Year and Outstanding Book of the Year. Rivers" talks about Mother Nature and the effect of rain, before, during and after. When the Czar proclaims that he will marry his daughter to the man who brings him a flying ship, the Fool of the World sets out to try his luck and meets some unusual companions on the way. A GOOD TALK is an analysis of and guide to that most exclusively human of all activities-- conversation. Drawing on over forty years of experience in American letters, Menaker pinpoints the factors that drive and enliven every good conversation: the vagaries (and joys) of subtext; the deeper structure and meaning of conversational flow; the subliminal signals that guide our disclosures and confessions; and the countless other hurdles we must clear along the way. Moving beyond self-help musings and "how to" advice, he has created a stylish, funny, and surprising book: a celebration of "the most exclusively human of all activities." In a time when conversation remains deeply important-- for building relationships, for relaxing, even for figuring out who we are-- and also increasingly imperiled (with Blackberries and texting increasingly in vogue), A GOOD TALK is a refreshing celebration of the subtle adventures of a good conversation. Two young brothers wonder how much money they will receive from their relatives for Hanukkah. When war devastates their country, a boy and his parents are forced to flee to another country far east, where they must live in a small room shared with another couple. Food is scarce. But one day, when father goes to the bazaar to buy bread, he comes home with a map instead. The boy and his mother are furious, they are so hungry! But the map floods their cheerless room with colour. The boy becomes fascinated by it and is transported far away without ever leaving the room. Father was right to buy it, after all. Ten stories about women of the Hebrew Bible who influenced the course of Jewish history through their courageous actions. How to write and illustrate children's books. A Caldecott Honor Book "It's snowing, said boy with dog. "It's only a snowflake," said grandfather with beard. No one thinks one or two snowflakes will amount to anything. Not the man with the hat or the lady with the umbrella. Not even the television or the radio forecasters. But one boy and his dog have faith that the snow will amount to something spectacular, and when flakes start to swirl down on the city, they are also the only ones who know how to truly enjoy it. This playful depiction of a snowy

day and the transformation of a city is perfectly captured in simple, poetic text and lively watercolor and pen-and-ink illustrations. Beginning in 1159, a Jewish man named Benjamin of Spain set out on a 14-year journey to see places named in the Bible. Working from Benjamin's own chronicle, written in Hebrew, and other sources on the period, Shulevitz captures the true spirit of this amazing adventurer. Full color. Rooster is spreading the word: "Hurry! Hurry!" The crowd gets bigger, faster, and noisier as all the animals follow Rooster, arriving at the peaceful barn just in time to greet the tiniest member of the farm family as he pecks his way out of his egg. With backlist sales of over 2.3 million copies, Uri Shulevitz, one of Farrar, Straus and Grioux's most acclaimed picture-book creators, details the eight-year odyssey of how he and his Jewish family escaped the terrors of the Nazis by fleeing Warsaw for the Soviet Union in Chance. It was during those years, with threats at every turn, that the young Uri experienced his awakening as an artist, an experience that played a key role during this difficult time. By turns dreamlike and nightmarish, this heavily illustrated account of determination, courage, family loyalty, and the luck of coincidence is a true publishing event. It's a day like any other when young Hans enters the forest to chop wood for his father. Then he discovers the Golden Goose. With

gentle humor Dennis McDermott brings children a delightful traditional tale with a favorite folkloric theme--the success of someone who's kind and good. His endearing illustrations show Hans, the young hero, and Rosamund, the beautiful princess--as well as the wondrous Golden Goose and the greedy, inquisitive townsfolk--in lively scenes that evoke a timeless and appealing world. Noted science writer Nicholas Wade offers for the first time a convincing case based on a broad range of scientific evidence for the evolutionary basis of religion. The king and the queen and their growing entourage return each morning to a tenement street until the little boy they have come to visit is home to greet them. A New York Times Notable Book of 2020 A Bloomberg Best Non-Fiction Book of 2020 A Behavioral Scientist Notable Book of 2020 A Human Behavior & Evolution Society Must-Read Popular Evolution Book of 2020 A bold, epic account of how the co-evolution of psychology and culture created the peculiar Western mind that has profoundly shaped the modern world. Perhaps you are WEIRD: raised in a society that is Western, Educated, Industrialized, Rich, and Democratic. If so, you're rather psychologically peculiar. Unlike much of the world today, and most people who have ever lived, WEIRD people are highly individualistic, self-obsessed, control-oriented, nonconformist, and analytical. They focus on

*themselves—their attributes, accomplishments, and aspirations—over their relationships and social roles. How did WEIRD populations become so psychologically distinct? What role did these psychological differences play in the industrial revolution and the global expansion of Europe during the last few centuries? In *The WEIRDest People in the World*, Joseph Henrich draws on cutting-edge research in anthropology, psychology, economics, and evolutionary biology to explore these questions and more. He illuminates the origins and evolution of family structures, marriage, and religion, and the profound impact these cultural transformations had on human psychology. Mapping these shifts through ancient history and late antiquity, Henrich reveals that the most fundamental institutions of kinship and marriage changed dramatically under pressure from the Roman Catholic Church. It was these changes that gave rise to the WEIRD psychology that would coevolve with impersonal markets, occupational specialization, and free competition—laying the foundation for the modern world. Provocative and engaging in both its broad scope and its surprising details, *The WEIRDest People in the World* explores how culture, institutions, and psychology shape one another, and explains what this means for both our most personal sense of who we are as individuals and also the large-scale social, political, and economic forces that drive human history. Includes black-and-white illustrations.*

In 1906, sixteen-year-old Mattie, determined to attend college and be a writer against the wishes of her father and fiance, takes a job at a summer inn where she discovers the truth about the death of a guest. Based on a true story. The king and the queen and their growing entourage return each morning to a tenement street until the little boy they have come to visit is home to greet them. When King Solomon finds a magic carpet that will transport its owner in a moment to any place in the world, he suddenly believes he is omnipotent. 'What difference is there now between me and God as He flies through His Heavens?' he asks. After many strange visions and adventures he knows. Based on a Hebrew legend. Three times a voice comes to Isaac in his dreams and tells him to go to the capital city and look for a treasure under the bridge by the royal palace. Feeling a little foolish perhaps, but determined to see for himself if the dream is true, Isaac sets out on his long journey. What he finds makes a surprising and heart-warming ending

to this retelling of a well-known folk tale. In a few words, Caldecott Medal winner Uri Shulevitz draws a man who is innocent enough to have faith in a dream, and wise enough to understand the greatest reward of all. Isaac's solitary journey, his arrival at the vast city, and his discovery there are all enriched by Mr. Shulevitz's beautifully detailed illustrations, which masterfully capture the spirit of the original tale while keeping it simple enough for the very youngest reader. The Treasure is a 1980 Caldecott Honor Book and a 1979 New York Times Book Review Best Illustrated Book of the Year. The author invites readers to witness the exploration on religion that he undertook after being diagnosed with an aggressive, and likely fatal, form of cancer. Questions the origin, meaning and cultural importance of keeping one day a week holy through an exploration of ritual, religious law and the communitarian way of life in our modern, workaholic, increasingly secular world. A sleepy house is roused when music drifts in through an open window. Chairs begin to rock, dishes dance, and a boy awakens to the revelry. As the music fades, everything is sleepy once again. With soothing text and whimsical illustrations, Caldecott Medalist Shulevitz has created the ultimate bedtime story. As he spends hours studying his father's world map, a young boy escapes the hunger and misery of refugee life. Based on the author's childhood in Kazakhstan, where he lived as a Polish refugee during World War II. From a critically acclaimed cultural and literary critic, a definitive history and analysis of the memoir. From Saint Augustine's Confessions to Augusten Burroughs's Running with Scissors, from Julius Caesar to Ulysses Grant, from Mark Twain to David Sedaris, the art of memoir has had a fascinating life, and deserves its own biography. Cultural and literary critic Ben Yagoda traces the memoir from its birth in early Christian writings and Roman generals' journals all the way up to the banner year of 2007, which saw memoirs from and about dogs, rock stars, bad dads, good dads, alternadads, waitresses, George Foreman, Iranian women, and a slew of other illustrious persons (and animals). In a time when memoir seems ubiquitous and is still highly controversial, Yagoda tackles the autobiography and memoir in all its forms and iterations. He discusses the fraudulent memoir and provides many examples from the past and addresses the ramifications and consequences of these books. Spanning decades and

nations, styles and subjects, he analyzes the hallmark memoirs of the Western tradition? Rousseau, Ben Franklin, Henry Adams, Gertrude Stein, Edward Gibbon, among others. Yagoda also describes historical trends, such as Native American captive memoirs, slave narratives, courtier dramas (where one had to pay to NOT be included in a courtesan's memoir). Throughout, the idea of memory and truth, how we remember and how well we remember lives, is intimately explored. Yagoda's elegant examination of memoir is at once a history of literature and taste, and an absorbing glimpse into what humans find interesting--one another. Troto is a happy little car who likes to go places. One day after a long drive, he arrives in Cactusville, where he meets some big trucks. But when those big trucks laugh at how small Troto is, Troto doesn't feel very happy anymore, so he challenges them to a race to show them just what a little car can do. After Troto wins the race, the trucks apologize, and little Troto drives off into the sunset, casting a big shadow. A young child spends the day imagining himself to be a sailor on a grand adventure. NEW YORK TIMES BESTSELLER • Once in a great while, a book comes along that changes our view of the world. This magnificent novel from the Nobel laureate and author of Never Let Me Go is “an intriguing take on how artificial intelligence might play a role in our futures ... a poignant meditation on love and loneliness” (The Associated Press). • A GOOD MORNING AMERICA Book Club Pick! Here is the story of Klara, an Artificial Friend with outstanding observational qualities, who, from her place in the store, watches carefully the behavior of those who come in to browse, and of those who pass on the street outside. She remains hopeful that a customer will soon choose her. Klara and the Sun is a thrilling book that offers a look at our changing world through the eyes of an unforgettable narrator, and one that explores the fundamental question: what does it mean to love? The perfect book for new fans and decade-long supporters alike, Ann Beattie: The New Yorker provides readers with a lifetime worth of short stories from one of the most original and celebrated voices of her generation. When Ann Beattie began publishing short stories in The New Yorker in the mid-seventies, she emerged with a voice so original, and so uncannily precise and prescient in its assessment of her characters' drift and narcissism, that she was instantly celebrated as a voice of her

generation. Her name became an adjective: Beattiesque. Subtle, wry, and unnerving, she is a master observer of the unraveling of the American family, and of the myriad small occurrences and affinities that unite us. Her characters, over nearly four decades, have moved from lives of fickle desire to the burdens and inhibitions of adulthood and on to failed aspirations, sloppy divorces, and sometimes enlightenment, even grace. Each Beattie story, says Margaret Atwood, is "like a fresh bulletin from the front: we snatch it up, eager to know what's happening out there on the edge of that shifting and dubious no-man's-land known as interpersonal relations." With an unparalleled gift for dialogue and laser wit, she delivers flash reports on the cultural landscape of her time. Ann Beattie: The New Yorker Stories is the perfect initiation for readers new to this iconic American writer and a glorious return for those who have known and loved her work for decades. Relates the doings of the Emperor of Pickleberry and his ingenious talking bird Lou.
