Joan Bolker, midwife to more than one hundred dissertations and co-founder of the Harvard Writing Center, offers invaluable suggestions for the graduate-student writer. Using positive reinforcement, she begins by reminding thesis writers that being able to devote themselves to a project that truly interests them can be a pleasurable adventure. She encourages them to pay close attention to their writing method in order to discover their individual work strategies that promote productivity; to stop feeling fearful that they may disappoint their advisors or family members; and to tailor their theses to their own writing style and personality needs. Using field-tested strategies she assists the student

through the entire thesis-writing process, offering advice on choosing a topic and an advisor, on disciplining one's self to work at least fifteen minutes each day; setting short-term deadlines, on revising and defing the thesis, and on life and publication after the dissertation. Bolker makes writing the dissertation an enjoyable challenge.

**The Professor Is In** Apr 11 2022 The definitive career guide for grad students, adjuncts, post-docs and anyone else eager to get tenure or turn their Ph.D. into their ideal job Each year tens of thousands of students will, after years of hard work and enormous amounts of money, earn their Ph.D. And each year only a small percentage of them will land a job that justifies and rewards their investment. For every comfortably tenured professor or well-paid former academic, there are countless underpaid and overworked adjuncts, and many more who simply give up in frustration. Those who do make it share an important asset that separates them from the pack: they have a plan. They understand exactly what they need to do to set themselves up for success. They know what really moves the needle in academic job searches, how to avoid the all-too-common mistakes that sink so many of their peers, and how to decide when to point their Ph.D. toward other, non-academic options. Karen Kelsky has made it her mission to help readers join the select few who get the most out of their Ph.D. As a former tenured professor and department head who oversaw numerous academic job

searches, she knows from experience exactly what gets an academic applicant a job. And as the creator of the popular and widely respected advice site The Professor is In, she has helped countless Ph.D.'s turn themselves into stronger applicants and land their dream careers. Now, for the first time ever, Karen has poured all her best advice into a single handy guide that addresses the most important issues facing any Ph.D., including: -When, where, and what to publish -Writing a foolproof grant application - Cultivating references and crafting the perfect CV -Acing the job talk and campus interview - Avoiding the adjunct trap -Making the leap to nonacademic work, when the time is right The Professor Is In addresses all of these issues, and many more.

Writing Strategies for the Education Dissertation Jun 20 2020 Writing Strategies for the Education Dissertation offers a unique take on doctoral writing. It uses composition and rhetoric strategies to identify key activities for generating thought to keep students writing. It de-mythologizes the view of writing as a mere skill and promotes the view of writing as thinking. It uses writing to help students invent, think through, write, rethink, and rewrite as they develop and present their innovations. The book opens with this mindset and with the purposes of the task (adding to knowledge); it helps define a "researchable topic," and provides advice on invention ("brainstorming"). It then addresses each of the key sections of the dissertation, from Problem Statement, through

Literature Review and Methods, to Findings and Conclusions, while underscoring the iterative nature of this writing. For each chapter, the book provides advice on invention, argument, and arrangement ("organization") - rhetorical elements that are seldom fully addressed in textbooks. Each chapter also looks at possible missteps, offers examples of student writing and revisions, and suggests alternatives, not rules. The text concludes with an inventive approach of its own, addressing style (clarity, economy, and coherence) as persuasion. This book is suitable for all doctoral students of education and others looking for tips and advice on the best dissertation writing.

**Writing and Publishing Your Thesis, Dissertation, and Research** Nov 06 2021 This book provides masters and doctoral students with an in-depth and comprehensive guide to the process of writing a thesis or dissertation. It breaks down this often foreboding and overwhelming goal into achievable steps, presenting models that prepare readers for each stage of the process. Within each step, the authors supply all the tools and detailed instructions necessary for the successful completion of a thesis or dissertation. Along the way, the book offers readers skills and techniques that can help them cope more effectively with the psychological or emotional blocks that often get in the way of accomplishing their goal.

**Thesis and Dissertation Writing in a Second Language** Jul 02 2021 The

relationship of supervisor to student has traditionally been seen as one of apprenticeship, in which much learning is tacit, with the expectation that the student will become much like the tutor. The changing demographics of higher education in conjunction with imperatives of greater accountability and support for research students have rendered this scenario both less likely and less desirable and unfortunately many supervisors are challenged by the task of guiding non-native speaker students to completion. This handbook is the ideal guide for all supervisors working with undergraduate and postgraduate non-native speaker students writing a thesis or dissertation in English as it explicitly unpacks thesis writing, using language that is accessible to research supervisors from any discipline.

**How to Design, Write, and Present a Successful Dissertation Proposal** Jan 28 2021 How to Design, Write, and Present a Successful Dissertation Proposal, by Elizabeth A. Wentz, is essential reading for any graduate student entering the dissertation process in the social or behavioral sciences. The book addresses the importance of ethical scientific research, developing your curriculum vitae, effective reading and writing, completing a literature review, conceptualizing your research idea, and translating that idea into a

realistic research proposal using research methods. The author also offers insight into oral presentations of the completed proposal, and the final chapter presents ideas for next steps after the proposal has been presented. Taking the view that we “learn by doing,” the author provides Quick Tasks, Action Items, and To Do List activities throughout the text that, when combined, develop each piece of your research proposal. Designed primarily for quantitative or mixed methods research dissertations, this book is a valuable start-to-finish resource.

Written by an experienced lecturer and writer, this book is a 'must-have' for a any student anxious to maximize their success in dissertation writing.

**The Authentic Dissertation** Jul 22 2020 The Authentic Dissertation is a road map for students who want to make their dissertation more than a series of hoop-jumping machinations that cause them to lose the vitality and meaningfulness of their research. Students and tutors are presented with practical guidance for the kind of alternative dissertations that many educators believe are needed to move Doctoral and Master's level work beyond the limitations that currently stifle authentic contributions for a better world. Drawing on his Cherokee/Creek ancestry and the Raramuri shamans of Mexico the author explores how research can regain its humanist core and find its true place in the natural order once more. Four Arrows provides a degree of "credibility" that will help graduate students legitimize their ideas in the eyes of more

conservative university committees. This inspiring book will also help academics who sincerely want to see these alternative forms but are concerned about the rigor of "alternative" dissertation research and presentation. The featured dissertation stories tap into more diverse perspectives, more authentic experience and reflection, and more creative abilities. They are, in essence, spiritual undertakings that Honour the centrality of the researcher's voice, experience, creativity and authority Focus more on important questions than on research methodologies per se Reveal virtues (generosity, patience, courage, respect, humility, fortitude, etc.) Regard the people's version of reality The goal of this book is not to replace the historical values of academic research in the western tradition, but to challenge some of these values and offer alternative ideas that stem from different, sometimes opposing values.

*Surviving Your Dissertation* Jun 01 2021 This book offers a user-friendly guide to preparing a perfect dissertation. Rather than focusing only on how to draft the report itself, the authors provide readers with material on generating a researchable question, as well as methods for assessing blind spots and learning styles that may get in the way of completing a dissertation. Using examples from a wide variety of disciplines, the authors demonstrate how to write up results, develop appropriate writing skills, and ways to construct tables and figures. In addition, the book includes information on writing up qualitative research, using computer technology effectively to assist in the dissertation process and following ethical guidelines in conducting research.

**How to Do Your Dissertation in Geography and Related Disciplines** Nov 18 2022 This book provides undergraduates with a step-by-step guide to successfully carrying out an independent research project or dissertation. The book addresses each stage of the project by answering the questions that a student is likely

to ask as the work progresses from choosing the subject area and planning the data collection through to producing illustrations and writing the final report. Most undergraduates in geography and related disciplines are required to undertake individual projects as part of their degree course; this book is a source of constructive, practical advice. This new third edition continues the tradition of friendly, well-informed but informal support, and continues to focus on answering the specific questions that students typically ask at each stage of the project. The new edition brings the text completely up to date by taking into account changes within the discipline and changes in the ways that students work. New digital media, social networking, mobile technology, e-journals, anti-plagiarism software, ethics approval rules and risk assessments are among the issues that this new edition takes into account. The new edition also broadens the book's appeal by extending its coverage of the wide range of different approaches to geographical research, with expanded coverage of qualitative research, Geographic Information Systems, and new approaches to research design in both physical and human geographies

**From Dissertation to Book** Apr 23 2023 All new Phd's hope that their dissertations can become books. But a dissertation is written for a committee and a book for the larger world. William Germano's *From Dissertation to Book* is the essential guide for academic writers who want to revise a doctoral thesis for publication. The author of *Getting It Published*, Germano draws upon his extensive experience in academic publishing to provide writers with a state-of-the-art view of how to turn a dissertation into a manuscript that publishers will notice. Acknowledging first that not all theses can become books, Germano shows how some dissertations might have a better life as one or more journal articles or as chapters in a newly conceived book. But even dissertations strong enough to be published as books first need to become book manuscripts, and at the

heart of *From Dissertation to Book* is the idea that revising the dissertation is a fundamental process of adapting from one genre of writing to another. Germano offers clear guidance on how to do just this. Writers will find advice on such topics as rethinking the table of contents, taming runaway footnotes, shaping chapter length, and confronting the limitations of jargon, alongside helpful timetables for light or heavy revision. With crisp directives, engaging examples, and a sympathetic eye for the foibles of academic writing, *From Dissertation to Book* reveals to recent PhD's the process of careful and thoughtful revision—a truly invaluable skill as they grow into their new roles as professional writers.

**What Moves You?** Feb 09 2022 Every dissertation is individual and unique - particularly for dance students, who must combine a wide range of approaches into a tailor-made research methodology. *What Moves You?* fosters a creative approach to dissertations and final projects. By guiding the development of a personal study program, this volume encourages dance students to take ownership of their artistic and academic work, a skill essential both to successful undergraduate study, and to making the first steps towards a career in dance. Rather than propose a prescriptive, step-by-step mantra, Charlotte Nichol and Lise Uytterhoeven draw upon contributions from students, teachers, examiners and practitioners to broaden the notion of 'research' and demystify the purpose

of the dissertation.
