Traditional New Orleans Jazz May 28 2023 About a century after its beginnings, traditional jazz remains the definitive music of New Orleans and an international hallmark of the city. The enduring sound and boundless energy of this American art form have produced a long list of jazz legends. From Lionel Ferbos -- the city's oldest working jazz musician -- to Grammy winner

Irvin Mayfield, the musical heritage of traditional jazz lives on through each player's passion. In *Traditional New Orleans Jazz*, veteran jazz journalist Thomas Jacobsen discusses that legacy with Ferbos, Mayfield, and a who's who of the present-day scene's "trad jazz" players. Through intimate conversations with jazz veterans and up-and-coming talent, Jacobsen elicits honest, witty, and sometimes comedic discussions that reveal a strong mutual devotion to do one thing -- compose and play music inspired by the Crescent City's earliest jazz musicians. *Traditional New Orleans Jazz* presents local perspectives on what has become an international language with interviews from Lucien Barbarin, Evan Christopher, Duke Heitger, Leroy Jones, Dr. Michael White, and many more. Jacobsen also notes the stewardship of traditional jazz means more than making music. Its longevity relies on teaching and innovation, furthering the inextricable ties between the music and the men who make it. *Traditional New Orleans jazz* is a culture of its own, and the players in this remarkable volume are its native speakers.

All Clever Men, Who Make Their Way Jun 16 2022 From the pages of forgotten journals and literary magazines Michael O'Brien assembles fourteen pieces that effectively challenge the long-prevailing notion that the mind of the Old South was superficial, unintellectual, and obsessed with race and slavery. In this book are discourses on subjects ranging from English empirical thought to neoclassical aesthetics, from the enfranchisement of women to transcendental theology, from the works of Hawthorne and Emerson to the social system of Virginia.

One Day at Disney Aug 26 2020 Discover what it's like to report to work every day for The Walt Disney Company. Step behind the scenes to immerse yourself in one "ordinary" day at Disney. In addition to the book, the Disney+ team was on hand to capture stories along the way. A full-length documentary and 52 short-form episodes expand the profiles and delve deeper into the essence of what it's like to be a Disney cast member. On a Thursday in 2019, a small army of photographers and videographers scattered across the globe to capture what goes on beyond those tantalizing "Cast Members Only" doors - whether eavesdropping on historic endeavors or typical tasks. All the photos in this book were taken on that single Thursday, beginning early in Tokyo and following the sun around the world through Shanghai, Hong Kong, Paris,

Madrid, the Bahamas, Costa Rica, and dozens of places throughout the United States. More than 40 hours after it began, the day ended as the sun set on the Aulani resort in Hawaii. On that day, some 80 Cast Members agreed to open up their workshops, dressing rooms, kitchens, cubicles, TV studios, labs, locomotive engines - and some even more surprising and diverse work spaces. They also shared their stories: childhood dreams and chapters, career pivots and triumphs, workaday hurdles and joys. It was just a day in the life, as extraordinary as any other day at Disney. As any Cast Member can tell you, a Disney job is less a destination than a limitless journey. And for just One Day at Disney, we can all tag along for the ride.

To Err Is Human Jul 06 2021 Experts estimate that as many as 98,000 people die in any given year from medical errors that occur in hospitals. That's more than die from motor vehicle accidents, breast cancer, or AIDS—three causes that receive far more public attention. Indeed, more people die annually from medication errors than from workplace injuries. Add the financial cost to the human tragedy, and medical error easily rises to the top ranks of urgent, widespread public problems. To Err Is Human breaks the silence that has surrounded medical errors and their consequence—but not by pointing fingers at caring health care professionals who make honest mistakes. After all, to err is human. Instead, this book sets forth a national agenda—with state and local implications—for reducing medical errors and improving patient safety through the design of a safer health system. This volume reveals the often startling statistics of medical error and the disparity between the incidence of error and public perception of it, given many patients' expectations that the medical profession always performs perfectly. A careful examination is made of how the surrounding forces of legislation, regulation, and market activity influence the quality of care provided by health care organizations and then looks at their handling of medical mistakes. Using a

detailed case study, the book reviews the current understanding of why these mistakes happen. A key theme is that legitimate liability concerns discourage reporting of errorsâ€"which begs the question, "How can we learn from our mistakes?" Balancing regulatory versus market-based initiatives and public versus private efforts, the Institute of Medicine presents wide-ranging recommendations for improving patient safety, in the areas of leadership, improved data collection and analysis, and development of effective systems at the level of direct patient care. *To Err Is Human* asserts that the problem is not bad people in health careâ€"it is that good people are working in bad systems that need to be made safer. Comprehensive and straightforward, this book offers a clear prescription for raising the level of patient safety in American health care. It also explains how patients themselves can influence the quality of care that they receive once they check into the hospital. This book will be vitally important to federal, state, and local health policy makers and regulators, health professional licensing officials, hospital administrators, medical educators and students, health caregivers, health journalists, patient advocatesâ€"as well as patients themselves. First in a series of publications from the Quality of Health Care in America, a project initiated by the Institute of Medicine

The Defining Decade Sep 07 2021 The Defining Decade has changed the way millions of twentysomethings think about their twenties—and themselves. Revised and reissued for a new generation, let it change how you think about you and yours. Our "thirty-is-the-new-twenty" culture tells us the twentysomething years don't matter. To Make the Wounded Whole Aug 07 2021 In the decades since it was identified in 1981, HIV/AIDS has devastated African American communities. Members of those communities mobilized to fight the epidemic and its consequences from the beginning of the AIDS activist movement. They struggled not only to overcome the stigma and denial surrounding a "white gay disease" in Black America, but also to bring resources to struggling communities that were often dismissed as too "hard to reach." *To Make the Wounded Whole* offers the first history of African American AIDS activism in all of its depth and breadth. Dan Royles introduces a diverse constellation of activists, including medical professionals, Black gay intellectuals, church pastors, Nation of Islam leaders, recovering drug users, and Black feminists who pursued a wide array of grassroots approaches to slow the epidemic's spread and address its impacts. Through interlinked stories from Philadelphia and Atlanta to South Africa and back again, Royles documents the diverse, creative, and global work of African American activists in the decades-long battle against HIV/AIDS.

Women Who Make a Fuss Mar 26 2023 Virginia Woolf, to whom university admittance had been forbidden, watched the universities open their doors. Though she was happy that her sisters could study in university libraries, she cautioned women against joining the procession of educated men and being co-opted into protecting a “civilization” with values alien to women. Now, as Woolf’s disloyal (unfaithful) daughters, who have professional positions in Belgian universities, Isabelle Stengers and Vinciane Despret, along with a collective of women scholars in Belgium and France, question their academic careers and reexamine the place of women and their role in thinking, both inside and outside the university. They urge women to heed Woolf’s cry—Think We Must—and to always make a fuss about injustice, cruelty, and arrogance.
