The Sixth Station May 30 2021 Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? Emotional Equations Jan 06 2022 “An invaluable operating manual,” says Tony Hsieh, Zappos CEO and author of *Delivering Happiness*. Using brilliantly simple logic that illuminates the universal truths in common emotional challenges, popular motivational speaker and bestselling author Chip Conley has written “a fresh, original guide to an authentic and fulfilling life.”* With a foreword by Tony Hsieh, CEO of Zappos and author of *Delivering Happiness* When Chip Conley, dynamic author of the bestselling *Peak*, suffered a series of devastating personal and professional setbacks, he began using what he came to call “Emotional Equations” (such as Joy = Love - Fear) to help him focus on the variables in life that he could handle, rather than dwelling on the parts he couldn't, such as the bad economy, death, and taxes. Using brilliantly simple logic that illuminates the universal truths in common emotional challenges, *Emotional Equations* offers a way to identify the elements in our lives that we can change, those we can't, and how to better understand our emotions so they can help us . . . rather than hurt us. Equations like “Despair = Suffering - Meaning” and “Happiness = Wanting What You Have ÷ Having What You Want” have been reviewed for mathematical and psychological accuracy by experts. Now Conley tells his own comeback story and those of other resilient people and inspiring role models who have worked through emotional equations in their own lives. *Emotional Equations* arms you with practical strategies for turbulent times.

Capital Ideas May 10 2022 The right of governments to employ capital controls has always been the official orthodoxy of the International Monetary Fund, and the organization's formal rules providing this right have not changed significantly since the IMF was founded in 1945. But informally, among the staff inside the IMF, these controls became heresy in the 1980s and 1990s, prompting critics to accuse the IMF of indiscriminately encouraging the liberalization of controls and precipitating a wave of financial crises in emerging markets in the late 1990s. In *Capital Ideas*, Jeffrey Chwieroth explores the inner workings of the IMF to understand how its staff's thinking about capital controls changed so radically. In doing so, he also provides an important case study of how international organizations work and evolve. Drawing on original survey and archival research, extensive interviews, and scholarship from economics, politics, and sociology, Chwieroth traces the evolution of the IMF's approach to capital controls from the 1940s through spring 2009 and the first stages of the subprime credit crisis. He shows that IMF staff vigorously debated the legitimacy of capital controls and that these internal debates eventually changed the organization's behavior--despite the lack of major rule changes. He also shows that the IMF exercised a significant amount of autonomy despite the influence of member states. Normative and behavioral changes in international organizations, Chwieroth concludes, are driven not just by new rules but also by the evolving makeup, beliefs, debates, and strategic agency of their staffs.
